*Unfit For Marriage* Edward J. Behrend-Martinez,2007-03-06 The Catholic Church of early modern Europe intended the sacrament of matrimony to represent a lifelong commitment and it allowed few grounds for the dissolution of an unhappy marriage One was nonconsummation owing to the sexual impotency of one of the partners Even then an annulment was granted only after a church court had conducted a lengthy investigation of the case soliciting testimony from numerous witnesses as well as from the aggrieved couple and had subjected the allegedly impotent spouse and sometimes both spouses to an intimate physical examination Edward J Behrend Martinez has studied the transcripts of eighty three impotency trials conducted by the ecclesiastical court of Calahorra La Rioja a Spanish diocese with urban and rural parishes both Basque and Castilian From these records he draws a detailed fascinating portrait of private life and public sexuality in early modern Europe These trials were far more than a salacious inquiry into the intimate details of other people s lives The church valued marital sex as a cornerstone of stable society intended not only for procreation but also for maintaining domestic harmony Every couple s sex life however private in practice or intention was a matter of public and ecclesiastical concern Unfit for Marriage offers vivid accounts of marital sex and the role that property gender and personal preference played in marriage in early modern Europe It is essential reading for anyone interested in social history sexuality gender studies canon law legal history and the history of divorce in western Europe

Além disso, mas no mesmo contexto, sobre o objeto de investigação os instrumentos de solução de conflitos propostos pela justiça restaurativa se eles têm capacidade de ofertar respostas adequadas para os casos de violência conjugal. Por que las mujeres abandonan la política. Por la autora de Feminismo para principiantes. Este libro es una reflexión sobre la presencia y la ausencia de las mujeres en la toma de decisiones más allá de los números más allá de la igualdad formal o la paridad. El número de mujeres líderes que han dejado sus cargos políticos en los últimos años es tan elevado que merece la pena ser estudiado como un fenómeno nuevo que la autora ha bautizado como el síndrome Borgen. El nombre hace alusión a la serie de televisión danesa que muestra la cara B del empoderamiento, concepto tras el cual se esconden más trampas que soluciones. Desde la reivindicación organizada del derecho al voto para las mujeres fueron necesarios más de cien años hasta que en 1960 Sirima Bandaranaike se convirtiera en la primera mujer elegida jefa de un Ejecutivo. Más de sesenta años después apenas hay una veintena de mujeres líderes en el mundo, pero además si el 1 de enero de 2023 había treinta y seis mujeres jefas de Estado o Gobierno, en septiembre de ese mismo año solo quedaban veintiocho. Las extrañas intrusas se cuelan por las rendijas de un poder que se resiste a ser compartido. Más parecen okupas a las que en cualquier momento se las puede desalojar con cualquier cantidad de violencia. **Los diferentes rostros de la violencia de género** Juana María Gil Ruiz, 2007. Ensayo jurídico a la luz de la Ley Integral L.O. 1/2004 de 28 de diciembre y la Ley de Igualdad L.O. 3/2007 de 22 de marzo. *Mujeres invisibles* Carme Valls Llobet, 2006-10-06. Recorrido por los distintos recovecos de la salud de las mujeres por cómo se ven a sí mismas y cómo permiten que las vean los demás.

**Tratado sobre la igualdad jurídica y social de la mujer en el siglo XXI.** María Begoña Fernández González, 2019-03-20. A partir de esta reflexión, este libro pretende llevar a cabo un estudio que refleje la evolución y la posición jurídica actual de la mujer en diferentes aspectos: civil, penal, laboral, empresarial, fiscal, político y social. Es evidente que la mujer ha obtenido ciertos logros tras casi un siglo de luchas y reivindicaciones, pero todavía quedan pendientes algunas conquistas. Es cierto que algunas exigencias se han incorporado a la normativa sobre derechos familiares, derechos humanos y prácticas laborales, pero también lo es que en ocasiones no son respetadas. Esta obra llena un vacío doctrinal y contribuye a enriquecer la doctrina científica y académica, siendo muy útil para ser manejada por parte de abogados y colectivos cuya profesión principal está relacionada con el Derecho. **Panorama de violencia contra las mujeres en México. sexista Neus Roca Cortés, Júlia Masip Serra, 2012-01-01 La violencia sexista contra las mujeres producto de una cultura patriarcal que justifica y legitima una relación desigual entre géneros se ha hecho visible en los últimos decenios y su erradicación ha entrado definitivamente a formar parte de la agenda pública. Se trata de una problemática que debe abordarse atendiendo a las víctimas a los agresores y al contexto social en que tiene lugar tanto desde la vertiente preventiva como desde la asistencial. Dado que una gran parte del contexto social favorece la violencia sexista tanto la deslegitimación de la misma como parte de la intervención han de realizarse en el ámbito social de ahí la importancia del trabajo grupal como estrategia de transformación. En esta obra Neus Roca y Júlia Masip psicólogas expertas en intervención grupal y en investigación ofrecen un marco teórico riguroso basado en la experiencia y contrastado con las numerosas intervenciones e investigaciones que presentan. Se trata de un avance importante ya que contribuye a crear un cuerpo de doctrina metodológica a partir de la experiencia acumulada a lo largo de los años por los profesionales de los servicios de bienestar. Asimismo se aportan herramientas de investigación prevención intervención y evaluación.
