Military Air Power The Cadre Digest Of Air Power Opinions And Thoughts:

Military air power : the CADRE digest of air power opinions and thoughts ,2007 This book is about what Airmen have in common our heritage capacity and future potential It also illustrates that while we re on the leading edge we re also part of the sweep of military history Understanding the way that our predecessors handled their challenges can equip us to better serve our nation The number one aim of this book is to supply Airmen with useful thoughts that might help them meet their known responsibilities and the unknown challenges their service will bring We can learn from both the failures and the successes of soldiers sailors marines and Airmen the ancient past and yesterday s headlines This book is a revision of one published in 1990 Just as in the 1990 edition the quotations are arranged by subject matter to present multiple views of each topic Military Air Power Air University (U.S.). Press,1990 Military Air Power Charles Westenhoff,2002-08-01 This is a book of quotations and comments about air power war and military matters But it would be a great mistake to simply read the quotes and take them literally Each selection presents a picture that you can look at again and again Taken together different views of the same subject matter are like a drafter s plans they can make either an interesting multiple view description of the subject or a puzzle Even a hundred books couldn t give a complete picture of air power and war What this book attempts to do is present a mosaic a big grainy picture of military air power that gains value as you step back from it and achieve perspective And like a mosaic this picture fills in only as you fit each piece with the others Readers who are just embarking on a serious study of the military profession will find food for thought here the more advanced student should find a feast You are invited to read reflect enjoy and appreciate so you may apply your understanding when called to do so Col Dennis M Drew United States Air Force Director Airpower Research Institute Military Airpower ,2007 Col Charles M Westenhoff USAF retired has compiled a thought provoking collection of ideas from an array of luminaries including contemporary and legendary generals innovative tacticians and strategists world leaders and philosophers The quotations were chosen for their value to Airmen and the profession of arms The aim of this book is to supply Airmen with useful thoughts that might help them meet their known responsibilities and the unknown challenges their service will bring Gen T Michael Moseley chief of staff USAF notes that 3understanding the way that our predecessors handled their challenges can equip us to better serve our nation 4 **AirLandBattle21** Ellwood P. Hinman,Thomas E. Jahn,James G. Jinnette,2009 The time has come for innovative counter air and counter land concepts focused on medium to large scale conventional combat operations that will merge air and ground forces even more effectively into a single potent fighting force Such is the focus of AirLandBattle21 **Night Hunters** William P. Head,2012 **FM 3-0 Operations (October 2017) / special u.s army books/** United States. Army,2018-09-17 The Army and joint force must adapt and prepare for large scale combat operations in highly contested lethality to exploit The reduction of friendly forward stationedforces significant reductions in capability and capacity across the entire joint force and the pace of modernizationmake it imperative that we do everything possible to

prepare for worst case scenarios We must be ready to win with the forces we have and having the right doctrine is a critical part **ADA**, 1992-11 **Night Hunters** William Pace Head, 2014-03-18 In Night Hunters air power historian William P Head provides the first detailed study of the development and deployment of the AC 130 gunship While other airframes and other types of close air support CAS and interdiction weapon systems preceded or flew with the AC 130s this four engine cargo airframe proved to be not only the longest serving fixed wing gunship but also the most effective by far During the Vietnam War the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features the difficult climate and the shifting diplomatic context One of the most important was the development of the AC 130 Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam era fixed wing gunship and the only one that continues to fly missions in the twenty first century In addition it employed many of the most advanced weapons sensors targeting devices and fire control systems of the 1970s or of any era By recounting both the technical development and the combat operations of the plane and by looking at the proposed alternatives for its use in the War on Terror Night Hunters offers a clear view of the role of gunships and of close air support in US wars In today's never ending brushfire wars the AC 130s continue to uphold their reputation for excellence
