Military Rule In Latin America Functions Consequences And Perspectives Sage

Michael A. Morris

Military Rule In Latin America Functions Consequences And Perspectives Sage:

MILITARY RULE IN LATIN AMERICA. FUNCTION, CONSEQUENCES AND PERSPECTIVES. ED. BY P. C. SCHMITTER. ,1973 The New Authoritarianism in Latin America David Collier,Fernando Henrique Cardoso,Joint Committee on Latin American Studies,1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic authoritarian model there has been growing dissatisfaction with various elements of this model In light of this dissatisfaction a group of leading economists political scientists and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman Jose Serra Robert Kaufman and Julio Coder In Part Three Guillermo O Donnell James Kurth and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism opportunities for extending the analysis to Europe and priorities for future research The book includes a glossary and an extensive bibliography World Military History Bibliography Barton Hacker,2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical **Irregular Armed Forces and their Role in Politics and State Formation** Diane E. Davis,Anthony W. Pereira,2003-01-13 Existing models of state formation are derived primarily from early Western European experience and are misleading when applied to nation states struggling to consolidate their dominion in the present period In this volume scholars suggest that the Western European model of armies waging war on behalf of sovereign states does not hold universally The importance of irregular armed forces militias guerrillas paramilitaries mercenaries bandits vigilantes police and so on has been seriously neglected in the literature on this subject The case studies in this book suggest among other things that the creation of the nation state as a secure political entity rests as much on irregular as regular armed forces For most of the developing world the state s legitimacy has been difficult to achieve constantly eroding or challenged by irregular

armed forces within a country's borders No account of modern state formation can be considered complete without attending to irregular forces *Understanding Comparative Politics* Mehran Kamrava, 2002-11-01 Comparative politics has undergone significant theoretical changes in recent decades Particularly since the 1980s a new generation of scholars have revamped and rejuvenated the study of the subject Mehran Kamrava examines current and past approaches to the study of comparative politics and proposes a new framework for analysis This is achieved through a comparative examination of state and social institutions the interactions that occur between them and the political cultures within which they operate The book also offers a concise and detailed synthesis of existing comparative frameworks that up to now at least have encountered analytical shortcomings on their own Although analytically different in its arguments and emphasis from the current Mainstream genre of literature on comparative politics the present study is a logical outgrowth of the scholarly works of the last decade or so It will be essential reading for all students of comparative politics **Why Did the United States Invade Iraq?** Jane

Cramer, A. Trevor Thrall, 2013-03 This edited volume presents the foremost scholarly thinking on why the US invaded Iraq in 2003 a pivotal event in both modern US foreign policy and international politics In the years since the US invasion of Iraq it has become clear that the threat of weapons of mass destruction was not as urgent as the Bush administration presented it and that Saddam Hussein was not involved with either Al Qaeda or 9 11 Many consider the war a mistake and question why Iraq was invaded A majority of Americans now believe that the public were deliberately misled by the Bush administration in order to bolster support for the war Public doubt has been strengthened by the growing number of critical scholarly analyses and in depth journalistic investigations about the invasion that suggest the administration was not candid about its reasons for wanting to take action against Iraq This volume begins with a survey of private scholarly views about the war's origins then assesses the current state of debate by organising the best recent thinking by foreign policy and international relations experts on why the US invaded Iraq The book covers a broad range of approaches to explaining Iraq the role of the uncertainty of intelligence cognitive biases ideas Israel and oil highlighting areas of both agreement and disagreement This book will be of much interest to students of the Iraq War US foreign and security policy strategic studies Middle Eastern politics and IR Security Studies in general **Air University Review**, 1973 **Arming the Two Koreas** Taik-Young

Hamm, 2012-10-12 North Korea has traditionally been seen as militarily superior to South Korea in the long feud between the two nations This brilliantly argued book taps into a great deal of news interest in North Korea at the moment in the wake of recent hostility against Japan Hamm controversially shows that the received idea of Korea's military strength is partly a myth created by South Korea to justify a huge programme of rearmament **Political Violence, Crises and Revolutions (Routledge Revivals)** Ekkart Zimmermann, 2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violence Crises Military Coups D tat Revolutions Findings from social psychological research on

aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and corresponding empirical evidence The author continually highlights the sociostructural and political conditions of political violence crises and revolutions This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science political violence crises and revolutions also includes a remarkable bibliography encompassing over 3000 items

Persuasions and Prejudices Irving Horowitz, 2017-07-05 Review essays and statements written for special occasions may reveal as much about the writer as those written about this is the presumption undergirding this collection of thirty five years of criticism and commentary by Irving Louis Horowitz For this volume he selected his comments on famous near famous and infamous sociologists political scientists and assorted literary figures in between Taken as a whole this volume will surprise and delight readers who are acquainted with Horowitz's other works as well as those who are interested in the people he writes about The book covers notable social scientists from Arendt to Zetterberg and such major figures in between as Becker Bell de Jouvenel Mills Parsons Solzhenitsyn and more than eighty others who have had an effect on the contemporary social and political landscape Each is critically examined sometimes positively other times negatively Horowitz was a major figure in his own right and his writing here displays the kind of refreshing frankness experts will expect and the general reader will appreciate The underlying assumption behind the volume giving its disparate parts a unified characteristic is that together these observations on others amount to a general perspective on social science held by the author Whether his larger ambition is accepted or disputed there is no doubt that the volume provides a standard against which to measure the literary quality of writing in the world of professional social research

Controlling Latin American Conflicts Michael A. Morris, 2019-03-04 Latin America remains a turbulent region characterized by conflict and increased militarization despite the existence of regional juridical mechanisms for controlling disputes In this book scholars from both Latin and North America collaborate in presenting ten original approaches to containing and resolving conflict in the region Stressing the need to closely link contemporary approaches to conflict management with the Latin American legalistic tradition they examine a broad scope of mechanisms ranging from confidence building measures to arms control agreements This book is the first systematic attempt to survey arms control and to generate approaches for controlling conflicts in Latin America Ten original approaches to containing and resolving conflict in Latin America are developed in the successive chapters of this volume

Politics And Public Policy In Latin America Steven W Hughes, Kenneth J Mijeski, 2019-05-28 This innovative textbook focuses on the policy approach as a systematic tool for understanding Latin American political life and then outlines policymaking variations among the Latin American regimes The authors introduce the student to the study of policymaking by examining various theoretical perspectives and then grounding those perspectives in

The Political Economy of Latin American Defense Expenditures Robert E. Looney, 1986

Zones of Peace in the Third World Arie Marcelo Kacowicz, 1998-01-01 Provides

a critique and an extension of the democratic peace theory by focusing on the regional level and by offering alternative explanations for the maintenance of democratic and non democratic zones of peace Military Power in Latin America Walter Little,1986 Redeg relse for status og omfang af den milit re magt i Mellem og Sydamerika *State Violence and Genocide in Latin America* Marcia Esparza, Henry R. Huttenbach, Daniel Feierstein, 2009-09-10 This edited volume explores political violence and genocide in Latin America during the Cold War examining this in light of the United States hegemonic position on the continent Using case studies based on the regimes of Argentina Chile Guatemala Peru and Uruguay this book shows how U S foreign policy far from promoting long term political stability and democratic institutions has actually undermined them The first part of the book is an inquiry into the larger historical context in which the development of an unequal power relationship between the United States and Latin American and Caribbean nations evolved after the proliferation of the Monroe Doctrine The region came to be seen as a contested terrain in the East West conflict of the Cold War and a new US inspired ideology the National Security Doctrine was used to justify military operations and the hunting down of individuals and groups labelled as communists Following on from this historical context the book then provides an analysis of the mechanisms of state and genocidal violence is offered demonstrating how in order to get to know the internal enemy national armies relied on US intelligence training and economic aid to carry out their surveillance campaigns This book will be of interest to students of Latin American politics US foreign policy human rights and terrorism and political violence in general Marcia Esparza is an Assistant Professor in Criminal Justice Department at John Jay College of Criminal Justice in New York City Henry R Huttenbach is the Founder and Chairman of the International Academy for Genocide Prevention and Professor Emeritus of City College of the City University of New York Daniel Feierstein is the Director of the Center for Genocide Studies at the Universidad Nacional de Tres de Febrero Argentina and is a Professor in the Faculty of Genocide at the University of Buenos Aires Argentina **A Selected Bibliography on the United States Army in Latin America** US Army Military History Institute, Claude C. Sturgill, 1986 Military Institutions and Coercion in the Developing Nations Morris Janowitz, 1988-02-29 This book includes Janowitz s seminal work The Military in the Political Development of New Nations with additional new analysis of Latin American nations and of the increasing significance of paramilitary and police forces in authoritarian regimes in developing nations **Latin America** Jan Knippers Black, 2018-04-17 Now in a fifth edition Latin America has been updated to reflect the region s growing optimism as economies stabilize trade diversifies and political systems become more participatory This multidisciplinary survey of Latin American history politics and society features invited contributions from authorities in a variety of fields New sections address current events including deforestation in Costa Rica and Brazil emerging social movements Ecuador s new constitution and Obama s stated objectives to repair U S relations with the region In addition key topics such as women and Latin American politics socialist governments and anti American sentiment Argentina s deteriorating economy and Colombia s struggle with military and

narcotics issues receive expanded and revitalized treatment Other updated material covers outcomes of recent elections in Bolivia Brazil and Nicaragua among others Through a hybrid thematic and regional organization this text provides an essential foundation for introductory courses on Latin America **Military Foundations of Panamanian Politics** Robert Harding II, 2019-01-22 This is a comprehensive examination of the evolution of the politicization of the Panamanian military and the legacy of this transformation in modern Panamanian politics It addresses the fundamental role that the Panamanian military played in influencing and molding the modern day Panamanian political system structurally legally and constitutionally and chronicles the corporate and political growth of the Panamanian military filtering its analysis through civil military theory to achieve its two primary goals
