Military Family In Peace And War:

The Military Family in Peace and War Florence Whiteman Kaslow,1993 *The Military Family* James Martin,Leora Rosen,Linette Sparacino,2000-07-30 Today there are more military family members than there are total uniformed service members Sixty percent of the military are married including more than eighty percent of all career status personnel and many have small children They come from diverse racial and ethnic backgrounds and they represent a wide variety of family types including single parents dual career military couples and families with eldercare responsibilities In an effort to cut costs many of the services utilized by military families are being privatized or outsourced to civilian service providers This guide is designed to benefit anyone who provides services to these families particularly those who may have little or no prior knowledge of the unique nature of military families and military family life This book contains research based information about the unique needs of military families across various duty related conditions as well as within the context of military career demands Its multi service focus addresses the provision of human services in both peace and wartime Topics include military spouse employment retirement issues family support during deployments the New Parent Support Program and the experiences of adult children of military parents The authors encourage an understanding of military community based programs and services and they offer the reader numerous resources for collaboration with the military community

Albert Kahn and His Family in Peace and War William R. Brashear,2008 *Challenges Faced by Iraq War Reservists and Their Families* Ken J. Walden,2012-09-05 The Iraq War caused emotional physical psychiatric relational and spiritual challenges to an untold number of military reservists and their families This book takes you through the war s critical stages of pre deployment deployment and post deployment Reservists families usually living far from military bases with professional staffing are often among the most affected wounded of the Iraq War Injured reservists often return home to discover that civilian medical resources are insufficient and civic organizations unequipped to help manage the range of combat related wounds and psychiatric trauma especially post traumatic stress disorder and traumatic brain injury The lack of needed services causes alienation between reservists and their families in relation to the civilian communities in which they live Using a practical theological method this book analyzes the various impacts of the Iraq War and recommends a soul care approach for chaplains and pastors to use in support of reservists and their families suffering from their experiences of the Iraq War and to guide any persons interested in participating in such support The Imperial Russian Army in Peace, War, and Revolution, 1856-1917 Roger R. Reese,2019-11-21 In December 1917 nine months after the disintegration of the Russian monarchy the army officer corps one of the dynasty s prime pillars finally fell a collapse that in light of World War I and the Bolshevik Revolution historians often treat as inevitable The Imperial Russian Army in Peace War and Revolution 1856 1917 contests this assumption By expanding our view of the Imperial Russian Army to include the experience of the enlisted ranks Roger R Reese reveals that the soldier s revolt in 1917 was more social revolution than anti war movement

and a revolution based on social distinctions within the officer corps as well as between the ranks Reese's account begins in the aftermath of the Crimean War when the emancipation of the serfs and consequent introduction of universal military service altered the composition of the officer corps as well as the relationship between officers and soldiers More catalyst than cause World War I exacerbated a pervasive discontent among soldiers at their ill treatment by officers a condition that reached all the way back to the founding of the Russian army by Peter I It was the officers refusal to change their behavior toward the soldiers and each other over a fifty year period Reese argues capped by their attack on the Provisional Government in 1917 that fatally weakened the officer corps in advance of the Bolshevik seizure of power As he details the evolution of Russian Imperial Army over that period Reese explains its concrete workings from the conscription and discipline of soldiers to the recruitment and education of officers to the operation of unit economies honor courts and wartime reserves Marshaling newly available materials his book corrects distortions in both Soviet and Western views of the events of 1917 and adds welcome nuance and depth to our understanding of a critical turning point in Russian history

Library of Congress Subject Headings Library of Congress, 1991 **The Soviet Army's High Commands in War and Peace, 1941-1992** Richard W. Harrison, 2022-07-28 The first full treatment of the unique phenomenon of High Commands in the Soviet Army during World War II and the Cold War. The war on the Eastern Front during 1941-45 was an immense struggle running from the Barents Sea to the Caucasus Mountains. The vast distances involved forced the Soviet political military leadership to resort to new organizational expedients in order to control operations along the extended front. These were the high commands of the directions which were responsible for two or more fronts, army groups, and along maritime axes, one or more fleets. In all, five high commands were created along the northwestern, western, southwestern, and North Caucasus strategic directions during 1941-42. However, the highly unfavorable strategic situation during the first year of the war, as well as interference in day-to-day operations by Stalin, severely limited the high commands' effectiveness. As a consequence, the high commands were abolished in mid-1942 and replaced by the more flexible system of supreme command representatives at the front. A High Command of Soviet Forces in the Far East was established in 1945 and oversaw the Red Army's highly effective campaign against Japanese forces in Manchuria. The Far Eastern High Command was briefly resurrected in 1947 as a response to the tense situation along the Korean peninsula and the ongoing civil war in China, but was abolished in 1953 soon after Stalin's death. Growing tensions with China brought about the recreation of the Far Eastern High Command in 1979, followed a few years later by the appearance of new high commands in Europe and South Asia. However, these new high commands did not long survive the collapse of the Soviet Union in 1991 and were abolished a year later. The book relies almost exclusively on Soviet and post-communist archival and other sources and is the first unclassified treatment of this subject in any country, East or West. **Vestigia, Reminiscences of Peace and War** Charles à Court Repington, 1919 *The War I Survived: Was Vietnam* Michael Uhl, 2016-09-02 This singular collection of articles, essays, poems, criticism, and personal recollections by a Vietnam veteran documents the author's reflections on the war from his combat experiences to his exploration of American veteran identity to his struggles with PTSD. His career as an advocate for the welfare of GI's and veterans exposed to dangerous radiation and herbicides is covered. Several pieces deal with how the Vietnam experience is being archived by scholars for historical interpretation. These collected works serve as a study of how wars are remembered and written about by surviving veterans. *The Herald of Peace*, 1875
