Military Operations Mesopotamia V 1 Official History Of The Great War:

the cambridge history of the british empire Henry Dodwell,1929 *The Cambridge History of the British Empire*
John Holland Rose,1929 **Bloody Red Tabs** Frank Davies,Graham Maddocks,2014-04-30 Long before that ghastly and quite unnecessary slogging match in the mud which we now call the First World War had dragged to its blood soaked conclusion the belief that most of the senior officers had spent their time in comfort and safety in chateaux far behind the lines with no idea of the conditions in which the men they commanded were fighting was firmly embedded in the public mind As the years pass by that belief has if anything become more deeply held gaining strength from plays like Oh What a Lovely War itself based on Alan Clark s book The Donkeys It is the purpose of this book to show not only how the myth was born and grew but how totally at odds it is with the facts Biographies of over 200 officers who held the rank of Brigadier General or above who were killed or wounded during the war show how closely involved the men at the top were with the men at the front Ironically as the authors point out this was more than just a waste of blood for these were the very men whose experience was vital to the successful prosecution of the war Had they actually stayed in their chateaux as Lloyd George alleged they might have done much more to hasten the end of the conflict This is not only an invaluable work of reference but a tribute to those gallant senior officers who have been so unfairly traduced by many who should have known better As featured in Essence Magazine **History of the Great War : Military Operations : the Campaign in Mesopotamia 1914-1918, Vol:1** F.J. Great Britain. Committee of Imperial Defence. Historical Sec,1992 *Ottoman Army Effectiveness in World War I* Edward J. Erickson,2007-02 This volume examines how the Ottoman Army was able to evolve and maintain a high level of overall combat effectiveness despite the primitive nature of the Ottoman State during the First World War Structured around four case studies at the operational and tactical level of campaigns involving the Ottoman Empire and the British Empire Gallipoli in 1915 Kut in 1916 Third Gaza Beersheba in 1917 and Megiddo in 1918 For each of these campaigns particular emphasis is placed on examining specific elements of combat effectiveness and how they affected that particular battle The prevalent historiography attributes Ottoman battlefield success primarily to external factors such as the presence of German generals and staff officers climate weather and terrain that adversely affected allied operations allied bumbling and amateurish operations and inadequate allied intelligence By contrast Edward J Erickson argues that the Ottoman Army was successful due to internal factors such as its organizational architecture a hardened cadre of experienced combat leaders its ability to organize itself for combat and its application of the German style of war Ottoman Army Effectiveness in World War I will be of great interest to students of the First World War military history and strategic studies in general Bulletin of the Public Affairs Information Service, a Cooperative Clearing House of Public Affairs Information Public Affairs Information Service,1924 **Public Affairs Information Service Bulletin** ,1924 **The Empire-Commonwealth 1870-1919** Ernest Alfred Benians,James Ramsay Montagu Butler,Charles Carrington,1959
