Fenton, 2017-03-02 In early modern culture and in Milton's poetry and prose this book argues the concept of hope is intrinsically connected with place and land Mary Fenton analyzes how Milton sees hope as bound both to the spiritual and the material the internal self and the external world Hope as Fenton demonstrates comes from commitment to literal places such as the land ideological places such as the nation and sacred interior places such as the human soul Drawing on an array of materials from the seventeenth century including emblems legal treatises political pamphlets and prayer manuals Fenton sheds light on Milton's ideas about personal and national identity and where people should place their sense of power and responsibility Milton's politics and where he thought the English nation was and where it should be heading and finally Milton's theology and how individuals relate to God **The English Renaissance, Orientalism, and the Idea of Asia** D. Johanyak, W. Lim, 2010-03-29 This unique collection of essays examines the complex significations of Asia in the literary and cultural production of Early Modern England Contributors come from a range of backgrounds to bring a range of perspectives to this topic **Early Modern Nationalism and Milton's England** David Loewenstein, Paul Stevens, 2008-01-01 Early Modern Nationalism and Milton's England features fifteen essays by leading international scholars who illuminate the significance of the nation as a powerful imaginative construct in his writings *Milton's Late Poems* Lee Morrissey, 2022-08-25 Upending conventional scholarship on Milton and modernity Lee Morrissey recasts Paradise Lost Paradise Regained and Samson Agonistes as narrating three alternative responses to a world in upheaval adjustment avoidance and antagonism Through incisive engagement with narrative form and genre Morrissey shows how each work considered specifically as a fiction grapples with the vicissitudes of a modern world characterised more by paradoxes ambiguities subversions and shifting temporalities than by any rigid historical periodization The interpretations made possible by this book are as invaluable as they are counterintuitive opening new definitions and stimulating avenues of

research for Milton students and specialists as well as for those working in the broader field of early modern studies Morrissey invites us to rethink where Milton stands in relation to the greatest products of modernity and in particular to that most modern of genres the novel

making Menely s central archive is English poetry written between John Milton s Paradise Lost 1667 and Charlotte Smith s Beachy Head 1807 a momentous century and a half during which Britain emerging from a crisis intensified by the Little Ice Age established the largest empire in world history and instigated the Industrial Revolution Incorporating new sciences into ancient literary genres these ambitious poems aspired to encompass what the eighteenth century author James Thomson called the system entire Thus they offer a unique record of geohistory Britain s epochal transition from an agrarian society buffeted by climate shocks to a modern coal powered nation Climate and the Making of Worlds is a bracing and sophisticated contribution to ecocriticism the energy humanities and the prehistory of the Anthropocene

Varieties of Seventeenth- and Early Eighteenth-Century English Radicalism in Context David Finnegan, Dr Ariel Hessayon, 2013-07-28 The essays in this collection explore a number of significant questions regarding the terms radical and radicalism in early modern English contexts They investigate whether we can speak of a radical tradition and whether radicalism was a local national or transnational phenomenon In so doing this volume examines the exchange of ideas and texts in the history of supposedly radical events ideologies and movements or moments Once at the cutting edge of academic debate radicalism had until very recently fallen prey to historiographical trends as scholars increasingly turned their attention to more mainstream experiences or reactionary forces While acknowledging the importance of those perspectives Varieties of seventeenth and early eighteenth century English radicalism in context offers a reconsideration of the place of radicalism within the early modern period It sets out to examine the subject in original and exciting ways by adopting distinctively new and broader perspectives Among the crucial issues addressed are problems of definition and how meanings can evolve context print culture language and interpretative techniques literary forms and rhetorical strategies that conveyed or deliberately disguised subversive meanings and the existence of a single continuous English radical tradition Taken together the essays in this collection offer a timely reassessment of the subject reflecting the latest research on the theme of seventeenth century English radicalism as well as offering some indications of the phenomenon s transnational contexts Indeed there is a sense here of the complexity and variety of the subject although much work still remains to be done on radicals and radicalism both in early modern England and especially beyond

Patrons and Patron Saints in Early Modern English Literature Alison Chapman, 2013-01-17 This book visits the fact that in the pre modern world saints and lords served structurally similar roles acting as patrons to those beneath them on the spiritual or social ladder with the word patron used to designate both types of elite sponsor Chapman argues that this elision of patron saints and patron lords remained a distinctive feature of the early modern English imagination and that it is central to some of the key works of literature in the period Writers like Jonson Shakespeare Spenser Drayton Donne and Milton all use medieval patron saints in order to represent and to challenge early modern ideas of patronage not just patronage in the narrow sense of the immediate economic relations obtaining between client and sponsor but also patronage as a society wide system of obligation and reward that itself crystallized a whole

culture's assumptions about order and degree. The works studied in this book ranging from Shakespeare's 2 Henry VI written early in the 1590s to Milton's *Masque Performed at Ludlow Castle* written in 1634 are patronage works either aimed at a specific patron or showing a keen awareness of the larger patronage system. This volume challenges the idea that the early modern world had shrugged off its own medieval past instead arguing that Protestant writers in the period were actively using the medieval Catholic ideal of the saint as a means to represent contemporary systems of hierarchy and dependence. Saints had been the ideal and idealized patrons of the medieval world and remained so for early modern English recusants. As a result their legends and iconographies provided early modern Protestant authors with the perfect tool for thinking about the urgent and complex question of who owed allegiance to whom in a rapidly changing world. Emotion and the Self in English Renaissance Literature Paul Joseph Zajac, 2022-12-22. Unearthing a little studied Reformation discourse of contentment, this book shows its surprising significance in Renaissance literature. *Proceedings of the British Academy, Volume 117*, 2002. Volume 117 of the *Proceedings of the British Academy* contains 13 lectures delivered at the British Academy in 2001. **Handbook of English Renaissance Literature** Ingo Berensmeyer, 2019-10-08. This handbook of English Renaissance literature serves as a reference for both students and scholars introducing recent debates and developments in early modern studies. Using new theoretical perspectives and methodological tools, the volume offers exemplary close readings of canonical and less well known texts from all significant genres between c. 1480 and 1660. Its systematic chapters address questions about editing Renaissance texts, the role of translation, theatre and drama, life writing, science, travel and migration, and women as writers, readers and patrons. The book will be of particular interest to those wishing to expand their knowledge of the early modern period beyond Shakespeare. **The Cambridge History of Early Modern English Literature** David Loewenstein, Janel M. Mueller, 2002. This 2003 book is a full scale history of early modern English literature offering perspectives on English literature produced in Britain between the Reformation and the Restoration. While providing the general coverage and specific information expected of a major history, its twenty six chapters address recent methodological and interpretive developments in English literary studies. The book has five sections: Modes and Means of Literary Production; Circulation and Reception; The Tudor Era from the Reformation to Elizabeth I; The Era of Elizabeth and James VI; The Earlier Stuart Era and The Civil War and Commonwealth Era. While England is the principal focus, literary production in Scotland, Ireland and Wales is treated as are other subjects less frequently examined in previous histories, including women's writings and the literature of the English Reformation and Revolution. This history is an essential resource for specialists and students. Looking Into Providences Raymond Waddington, 2012-10-19. What is the role of providence in *Paradise Lost*? In *Looking into Providences*, Raymond B. Waddington provides the first examination of this engaging subject. He explores the variety of implicit organizational structures or designs that govern *Paradise Lost* and looks in depth at the trials or testing situations which require interpretation, choice and action from its characters. Waddington

situates the poem within the context of providentialism's centrality to seventeenth century thought and life arguing that Milton's own conception of providence was deeply influenced by the theology of Jacob Arminius Using Milton's Arminian conception of free will he then looks at the providential trials experienced by angels and humans Finally the work explores the ways in which providentialism infiltrates various kinds of discourse ranging from military to medical and from political to philosophical

Familial Forms Erin Murphy, 2010-12-09 *Familial Forms* is the first full length study to examine how literary writers engaged the politics of genealogy that helped define the century of revolution By demonstrating how conflicts over the family state analogy intersected with the period's battles over succession including the ascent of James I the execution of Charles I disputes over the terms of the Interregnum government the Restoration of Charles II the Exclusion Crisis the deposition of James II the ascent of William and Mary and Anne's failure to produce a surviving heir this study provides a new map of the seventeenth century politics of family in England Beginning with a reconsideration of Jacobean patriarchalism *Familial Forms* focuses on the work of John Milton Lucy Hutchinson John Dryden and Mary Astell From their contrasting political and gendered positions these authors contemplated and contested the relevance of marriage and kinship to government Their writing illuminates two crucial elements of England's conflicts First the formal qualities of poems and prose tracts reveal that not only was there a competition among different versions of the family state analogy but also a competition over its very status as an analogy Second through their negotiations of linear and nonlinear forms Milton Hutchinson Dryden and Astell demonstrate the centrality of temporality to the period's political battles Through close textual analysis of poetry political tracts parliamentary records and nonliterary genealogies *Familial Forms* offers a fresh understanding of the seventeenth century politics of genealogy It also provides new answers to long standing critical questions about the poetic form of canonical works such as *Paradise Lost* and *Absalom and Achitophel* and illuminates the political significance of newly canonical works by women writers including Aemilia Lanyer's *Salve Deus Rex Judaeorum* Hutchinson's *Order and Disorder* and Astell's *A Serious Proposal to the Ladies* Published by University of Delaware Press Distributed worldwide by Rutgers University Press

Women, Epic, and Transition in British Romanticism Elisa Beshero-Bondar, 2011-05-31 *Women Epic and Transition in British Romanticism* argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women's importance in moments of historical crisis While Romantic epics did not all engage in radical questioning or undermining of authority this study calls attention to some of the more provocative poems in their approach to gender culture and history This study prioritizes long poems written by and about women during the Romantic era and does so in context with influential epics by male contemporaries The book

takes its cue from a dramatic increase in the publication of epics in the early nineteenth century At their most innovative Romantic epics provoked questions about the construction of ideological meaning and historical memory and they centralized women s experiences in entirely new ways to reflect on defeat loss and inevitable transition For the first time the epic became an attractive genre for ambitious women poets The book offers a timely response to recent groundbreaking scholarship on nineteenth century epic by Herbert Tucker and Simon Dentith and should be of interest to Romanticists and scholars of 18th and 19th century literature and history gender and genre and women s studies Published by University of Delaware Press Distributed worldwide by Rutgers University Press
