Saunders,2011-12-13 A look at the items crafted by soldiers prisoners and civilians from war waste and other items during World War I and the years leading to World War II Engraved shell cases bullet crucifixes letter openers and cigarette lighters made of shrapnel and cartridges miniature airplanes and tanks talismanic jewelry embroidery objects carved from stone bone and wood all of these things are trench art the misleading name given to the dazzling array of objects made from the waste of war in particular the Great War of 1914 1918 and the inter war years And they are now the subject of Nicholas Saunders s pioneering study Saunders reveals the lost world of trench art for every piece relates to the story of the momentous experience of its maker whether front line soldier prisoner of war or civilian refugee The objects resonate with the alternating terror and boredom of war and those created by the prisoners symbolize their struggle for survival in the camps Many of these items were poignant souvenirs bought by battlefield pilgrims between 1919 and 1939 and kept brightly polished on mantelpieces often for a lifetime Nicholas Saunders investigates their origins and how they were made exploring their personal meaning and cultural significance He also offers an important categorization of types which will be a useful guide for collectors Praise for Trench Art The array of art created from a combination of terror and boredom is astonishing Nicholas writes knowledgeably and movingly on his subjects and the photos and layout are first class Steve Earles Hellbound ca

**Trench Art** Nicholas Saunders,2020-06-15 Trench art is the evocative name given to a dazzling array of objects made from the waste of industrialized war Each object whether an engraved shell case cigarette lighter or a pen made from shrapnel tells a unique and moving story about its maker For the first time this book explores in depth the history and cultural importance behind these ambiguous art forms Not only do they symbolize human responses to the atrocities of war but they also act as mediators between soldiers and civilians individuals and industrial society and most importantly between the living and the dead Trench art resonates most obviously with the terror of endless bombardment night raids gas attacks and the bestial nature of trench life It grew in popularity between 1919 and 1939 when the bereaved embarked on battlefield pilgrimages and returned with objects intended to keep alive the memory of loved ones The term trench art is however misleading as it does not simply refer to materials found in the trenches It describes a diverse range of objects that have in some way emerged from the experience of war all over the world Many distinctive objects for example were made during conflicts in Bosnia Vietnam Northern Ireland and Korea Surprisingly trench art predates World War I and it can be made in a number of earlier wars such as the Crimean War the American Civil War and the Boer War Saunders looks at the broader issues of what is meant by trench art what it was before the trenches and how it fits in with other art movements as well as the specific materials used in making it He suggests that it can be seen as a bridge between the nineteenth century certainties and the fragmented industrialized values and ideals of the modern world This long overdue study offers an original and informative look at one of the most arresting forms of art Spanning from 1800 to the present day its analysis of art human experience and warfare will pave the way for new research     [The International Militaria Collector's Guide Gary](#)
