

CASEY'S MILITARY ANALYSTS

KENNETH MACKSEY

# MILITARY ERRORS OF WORLD WAR TWO

# Military Errors Of World War Two

**Thomas Powers**

## **Military Errors Of World War Two:**

**Comprehensive Tax Reform** United States. Congress. House. Committee on Ways and Means,1986      **Military Errors of World War Two** Macksey, Kenneth,1987      *The Greatest Blunders of World War II* Horace Edward Henderson,2001-08 Adolph Hitler lost WWII because of his blunders and the U S and its allies won WWII in spite of their blunders Nearly a lifetime of research and study by a veteran of World War II reveals the major political and military errors and mistakes which caused the greatest catastrophe in world history almost lost the struggle with the greatest evil the world has ever known failed to end the conflict in a decisive victory for the survival of freedom and democracy subjected the world to almost half a century of fear and turmoil in the Cold War and wasted vast world resources on armaments while hundreds of millions of people suffered from hunger illness and death This analysis of the major issues and campaigns of World War II concentrates on what went wrong with the conduct of the war which needlessly prolonged its brutal end and reveals how narrow was the margin between victory and defeat      *American Military History* Daniel K. Blewett,2008-12-30 In this companion volume to his 1995 bibliography of the same title Daniel Blewett continues his foray into the vast literature of military studies As did its predecessor it covers land air and naval forces primarily but not exclusively from a U S perspective with the welcome emergence of small wars from publishing obscurity In addition to identifying relevant organizations and associations Blewett has gathered together the very best in chronologies bibliographies biographical dictionaries indexes journals abstracts glossaries and encyclopedias each accompanied by a brief descriptive annotation This work remains a pertinent addition to the general reference collections of public and academic libraries as well as special libraries government documents collections military and intelligence agency libraries and historical societies and museums      How Hitler Could Have Won World War II Bevin Alexander,2007-12-18 From an acclaimed military historian a fascinating account of just how close the Allies were to losing World War II Most of us rally around the glory of the Allies victory over the Nazis in World War II The story is often told of how the good fight was won by an astonishing array of manpower and stunning tactics However what is often overlooked is how the intersection between Adolf Hitler s influential personality and his military strategy was critical in causing Germany to lose the war With an acute eye for detail and his use of clear prose Bevin Alexander goes beyond counterfactual What if history and explores for the first time just how close the Allies were to losing the war Using beautifully detailed newly designed maps *How Hitler Could Have Won World War II* exquisitely illustrates the important battles and how certain key movements and mistakes by Germany were crucial in determining the war s outcome Alexander s harrowing study shows how only minor tactical changes in Hitler s military approach could have changed the world we live in today Alexander probes deeply into the crucial intersection between Hitler s psyche and military strategy and how his paranoia fatally overwhelmed his acute political shrewdness to answer the most terrifying question Just how close were the Nazis to victory      World War II in Literature for Youth Patricia Hachten Wee,Robert James Wee,2004 This

comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource      **Intelligence and Military Operations** Michael Handel,2013-09-13

Traditionally the military community held the intelligence profession in low esteem spying was seen as dirty work and information was all too often ignored if it conflicted with a commander's own view Handel examines the ways in which this situation has improved and argues that co operation between the intelligence adviser and the military decision maker is vital

**Genocide, War Crimes and the West** Doctor Adam Jones,2013-07-04 Genocide and war crimes are increasingly the focus of scholarly and activist attention Much controversy exists over how precisely these grim phenomena should be defined and conceptualized Genocide War Crimes in most cases their contributions are specifically written for this volume In the opening and closing sections of the book analytical issues are considered including questions of responsibility for genocide and war crimes and institutional responses at both the domestic and international levels The central section is devoted to an unprecedentedly broad range of original case studies of western involvement or alleged involvement in war crimes and genocide At a moment in history when terrorism has become a near universal focus of public attention this volume makes clear why the West as a result of both its historical legacy and contemporary actions so often excites widespread resentment and opposition throughout the rest of the world      [Air University Library Index to Military Periodicals](#) ,1987      [Gunnery from the Sky](#) Paul Chrystal,David Chrystal,2023-10-12 This is the story of the 1st Air Landing Light Regiment RA and its role in the Italian campaign and at the Battle of Arnhem It is also the story of one of its soldiers 14283058 Gunner Eric Wright Chrystal father of the authors Eric joined the army in September 1942 and after training joined the newly formed glider borne regiment the following year He first saw action in Italy in 1943 where he was seriously wounded On 17 September 1944 two years to the day since he enlisted he and the regiment were landed by glider near to Arnhem in the Netherlands The authors recount set their father's experiences in context by describing the formation of the unit and the many months of training in England Their involvement in the Italian campaign where Eric served with E Troop 3 Battery is then recounted detailing their actions at Rionero Foggia and Campobasso where Eric was wounded It then moves on to describe 1st Air Landing Light Regiment's preparation for and involvement in Operation Market the Airborne half of Market Garden This very detailed account of the fighting highlights the regiment's pivotal but often neglected role near Arnhem bridge Here after nine days of intense combat Eric was among the many captured and held until the end of the war The inclusion of Eric's own eyewitness testimony lends a very personal touch to this excellent account of the regiment's experience of combat and life in the PoW camps      **The Military Error** Thomas Powers,2008 Why did George W Bush invade Iraq What were the real

motives the overarching policy decisions that drove events from September 11 until the war began To a large extent we still don't know But by now we do know in some detail as Thomas Powers carefully explains in the essays collected here how the administration made its case for war using faulty intelligence to argue that Saddam Hussein possessed weapons of mass destruction and posed a mounting threat to the Middle East Once Iraq was occupied and the weapons turned out not to exist the case for war seemed to disappear as well Bit by bit the evidence the documents suggesting that Iraq was trying to buy yellowcake uranium in Niger the aluminum tubes that the United States claimed were meant for uranium enrichment the Iraqi defector code named Curveball who claimed Saddam had mobile biological weapons labs has been exposed as unreliable misinterpreted cherry picked exaggerated or just fake But as faulty as the intelligence was it was always only a pretext a way of persuading Congress America and the world to support a war that President Bush had already decided to wage The real question remains Why did Bush insist on a war of choice refusing to accept any solution short of an American occupation of Iraq The answers Powers proposes to that question which assess the Iraq invasion as an insistence on responding to political and cultural conflicts with military action suggest an overarching failure of American policy in the region that as long as it remains insufficiently understood and publicly debated will make it difficult for any president to change course No one is better prepared than Powers to evaluate the way the Bush administration used intelligence to make its case for war used the CIA for political ends and used arguments of secrecy to advance both its geopolitical agenda and its claims for executive power But beyond the now familiar stories of nonexistent WMDs The Military Error proposes a new deeper analysis of the error of using military force which has succeeded primarily in generating opposition and increasing resistance to American aims America went into Iraq full of bright hopes and confident ideas but Powers argues that those ideas based on the ability of force to solve problems defeat opponents and make friends were largely illusions Such illusions as we learned at great cost in Vietnam die hard but we can make decisions about our future role in Iraq only by understanding the errors that got us embroiled there in the first place

*A Military Leadership Analysis Of Adolf Hitler*  
Major Paul A. Braunbeck Jr., 2014-08-15 Before the war and still more during the conquest of the West Hitler came to appear a gigantic figure combining the strategy of a Napoleon with the cunning of a Machiavelli and the fanatical fervour of a Mohomet After his first check in Russia his figure began to shrink and towards the end he was regarded as a blundering amateur in the military field whose crazy orders and crass ignorance had been the Allies greatest asset All the disasters of the German Army were attributed to Hitler all its successes were credited to the German General Staff B H Liddell Hart Liddell Hart goes on to say that while this description of Adolf Hitler may not be entirely true there is certainly some truth to it While conducting the research for this project it became increasingly apparent that in the late 1930s Hitler was indeed a successful military leader The impetus behind this success was partly due to Hitler's political decision making process which in effect laid the foundation for World War II However as his success continued to mount he became more and more involved

in the intricacies of battlefield tactics and strategy This is where Hitler's and Germany's eventual downfall for the conquest of Europe began Upon examining Hitler's strengths weaknesses and decision making processes as a military leader one can begin to fully appreciate how the infamous stop order at Dunkirk and his no retreat policy at Stalingrad are often referred to as Hitler's greatest blunders of World War II **Alan Brooke—Churchill's Right-Hand Critic** Andrew

Sangster,2021-04-05 This new biography of Churchill's top WWII advisor is an excellent book for anyone interested in military leadership The NYMAS Review Voted the greatest Briton of the twentieth century Winston Churchill has long been credited with almost single handedly leading his country to victory in World War II But without Alan Brooke a skilled tactician at his side the outcome might well have been disastrous Brooke Chief of the Imperial General Staff more often than not served as a brake on some of Churchill's more impetuous ideas However while Brooke's diaries reveal his fury with some of Churchill's decisions they also reveal his respect and admiration for the wartime prime minister In return Churchill must surely have considered Brooke one of his most difficult subordinates but later wrote that he was fearless formidable articulate and in the end convincing As CIGS Brooke was integral to coordination between the Allied forces and so had to wrestle with the cultural strategy clash between the British and Americans Comments in his diaries offer up his opinions of both his British and American military colleagues his negative assessments of Mountbatten's ability and acerbic comments on the difficult character of de Gaulle and the weaknesses of Eisenhower Conversely he was clearly overindulgent in the face of Montgomery's foibles Brooke was often seen as a stern and humorless figure but a study of his private life reveals a little seen lighter side a lifelong passion for birdwatching and abiding love for his family The two tragedies that befell his immediate family were a critical influence on his life Andrew Sangster completes this new biography with a survey of the way various historians have assessed Brooke explaining how he has lapsed into seeming obscurity in the years since his crucial part in the Allied victory in World War II *War, Peace and International Relations* Colin Gray,James J. Wirtz,2023-10-24

This textbook provides a comprehensive introduction to the strategic history of the past two centuries showing how those 200 years were shaped and reshaped extensively by war The book takes a broad view of what was relevant to the causes courses and consequences of conflict The volume provides students with a strong grounding in the contribution of war to the development of the modern world from the pre industrial era to the age of international terrorism and smart weapons Covering all the major wars of the past two centuries the third edition has been revised and updated and now includes new introductory essays at the start of each section to help students recognize historical turning points and strategic themes revised and updated material on the post Cold War period accommodating new developments and contemporary perspectives new material on non Western views on strategy especially Sun Tzu a new chapter on The age of acceleration and great power competition starting with the death of Bin Laden and ending with the Ukraine crisis a new Conclusion offering a synthesis between the message of earlier editions and the state of strategy today This textbook will be essential reading for students of

strategic studies security studies war studies International Relations and international history     An Army at Dawn Rick Atkinson, 2007-05-15 WINNER OF THE PULITZER PRIZE AND NEW YORK TIMES BESTSELLER In the first volume of his monumental trilogy about the liberation of Europe in World War II Pulitzer Prize winner Rick Atkinson tells the riveting story of the war in North Africa The liberation of Europe and the destruction of the Third Reich is a story of courage and enduring triumph of calamity and miscalculation In this first volume of the Liberation Trilogy Rick Atkinson shows why no modern reader can understand the ultimate victory of the Allied powers without a grasp of the great drama that unfolded in North Africa in 1942 and 1943 That first year of the Allied war was a pivotal point in American history the moment when the United States began to act like a great power Beginning with the daring amphibious invasion in November 1942 An Army at Dawn follows the American and British armies as they fight the French in Morocco and Algeria and then take on the Germans and Italians in Tunisia Battle by battle an inexperienced and sometimes poorly led army gradually becomes a superb fighting force Central to the tale are the extraordinary but fallible commanders who come to dominate the battlefield Eisenhower Patton Bradley Montgomery and Rommel Brilliantly researched rich with new material and vivid insights Atkinson's narrative provides the definitive history of the war in North Africa     *Quartermaster Professional Bulletin* ,1989     **Churchill's Generals** John Keegan, 2012-09-06 John Keegan has assembled a cast of seventeen generals whose reputations were made and some of them broken by Churchill and the Second World War Churchill's reputation as prime minister during the Second World War fluctuated according to the successes and failures of his generals Most of them were household names and often heroes during the war years All of them were prey to the intolerance interference irascibility and the inspiration of the man who wanted to be both the general in the field and the presiding strategic genius He sacked his warlords ruthlessly yet in the end he came to be served by perhaps the greatest generals this country has ever produced Includes chapters on Wavell Ironside Ritchie Auchinleck Montgomery Alexander Percival Wingate Slim and Carton de Wiart Note The Publisher regrets that the biographical note for Gary Sheffield is incorrect in the book Please refer to the Orion website [www.orionbooks.co.uk](http://www.orionbooks.co.uk) for the correct version     Dowding & Churchill Jack Dixon, 2009-04-21 A WWII historian shines a light on an unsung hero of the Battle of Britain and reveals the conspiracy that led to his undignified dismissal From 1936 to 1940 Air Chief Marshal Sir Hugh Dowding built Britain's cutting edge defensive force Fighter Command Thanks to his foresight Fighter Command was the only military arm prepared for battle when war was declared against Germany Dowding's leadership of Fighter Command was crucial to achieving victory in the Battle of Britain one of the decisive battles of Western Civilization Though the importance of the Battle of Britain was recognized at the time Dowding was relieved of his command shortly afterward and shuffled into retirement without recognition This book reveals that this was the result of a shabby conspiracy by fellow officers In March 1941 the Air Ministry published a brief account of the battle that made no mention of Dowding Churchill was furiously indignant But in November 1940 he had acquiesced in Dowding's removal Why And what are the factors that

led to Dowding's dismissal in the first place. In this thought provoking and authoritative book Jack Dixon answers these questions and explains Dowding's true greatness. **The Forgotten General** Dennis Vincent, 2024-08-15. How did the man who developed a limited border offensive into a full scale campaign and advanced over 2 000 miles to defeat the Italian Army and liberate Addis Ababa who formed and commanded the Eighth Army end up at Camberley and then Northern Ireland?

**Review of Current Military Literature**, 1990
