*Milwaukee Movie Theaters* Larry Widen, 2010-10-25 Prior to World War II there were 90 single screen movie theaters in Milwaukee By 1960 that number had been reduced by half With the arrival of television for the home market the golden age of the movie theater in Milwaukee was dead Yet their ghosts continue to haunt the old neighborhoods Churches warehouses stores nightspots and other businesses now occupy the former Tivoli Paris Roosevelt and Savoy Buildings Others are simply vacant hulks decaying from the inside out The Elite Regent Lincoln and Warner are but a few of the many silent sentinels from the days when Milwaukee was in love with the movies     Silver Screens Larry Widen, Judi Anderson, 2007 Silver Screens traces the rich history of Milwaukee's movie theaters from 1890s nickelodeons to the grand palaces of the Roaring Twenties to the shopping mall outlets of today But the story doesn't end there in the past two decades growing interest in restoring theaters has confirmed that there's still life in these beloved structures With the publication of Silver Screens authors Larry Widen and Judi Anderson help ensure that our old theaters both those being preserved and those long since vanished from the landscape will remain forever embedded in our collective memory     **Milwaukee Movie Palaces** Larry Widen, Judi Anderson, 1986-01-01     **Entertainment in Early Milwaukee** Larry Widen, 2007 What did early Milwaukeeans do to have fun and relax This book answers that question covering pop culture from the mid 1800s up to 1950 from the earliest tavern stages hosting traditional German plays and musicals to the large traveling circus acts that arrived via the railroad to the beer gardens nickelodeons and old grand cinemas that dominated the city's landscape during the first half of the 20th century In its heyday Milwaukee had several classic amusement parks with roller coasters fun houses water rides and more The first movie was shown in Milwaukee in 1896 and by 1920 there were nearly 100 buildings dedicated to motion pictures And it was two Milwaukee businessmen who discovered the great Charlie Chaplin and also produced the 1915 epic Birth of a Nation     **Milwaukee Movie Theaters** Larry Widen, 2010 Prior to World War II there were 90 single screen movie theaters in Milwaukee By 1960 that number had been reduced by half With the arrival of television for the home market the golden age of the movie theater in Milwaukee was dead Yet their ghosts continue to haunt the old neighborhoods Churches warehouses stores nightspots and other businesses now occupy the former Tivoli Paris Roosevelt and Savoy Buildings Others are simply vacant hulks decaying from the inside out The Elite Regent Lincoln and Warner are but a few of the many silent sentinels from the days when Milwaukee was in love with the movies     *Movie Palaces* Joseph M. Valerio, Daniel Friedman, 1982 This book explores the potential of U S movie theaters as an important national asset Each of the 4 000 movie palaces constructed during Hollywood's Golden Age as well as the countless smaller theaters modeled after the grander showcases has a role to play in the life of today's cities The first section of the book explores the social and economic history of the movie palace and the significance of the building phenomenon Subjects such as the development of moving pictures the marketing of them to the public and the architectural style of movie palaces are examined The leading

theater architects are identified and the decline of the large downtown theaters following World War II is discussed. The second part of the book consists of case studies drawn from projects nationwide which reflect the programming options for theater renaissance. Motivations for movie palace reuse are summarized into three situations: 1 a user needs a facility, 2 a facility needs a user, or 3 a city needs a redevelopment anchor. The third section of the book, which profiles the lessons of the second, includes planning guidelines for theater economic feasibility studies, organizational structures, program environments, and adaptive reuse and operating costs. Four areas of theater function are explored: audience performance, technology, and management. The book concludes with an annotated 76-item list of resources: publications, audiovisual presentations, and organizations helpful to those contemplating movie palace redevelopment. Many sources listed lead to further information in the form of newsletters, bibliographies, and other organizational publications. The book is abundantly illustrated with black and white photographs and architectural drawings. GEA

**Cinema Treasures** Ross Melnick, Andreas Fuchs, 2004. More than 100 years after the first movie delighted audiences, movie theaters remain the last great community centers and one of the few amusements any family can afford. While countless books have been devoted to films and their stars, none have attempted a truly definitive history of those magical venues that have transported moviegoers since the beginning of the last century. In this stunningly illustrated book, film industry insiders Ross Melnick and Andreas Fuchs take readers from the nickelodeon to the megaplex and show how changes in moviemaking and political, social, and technological forces—e.g., war, depression, the baby boom, the VCR—have influenced the way we see movies. Archival photographs from archives like the Academy of Motion Picture Arts and Sciences and movie theater ephemera, postcards, period ads, matchbooks, and even a barf bag sourced from private collections complement Melnick's informative and engaging history. Also included throughout the book are Fuchs' profiles detailing 25 classic movie theaters that have been restored and renovated and which continue to operate today. Each of these two-page spreads is illustrated with marvelous modern photographs, many taken by top architectural photographers. The result is a fabulous look at one way in which Americans continue to come together as a nation. A timeline throughout places the developments described in a broader historical context. We've had a number of beautiful books about the great movie palaces, and even some individual volumes that pay tribute to surviving theaters around the country. This is the first book I can recall that focuses on the survivors from coast to coast and puts them into historical context. Sumptuously produced in an oversized format on heavy coated paper stock, this beautiful book offers a lively history of movie theaters in America, an impressive array of photos and memorabilia, and a heartening survey of the landmarks in our midst, from the majestic Fox Tucson Theatre in Tucson, Arizona, to the charming jewel box that is the Avon in Stamford, Connecticut. I don't know why, but I never tire of gazing at black and white photos that evoke the era of moviemaking and moviegoing. I care about the most, and this book is packed with them. *Cinema Treasures* is indeed a treasure and a perfect gift item for the holiday season. Leonard Maltin. Humble or grandiose, stand-alone or strung-together movie theaters are places where dreams

are born Once upon a time they were treated with the respect they deserve In their heyday historian Ross Melnick and exhibitor Andreas Fuchs write in *Cinema Treasures* openings of new motion picture pleasure palaces that would have dazzled Kubla Khan received enormous attention in newspapers around the country On top of the publicity they generated their debuts were treated like the gala openings of new operas or exhibits with critics weighing in on everything from the interior and exterior design to the orchestra Handsomely produced and extensively illustrated *Cinema Treasures* is detailed without being dull and thoroughly at home with this often neglected subject matter Its title would have you believe it is a celebration of the golden age of movie theaters But this book is something completely different an examination of the history of movie exhibition which the authors accurately call a vastly under researched topic *Los Angeles Times Milwaukee's Early Architecture* Megan E. Daniels,2010 Initially dominated by simple renditions of East Coast architecture Milwaukee developed from three pioneer settlements those of Solomon Juneau Byron Kilbourn and George Walker three hubs from which three villages radiated outward into one city Following the Civil War Milwaukee's growth at the onset of the Industrial Era afforded the city a fanciful array of Victorian streetscapes The 1890s followed with an era of ethnic architecture in which bold interpretations of German Renaissance Revival and Baroque designs paid homage to Milwaukee's overwhelming German population At the turn of the century Milwaukee's proximity to Chicago influenced the streetscape with classicized civic structures and skyscrapers designed by Chicago architects World War I and the ensuing anti German sentiment as well as Prohibition inevitably had adverse effects on Brew City By the 1920s Milwaukee's architecture had assimilated to the national aesthetic suburban development was on the rise and architectural growth would soon be stunted by the Great Depression
