Mind Like A Mirror:

Ethics in the Zhuangzi Xiangnong Hu, Yong Huang, 2024-10-16 This book delves into a broad range of hitherto unresolved issues related to Zhuangzi's ethics which include but are not limited to the fundamental question of whether Zhuangzi should be regarded as a moralist in the ordinary sense and what Zhuangzi's views on topics such as equality moral relativism good life intersubjective relations and social harmony really are The twelve contributors to this book deliberate on these issues in six debates centering on recent influential publications in the field In each debate the relevant publications will be first challenged by their critic and then defended by their author through which different and competing interpretations of Zhuangzi's ethical themes will directly confront each other These author meets critic debates will not only reflect what is currently at stake in discussing Zhuangzi's ethics but also engage and enrich the state of the field today This volume serves as a good companion to scholars as well as graduate level students who are interested in gaining philosophical and ethical insights from Zhuangzi and Chinese philosophy in general

Song of Mind Chan Master Sheng Yen, 2004-11-09 No words can explain enlightenment says the seventh century Zen classic Xin Ming or Song of Mind yet paradoxically this poem is a masterpiece of expressing the inexpressible In his commentary on it Chan Master Sheng Yen takes a practical approach opening up the language of the Xin Ming to show students how to approach meditation how to deal with problems that arise in their spiritual practice and how to accomplish the imperative task of integrating this practice into every aspect of one's life True understanding comes only with direct experience according to Master Sheng Yen These lectures the Buddhist sutras songs poems and commentaries are useful only insofar as they encourage you to practice and incorporate the Dharma teachings into your daily life The book takes the form of a week long retreat with Master Sheng Yen with each chapter in the form of an evening talk given on a particular section of the Song of Mind text giving this book a far more intimate and accessible feel than most commentaries on Zen texts and creating a feeling of being right there with the master as he brings the text to life

The Buddhist Roots of Zhu Xi's Philosophical Thought John Makeham, 2018-06-01 Zhu Xi 1130-1200 is the most influential Neo Confucian philosopher and arguably the most important Chinese philosopher of the past millennium both in terms of his legacy and for the sophistication of his systematic philosophy The Buddhist Roots of Zhu Xi's Philosophical Thought combines in a single study two major areas of Chinese philosophy that are rarely tackled together Chinese Buddhist philosophy and Zhu Xi's Neo Confucian philosophy Despite Zhu Xi's importance as a philosopher the role of Buddhist thought and philosophy in the construction of his systematic philosophy remains poorly understood What aspects of Buddhism did he criticize and why Was his engagement limited to criticism informed or otherwise or did Zhu also appropriate and repurpose Buddhist ideas to develop his own thought If Zhu's philosophical repertoire incorporated conceptual structures and problematics that are marked by a distinct Buddhist pedigree what implications does this have for our understanding of his philosophical project The five chapters that make up The Buddhist Roots of Zhu Xi's Philosophical

Thought present a rich and complex portrait of the Buddhist roots of Zhu Xi's philosophical thought. The scholarship is meticulous; the analysis is rigorous and the philosophical insights are fresh. Collectively the chapters illuminate a greatly expanded range of the intellectual resources Zhu incorporated into his philosophical thought, demonstrating the vital role that models derived from Buddhism played in his philosophical repertoire. In doing so they provide new perspectives on what Zhu Xi was trying to achieve as a philosopher by repurposing ideas from Buddhism. They also make significant and original contributions to our understanding of core concepts, debates, and conceptual structures that shaped the development of philosophy in East Asia over the past millennium. *Metaphors of Mind* Brad Pasanek, 2015-07. Don't-Know Mind Richard Shrobe, 2004-05-11. Don't know mind is our enlightened mind before ideas, opinions, or concepts arise to create suffering. Practicing with don't know mind has long been a central concern of Korean Zen. Here an American Zen master in the Korean lineage brings the teaching to life by using stories about the Chinese and Korean Zen masters as jumping off points for his own teaching. *Don't Know Mind* is a clear, direct, and heartfelt presentation of Zen teaching applicable to anyone, both for formal practice and for all the rest of life. **Mindfulness-Oriented Recovery Enhancement**

a Daoist-Inspired Classroom Pedagogy Through the Contemplative Lenses of Teacher Diaries David McLachlan Jeffrey, 2024-08-01. The harmonizing influence of ancient Daoist philosophy is of much relevance to the world in which we live today, and this is especially so in the field of global education. Among the growing numbers of contemporary teachers and scholars who nurture Daoist wisdom in their classrooms, this book takes the unique pathway of considering its applications through the contemplative lenses of teacher diaries. Its South African-born author has taught academic English for over three decades in Japan, the Middle East, and the People's Republic of China. Since early childhood, he has infused his fascination for Daoist wisdom with his enjoyment of writing diaries and in ways that derive insights into the compassionate, frugal, and humble foundations of Daoist-inspired pedagogies within contemporary classroom environments. This book presents Daoist wisdom in terms of it being the Supreme Ultimate of all ways. It introduces the classical Daoist texts of the Laozi, the Zhuangzi, and the Liezi and shares a short historical overview of Daoism with its growing global influence. As such, it

emphasizes that Daoist inspired pedagogies encourage a delicate balance between intuitive insights and intellectual analysis and in ways that are not antagonistic toward each other but which dance together as one In this regard the role of meditation during the undertaking of diaries is specifically highlighted concerning its propensity to bring one into the present moment pacify racing thoughts and transcend the ego It also shows how a meditative state of mind that accompanies the reading writing and analysis of the diary entries contributes to deeper self discernment along with unique intuitive insights related to oneself as a teacher and the classroom environment In addition this book describes how the Wordsmith Tools Program and the Book of Changes can be used as additional approaches to analyzing thought patterns within the diary entries and how these also nurture inward contemplations and the intuitive insights that accompany them Thereafter considerations based on the applications of core Daoist principles for classroom pedagogies are filtered through the contemplative lenses of teacher diaries These principles are the unintentional integrity of de the complementary duality of yin yang the cosmic vitality of qi the self so ness of ziran the unforceful spontaneity of wuwei and the unblemished purity of pu This book illustrates through its diary lenses how these six Daoist principles can be nurtured in ways that contribute to a scholarliness that is grounded in an equal appreciation for the logical applications of intelligence along with the uniqueness of intuitive creativity which cannot be explicitly taught but which spontaneously arises from within the deep reservoirs of intuitive wisdom which exist within the true selves of everyone In addition this book shares pearls of Daoist wisdom for teachers from within the poetic chapters of the Laozi as well as within the amusingly enlightening stories in the Zhuangzi and the Liezi such that their ancient teachings can be applied to Daoist inspired pedagogies and nurtured in ways that unite the joyfulness and scholarly efficacy of both teaching and learning It is shown how doing so enhances a sense of awe wonder openness and contemplative oneness within the classroom environment making it a happier more contented and more meaningful place for both teachers and students

The Metaphysics of Chinese Moral Principles Mingjun Lu,2022-01-17 In *The Metaphysics of Chinese Moral Principles* author Mingjun Lu seeks to construct and establish the metaphysics of Chinese morals as a formal and independent branch of learning by abstracting and systemizing the universal principles presupposed by the primal virtues and key imperatives in Daoist and Confucian ethics Lu proposes that the metaphysical foundation of Chinese moral principles as reinstated in this book brings to light not only the universality of its core values and ideals but also a pivotal though hitherto neglected key to the enduring vibrancy of a civilization that has lasted several millennia
