Militarism In Arab Society:

Militarism in Arab Society John Walter Jandora,1997 **Militarism in Arab Society** John W. Jandora,1997-05-12 A much needed reference aid for the academic and national defense communities this book provides a framework for the historical and comparative study of the military culture of Arab society In sections considering warfare in Arab traditions military roles in medieval Islam and Arab armies in the modern age each chapter s bibliography is preceded by a background essay designed to assist researchers who are unfamiliar with the general outline of Arab history or the thematic bent of Arabic historiography The work also includes a glossary and tables of Islamic dynasties Written primarily for professors and students of comparative military history national and service intelligence analysts and students of Arab Islamic or Middle Eastern history this work will also be of use to the generalist historian **Insurgents, Terrorists, and Militias** Richard H. Shultz,Andrea J. Dew,2009 By focusing on four specific hotbeds of instability Somalia Chechnya Afghanistan and Iraq Richard H Shultz Jr and Andrea J Dew carefully analyze tribal culture and clan associations examine why traditional or tribal warriors fight identify how these groups recruit and where they find sanctuary and dissect the reasoning behind their strategy Their new introduction evaluates recent developments in Iraq and Afghanistan the growing prevalence of Shultz and Dew s conception of irregular warfare and the Obama Defense Department s approach to fighting insurgents terrorists and militias War in the post Cold War era cannot be waged through traditional Western methods of combat especially when friendly states and outside organizations like al Qaeda serve as powerful allies to the enemy Bridging two centuries and several continents Shultz and Dew recommend how conventional militaries can defeat these irregular yet highly effective organizations *Militarism After the War* Vickerman Henzell Rutherford,1921 **Iraqi Arab Nationalism** Peter Wien,2008-02-22 Peter Wien presents a provocative discussion on the history of Iraq and the growth of nationalism during the 1930s and early 1940s He deconstructs the established view that a large proportion of the nationalist movement in Iraq during this period was heavily influenced by Nazi Germany arguing that the admiration for Germany was highly nuanced and only rarely translated into admiration for Nazism National unity and patriotism were important but models of leadership were overwhelmingly based on Iraqis and not Hitler Analyzing the activities of the Iraqi youth and Jewish Iraqis Iraqi Arab Nationalism gives an understanding of Iraqis from diverse backgrounds It incorporates source material not previously used in discussions of Iraq and nationalism and contains autobiographical and biographical material from officers intellectuals and politicians along with contemporary journalistic writings which sheds new light on Iraqi nationalism **Parameters** ,1998 *The Creation of Israeli Arabic* Y. Mendel,2015-12-04 This book sheds light on the ways in which the on going Israeli Arab conflict has shaped Arabic language instruction Due to its interdisciplinary nature it will be of great interest to academics and researchers in security and middle eastern studies as well as those focused on language and linguistics Arab Nationalism Peter Wien,2017-02-10 Arab nationalism has been one of the dominant ideologies in the Middle East and North

Africa since the early twentieth century However a clear definition of Arab nationalism even as a subject of scholarly inquiry does not yet exist Arab Nationalism sheds light on cultural expressions of Arab nationalism and the sometimes contradictory meanings attached to it in the process of identity formation in the modern world It presents nationalism as an experienceable set of identity markers in stories visual culture narratives of memory and struggles with ideology sometimes in culturally sophisticated forms sometimes in utterly vulgar forms of expression Drawing upon various case studies the book transcends a conventional history that reduces nationalism in the Arab lands to a pattern of political rise and decline It offers a glimpse at ways in which Arabs have constructed an identifiable shared national culture and it critically dissects conceptions about Arab nationalism as an easily graspable secular and authoritarian ideology modeled on Western ideas and visions of modernity This book offers an entirely new portrayal of nationalism and a crucial update to the field and as such is indispensable reading for students scholars and policymakers looking to gain a deeper understanding of nationalism in the Arab world

The Oxford History of Historical Writing Sarah Foot, Chase F. Robinson, 2012-10-25 How was history written in Europe and Asia between 400 1400 How was the past understood in religious social and political terms And in what ways does the diversity of historical writing in this period mask underlying commonalities in narrating the past The volume which assembles 28 contributions from leading historians tackles these and other questions Part I provides comprehensive overviews of the development of historical writing in societies that range from the Korean Peninsula to north west Europe which together highlight regional and cultural distinctiveness Part II complements the first part by taking a thematic and comparative approach it includes essays on genre warfare and religion amongst others which address common concerns of historians working in this liminal period before the globalizing forces of the early modern world [The Oxford History of Historical Writing](#) Daniel R. Contribution to the Peace Crusade Guglielmo Ferrero, 1903 **Israel's Security and Its Arab Citizens** Hillel Frisch, 2011-10-24 Although a rich literature combining international relations and domestic political developments has recently emerged most works specializing in state minority relations nationalism citizenship and human rights have not integrated insights from the field of international relations and security affairs into their analysis This absence is nowhere more visible than in the study of relations between the Israeli state and its Arab Palestinian minority This book aims to bring back international relations and international security perspectives into the analysis of relations between the Israeli state and its Arab minority Drawing on international relations theory it argues that the relationship between the Israeli state and the predominant community as in many other cases characterized by ethno national cleavage was heavily influenced by the state's broader regional geo strategic security situation State policies toward Israel's Arab citizens moderated in the rare times of relative geo strategic security and hardened when Israel's regional position became more precarious **Culture and**

Imperialism Edward W. Said, 2012-10-24 A landmark work from the author of *Orientalism* that explores the long overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it Grandly conceived urgently written and urgently needed No one studying the relations between the metropolitan West and the decolonizing world can ignore Mr Said's work The New York Times Book Review In the nineteenth and early twentieth centuries as the Western powers built empires that stretched from Australia to the West Indies Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida* Yet most cultural critics continue to see these phenomena as separate Edward Said looks at these works alongside those of such writers as W B Yeats Chinua Achebe and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance Vast in scope and stunning in its erudition *Culture and Imperialism* reopens the dialogue between literature and the life of its time *Origins of the Kurdish Genocide* Ibrahim Sadiq, 2021-05-05 The author argues that a part of the history of nation building in Iraq through addressing its political characters different communities agreements and pan Arab ideology including the Baath ideology and its attempts to seize power through nondemocratic methods It is an attempt to approach the essence of the exclusion mentality of the ruling elite in order to understand the process of genocide against the Kurdish people including all existing religious minorities This essence of the process has been approached in the framework of the civilizing and de civilizing process as a main theory of the German sociologist Norbert Elias Thus this book may be considered as one of the comprehensive books to present a study of state building in Iraq along with identifying some of the political figures that had an essential impact on the construction On the other hand it is a comprehensive study of the genocide in the sense of searching for the causes and roots of the genocide The Anfal campaigns took place in 1988 but the process started as far back as the end of the sixties and the beginning of the seventies of the last century **The Frailty of Authority** Lorenzo Kamel, 2017-03-31 Governance failures combined with 21st century social economic environmental and demographic conditions have all contributed to paving the way for the rise of highly heterogeneous non state and quasi state actors in the Middle East Has the state then been irremediably undermined or will the current transition lead to the emergence of new state entities How can the crumbling of states and the redrawing of borders be reconciled with the exacerbation of traditional inter state competition including through proxy wars How can a new potential regional order be framed and imagined This volume provides a historical background and policy answers to these and a number of other related questions analysing developments in the region from the standpoint of the interplay between disintegration and polarization *Struggles for Political Change in the Arab World* Lisa Blaydes, Amr Hamzawy, Hesham Sallam, 2022-10-11 The advent of the Arab Spring in late 2010 was a hopeful moment for partisans of progressive change throughout the Arab world Authoritarian leaders who had long stood in the way of meaningful political reform in the countries of the region were either ousted or faced the possibility of political if not physical demise The downfall of long standing dictators as they faced off with strong willed protesters was a clear sign that

democratic change was within reach Throughout the last ten years however the Arab world has witnessed authoritarian regimes regaining resilience pro democracy movements losing momentum and struggles between the first and the latter involving regional and international powers This volume explains how relevant political players in Arab countries among regimes opposition movements and external actors have adapted ten years after the onset of the Arab Spring It includes contributions on Egypt Morocco Kuwait Saudi Arabia Syria Algeria Sudan Lebanon Iraq Jordan Yemen and Tunisia It also features studies on the respective roles of the United States China Iran and Turkey vis vis questions of political change and stability in the Arab region and includes a study analyzing the role of Saudi Arabia and its allies in subverting revolutionary movements in other countries

Courting Conflict Lisa Hajjar, 2005-01-31 Israel's military court system a centerpiece of Israel's apparatus of control in the West Bank and Gaza since 1967 has prosecuted hundreds of thousands of Palestinians This authoritative book provides a rare look at an institution that lies both figuratively and literally at the center of the Israeli Palestinian conflict Lisa Hajjar has conducted in depth interviews with dozens of Israelis and Palestinians including judges prosecutors defense lawyers defendants and translators about their experiences and practices to explain how this system functions and how its functioning has affected the conflict Her lucid richly detailed and theoretically sophisticated study highlights the array of problems and debates that characterize Israel's military courts as it asks how the law is deployed to protect and further the interests of the Israeli state and how it has been used to articulate and defend the rights of Palestinians living under occupation

Iraq Between the Two World Wars Reeva S. Simon, 2004 Home to the New York Yankees the Bronx Zoo and the Grand Concourse the Bronx was at one time a haven for upwardly mobile second generation immigrants eager to leave the crowded tenements of Manhattan in pursuit of the American dream Once hailed as a wonder borough of beautiful homes parks and universities the Bronx became during the 1960s and 1970s a national symbol of urban deterioration Thriving neighborhoods that had long been home to

generations of families dissolved under waves of arson crime and housing abandonment turning blocks of apartment buildings into gutted graffiti covered shells and empty trash filled lots In this revealing history of the Bronx Evelyn Gonzalez describes how the once infamous New York City borough underwent one of the most successful and inspiring community revivals in American history From its earliest beginnings as a loose cluster of commuter villages to its current status as a densely populated home for New York s growing and increasingly more diverse African American and Hispanic populations this book shows how the Bronx interacted with and was affected by the rest of New York City as it grew from a small colony on the tip of Manhattan into a sprawling metropolis This is the story of the clattering of elevated subways and the cacophony of crowded neighborhoods the heady optimism of industrial progress and the despair of economic recession and the vibrancy of ethnic cultures and the resilience of local grassroots coalitions crucial to the borough s rejuvenation In recounting the varied and extreme transformations this remarkable community has undergone Evelyn Gonzalez argues that it was not racial discrimination rampant crime postwar liberalism or big government that was to blame for the urban crisis that assailed the Bronx during the late 1960s Rather the decline was inextricably connected to the same kinds of social initiatives economic transactions political decisions and simple human choices that had once been central to the development and vitality of the borough Although the history of the Bronx is unquestionably a success story crime poverty and substandard housing still afflict the community today Yet the process of building and rebuilding carries on and the revitalization of neighborhoods and a resurgence of economic growth continue to offer hope for the future

African Epistemologies for Criticality, Decoloniality and Interculturality Hamza R'boul, 2025-04-24 This book addresses the underrepresentation and more importantly the misrepresentation of African epistemologies and traditions of thought in making sense of theorizing and doing interculturality Africa remains probably the most oppressed and silenced sphere throughout centuries of colonialism and contemporary coloniality Therefore such an anthology provides a platform for those insights that have substantial epistemic capacity to alter our taken for granted notions of what interculturality is and what it is about While a number of works have charted the contributions of African epistemologies in advancing our understanding of our intercultural realities this book argues that the processes of decoloniality through and within interculturality have never been about under misrepresentation per se but about how the politics of representation can provide inaccurate tokenistic and false inclusion This book aims to substantiate the notion that decoloniality and interculturality are mutually inclusive to demonstrate the affordances of African epistemologies in advancing intercultural knowledge and to support the need to make visible philosophical and power literate approaches to interculturality This book will be essential reading for scholars and students interested in African philosophy African epistemology and more broadly interculturality and intercultural communication
