Niche is your itch. It is finding a specific area of interest or expertise that satisfies a personal desire or passion. Every one of us has to convey that niche should be something that one is personally motivated to explore, learn and develop. A niche is of vital importance because it penetrates through a market segment or a specific aspect of a larger industry. For example, someone may have a niche in rare books of a specific category or alternative readings of related topics. The key to finding a successful niche is to identify something important and meaningful to exercise and develop skills and knowledge in that area. Having a personal interest in your niche can motivate and engage a specified segment of individuals and help them face some of the challenges and obstacles. When you are passionate about your work, you are more likely to put in the time and effort needed to become an expert and to continue learning and growing in that area.
