Military In The Political Development Of New Nations An Essay In Comparative Analysis:

The Military in the Political Development of New Nations, 1971 **The Military in the Political Development of New Nations** Philip Ray Headings, 1964 The Political Resurgence of the Military in Southeast Asia Marcus Mietzner, 2012-11-12 In the late 1990s prominent scholars of civil military relations detected a decline in the political significance of the armed forces across Southeast Asia A decade later however this trend seems to have been reversed The Thai military launched a coup in 2006 the Philippine armed forces expanded their political privileges under the Arroyo presidency and the Burmese junta successfully engineered pseudo democratic elections in 2010 This book discusses the political resurgence of the military in Southeast Asia throughout the 2000s Written by distinguished experts on military affairs the individual chapters explore developments in Burma Thailand the Philippines Vietnam East Timor Indonesia and Singapore They not only assess but also offer explanations for the level of military involvement in politics in each country Consequently the book also makes a significant contribution to the comparative debate about militaries in politics Whilst conditions obviously differ from country to country most authors in this book conclude that the shape of civil military relations is not predetermined by historic economic or cultural factors but is often the result of intra civilian conflicts and divisive or ineffective political leadership **Non-Democratic Regimes** Paul Brooker, 2013-12-04 A comprehensive assessment of the nature and evolving character of authoritarian regimes their changing character and the main theoretical explanations of their incidence character and performance The third edition covers the rise of new forms of disguised dictatorship and semi competitive democracy in the 21st Century Japanese-trained Armies in Southeast Asia Joyce Lebra, 2010 This is the first study by a Western scholar of a significant facet of the history of the Second World War Japanese trained independence and volunteer armies as agents of revolution and modernization At the time the Japanese did not see that their military imprinting would affect a whole generation of political military leadership of nations of post Second World War Southeast Asia Leaders like Suharto Ne Win and Park are all products of Japanese military training **National Security, Good Governance & Democracy in Africa** Dr. Dan Mou, 2016-01-29 This book demonstrates that national security and good governance are opposite sides of the same coin As good governance improves national security also improves in that challenges to national security become lesser and lesser in such a society It concludes that for most of Africa this is not happening fast enough Thus creating fertile grounds for their citizens especially the youths to resort to self help measures some of which include violence and militancy These have further complicated the issues of national security good governance and democracy in Africa Praise for the Book This book is a must read Dr Dan Mou a world class trained political scientist who has served at various ministries and parastatals in Nigeria before retirement has made stunning revelations Lead Times Africa Magazine Dr Dan Mou a varsity don and seasoned civil servant who spent over two decades working in Nigerias Presidency provides deep insights in this book into the intractable security situation in Nigeria and Africa He also x

rays economic policies among other issues Daily Trust Having successfully designed and masterminded many workable national schemes in the past in Nigeria like the memoranda that led to the establishment of the Economic and Financial Crimes Commission EFCC Ministry of Niger Delta Affairs Amnesty Programme for the Niger Delta Region to mention just a few Dr Dan Mou in this book has proposed permanent solutions it is no fallacy to say that no one else could have done it better Dr O W Bashorun Provost College of Education Lagos Nigeria Securing the Peace Monica Duffy Toft, 2009-10-26 Timely and pathbreaking Securing the Peace is the first book to explore the complete spectrum of civil war terminations including negotiated settlements military victories by governments and rebels and stalemates and ceasefires Examining the outcomes of all civil war terminations since 1940 Monica Toft develops a general theory of postwar stability showing how third party guarantees may not be the best option She demonstrates that thorough security sector reform plays a critical role in establishing peace over the long term Much of the thinking in this area has centered on third parties presiding over the maintenance of negotiated settlements but the problem with this focus is that fewer than a quarter of recent civil wars have ended this way Furthermore these settlements have been precarious often resulting in a recurrence of war Toft finds that military victory especially victory by rebels lends itself to a more durable peace She argues for the importance of the security sector the police and military and explains that victories are more stable when governments can maintain order Toft presents statistical evaluations and in depth case studies that include El Salvador Sudan and Uganda to reveal that where the security sector remains robust stability and democracy are likely to follow An original and thoughtful reassessment of civil war terminations Securing the Peace will interest all those concerned about resolving our world's most pressing conflicts

international relations The Evolution of Development Thinking William Ascher, Garry D. Brewer, G. Shabbir Cheema, John M. Politics and Social Change Ishwaran, 2022-09-12 **Peacekeepers and Conquerors** Samuel J. Watson, 2013-04-23 In Jackson's Sword Samuel Watson showed how the U S Army officer corps played a crucial role in stabilizing the frontiers of a rapidly expanding nation In this sequel volume he chronicles how the corps responsibilities and leadership along the young nation's borders continued to grow In the process he shows officers reflected an increasing commitment to professionalism insulation from partisanship and deference to civilian authority all tempered in the forge of frustrating politically complex operations and diplomacy along the nation's frontiers Watson now focuses on the quarter century between the Army's reduction in force in 1821 and the Mexican War He examines a broad swath of military activity beginning with campaigns against southeastern Indians notably the dispossession of the Creeks remaining in Georgia and Alabama from 1825 to 1834 the expropriation of the Cherokee between 1836 and 1838 and the Second Seminole War He also explores peacekeeping on the Canadian border which exploded in rebellion against British rule at the end of 1837 prompting British officials to applaud the U S Army for calming tensions and demonstrating its government's support for the international state system He then follows the gradual extension of U S sovereignty in the Southwest through military operations west of the Missouri River and along the Louisiana Texas border from 1821 to 1838 and through dragoon expeditions onto the central and southern Plains between 1834 and 1845 Throughout his account Watson shows how military professionalism did not develop independent of civilian society nor was it simply a matter of growing expertise in the art of conventional warfare Indeed the government trusted career army officers to serve as federal international and interethnic mediators national law enforcers and de facto intercultural and international peacekeepers He also explores officers attitudes toward Britain Oregon Texas and Mexico to assess their values and priorities on the eve of the first conventional war the United States had fought in more than three decades Watson's detailed study delves deeply into sources that reveal what officers actually thought wrote and did in the

frontier and border regions By examining the range of operations over the course of this quarter century he shows that the processes of peacekeeping coercive diplomacy and conquest were intricately and inextricably woven together **Soldiers and Diplomacy in Burma** Renaud Egretreau,Larry Jagan,2013-06-10 Soldiers and Diplomacy addresses the key question of the ongoing role of the military in Burma s foreign policy The authors a political scientist and a former top Asia editor for the BBC provide a fresh perspective on Burma s foreign and security policies which have shifted between pro active diplomacies of neutralism and non alignment and autarkical policies of isolation and xenophobic nationalism They argue that important elements of continuity underlie Burma s striking postcolonial policy changes and contrasting diplomatic practices Among the defining factors here are the formidable dominance of the Burmese armed forces over state structure the enduring domestic political conundrum and the peculiar geography of a country located at the crossroads of India China and Southeast Asia Egretreau and Jagan argue that the Burmese military still has the tools needed to retain their praetorian influence over the country s foreign policy in the post junta context of the 2010s For international policymakers potential foreign investors and Burma s immediate neighbors this will have strong implications in terms of the country s foreign policy approach

Technical Report Human Resources Research Organization, *The Democratic Coup D'état* Ozan O. Varol,2017 The Democratic Coup d tat advances a simple yet controversial argument democracy sometimes comes through a military coup Covering coups that toppled dictators and installed democratic rule in countries as diverse as Guinea Bissau Portugal and Colombia the book weaves a balanced narrative that challenges everything we knew about military coups Armed forces and society Jacques van Doorn,France)> World Congress of Sociology,Working Group on Armed Forces and Society,2018-11-05 No detailed description available for Armed forces and society **The Military Intervenes** Henry Bienen,1968-12-31 Explores the mechanisms of military intervention and its consequences The contributors examine a succession of coups attempted coups and established military regimes with a view to evaluate the role of the military as a ruling group and an organization fostering political development These studies cast strong doubt on the abilities of the military as a modernizing and stabilizing agent raising important questions about our policies on military assistance and arms sales Bienen makes an especially strong plea for a reassessment of our military and economic political policies in order to determine whether both are working toward the same goals Between Two Worlds: A Rajput Officer in the Indian Army, 1905-21 DeWitt C. Ellinwood,2005-02-15 Diary of Amar Singh with annotations commentary and introduction by DeWitt C Ellinwood Jr Making of an African Giant Dan Mou,2015-10-16 The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities The hope that Nigeria is by destiny the African Giant appears to be fading Some analysts seeing this have blamed it on the character defects of the leadership in Nigeria They argue that because the leaders are predatory and corrupt they have preoccupied themselves with their interests which are primitive accumulation and luxurious lifestyles Meanwhile the rest of the citizens are suffering This book argues that

such character defects may indeed exist in some of Nigerian leaders. However, these are not the main reasons for their dismal performance regarding the welfare of the citizens. The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies, which appear to have been captured by the dominant classes and groups. Local and international Nigeria's main problem is therefore a structural one. Nonetheless, the book concludes that as the security, economic, political, and social crises intensify, Nigerian leaders, even if it is simply for self-preservation, will be forced by the objective conditions to move against the interests of these dominant classes and groups. It is only then that Nigeria can realistically be restored to the possibility of becoming an African Giant.

Arming East Asia Eric Setzekorn, 2023-03-15

Arming East Asia: Deterring China in the Early Cold War examines President Eisenhower's mutual security program in East Asia and explains how that administration worked to contain China. This historical chronicle offers insights and perspectives regarding how to address Sino-American tensions and maintain a free and open Asia-Pacific. Eric Setzekorn argues that President Eisenhower expanded and solidified the U.S. presence in East Asia through use of military aid and military advisory efforts in sharp contrast to the use of U.S. military forces by Presidents Truman, Kennedy, and Johnson. In South Korea, Taiwan, Japan, and Southeast Asia, particularly in Thailand and South Vietnam, the United States spent billions of dollars and significant time developing local military forces. By the end of Eisenhower's two terms, a force of over 1.4 million Allied soldiers in East Asia had been trained, equipped, and often paid through American military assistance. Eisenhower's mutual security policies were vital in building local allies, and by the end of the 1950s, East Asia was beginning a long period of growth that would make it the economic heart of the world within fifty years. American policies that created close ties and involvement in the affairs of allied nations also constrained allies such as Chiang Kai-shek in Taiwan and Syngman Rhee in South Korea, who often sought to take direct action against the PRC. The heavy role of American military advisors and experts on the ground in East Asia also profoundly shaped the character of these nations, all of which were emerging from war by putting massive resources into the government administration and military forces of newly formed states. With an assertive China using its growing political and military power throughout East Asia, contemporary U.S. security challenges are similar to the situation faced in that earlier contentious era. Eisenhower's policies from 1953 to 1961 clearly demonstrate an awareness of the possibilities for military, economic, and political growth in East Asia and the challenges of deterring Chinese PRC expansion during the early Cold War. The views expressed in this publication are those of the author and do not necessarily reflect the official policy or position of the Department of Defense or the U.S. government.
