Kozhuharov,2020-12-31 This research addresses the gap that is present in both missiology and family and youth ministry Missiology does not focus on children and youth specifically while this is the largest population in the developing world On the other hand family and youth ministry has a more pastoral than missional approach not always taking cognisance of contexts like globalisation Thus the purpose of the book is to address the sometimes unintended and unnoticed influence of globalisation on the mission of the church with a specific focus on children youth and family For this purpose the International Association for Mission Studies study group for children youth and families coming from different parts of the world decided to describe the powers inequalities and vulnerabilities of children youth and families in a globalised world from their specific contexts Although the most prominent research methodology was critical literature studies methods like autoethnographic and empirical methods were also used No decisions were made on a specific method of research for this publication This publication can be viewed as an interdisciplinary and intra disciplinary because it deals with social sciences anthropology psychology missiology systematic theology and practical theology Managing Millenials in Conventional

develop in the directions it has and why and how it can grow further **Africa in the Colonial Ages of Empire** Tatah Mentan, 2017-12-17 Words like colonialism and empire were once frowned upon in the U S and other Western mainstream media as worn out left wing rhetoric that didnt fit reality Not anymore Tatah Mentan observes that a growing chorus of right wing ideologues with close ties to the Western administrations war making hawks in NATO are encouraging Washington and the rest of Europe to take pride in the expansion of their power over people and nations around the globe Africa in the Colonial Ages of Empire is written from the perspective that the scholarly lives of academics researching on Africa are changing constantly in flux and increasingly bound to the demands of Western colonial imperialism This existential situation has forced the continent to morph into a tool in the hands of Colonial Empire According to Tatah Mentan the effects of this existential situation of Africa compel serious academic scrutiny At the same time inquiry into the African predicament has been changing and evolving within and against the rhythms of this new normal of Colonial Empire Old or New The author insists that the long and bloody history of imperial conquest that began with the dawn of capitalism needs critical scholarly examination As Marx wrote in Capital The discovery of gold and silver in America the extirpation enslavement and entombment in mines of the aboriginal population the beginning of the conquest and looting of the East Indies the turning of Africa into a warren for the commercial hunting of black skins signaled the rosy dawn of the era of capitalist production These idyllic proceedings are the chief moment of primitive accumulation Africa in the Colonial Ages of Empire is therefore a MUST READ for faculty students as well as policy makers alike in the changing dynamics of their profession be it theoretically methodologically or structurally and materially Spiders of the Market, Enhanced Ebook David Afriyie Donkor, 2016-07-11 The Ghanaian trickster spider Ananse is a deceptive figure full of comic delight who blurs the lines of class politics and morality David Afriyie Donkor identifies social performance as a way to understand trickster behavior within the shifting process of political legitimization in Ghana revealing stories that exploit the social ideologies of economic neoliberalism and political democratization At the level of policy neither ideology was completely successful but Donkor shows how the Ghanaian government was crafty in selling the ideas to the people adapting trickster rooted performance techniques to reinterpret citizenship and the common good Trickster performers rebelled against this takeover of their art and sought new ways to out trick the tricksters **The Wiley-Blackwell Companion to African Religions** Elias Kifon Bongmba, 2012-05-21 The Wiley Blackwell Companion to African Religions brings together a team of international scholars to create a single volume resource on the religious beliefs and practices of the peoples in Africa Offers broad coverage of issues relating to African religions considering experiences in indigenous Christian and Islamic traditions across the continent Contributors are from a variety of fields ensuring the volume offers multidisciplinary perspectives Explores methodological approaches to religion from anthropological philosophical and historical perspectives Provides insights into the historical developments in African religions as well as contemporary issues such as the development of African initiated churches neo

traditional religions and Pentecostalism Discusses important topics at the intersection of culture and religion in Africa including the arts health politics globalization gender relations and the economy **The Negritude Movement** Reiland Rabaka, 2015-05-20 The Negritude Movement provides readers with not only an intellectual history of the Negritude Movement but also its prehistory W E B Du Bois the New Negro Movement and the Harlem Renaissance and its posthistory Frantz Fanon and the evolution of Fanonism By viewing Negritude as an insurgent idea to invoke this book's intentionally incendiary subtitle as opposed to merely a form of poetics and aesthetics The Negritude Movement explores Negritude as a traveling theory la Edward Said's concept that consistently crisscrossed the Atlantic Ocean in the twentieth century from Harlem to Haiti Haiti to Paris Paris to Martinique Martinique to Senegal and on and on ad infinitum The Negritude Movement maps the movements of proto Negritude concepts from Du Bois's discourse in *The Souls of Black Folk* through to post Negritude concepts in Fanon's *Black Skin White Masks* and *The Wretched of the Earth* Utilizing Negritude as a conceptual framework to on the one hand explore the African intellectual tradition in the twentieth century and on the other hand demonstrate discursive continuity between Du Bois and Fanon as well as the Harlem Renaissance and Negritude Movement The Negritude Movement ultimately accents what Negritude contributed to arguably its greatest intellectual heir Frantz Fanon and the development of his distinct critical theory Fanonism Rabaka argues that if Fanon and Fanonism remain relevant in the twenty first century then to a certain extent Negritude remains relevant in the twenty first century
