Murder Most Rare Michael D. Kelleher, C. Kelleher, 1998-02-28 While the short lethal careers of serial killers such as Jeffrey Dahmer and Andrew Cunanan terrorize the public and provide morbid inspiration for the entertainment industry few people realize that it is the female serial killer seldom heard of who deserves most to be feared *Murder Most Rare* provides startling information about the female serial murderer who is shown to be far more deadly and determined difficult to apprehend and complexly motivated than her male counterpart While serial murder by women is relatively rare a surprising number of female serial killers are identified by the authors nearly 100 in this century with half of them having committed their crimes in America By examining these women's backgrounds motives and methods of killing the book sheds new light on dozens of overlooked cases of murder and uncovers callous crimes and passions gone awry After a thought provoking exploration of the cultural biases that have caused us historically to dismiss and ignore the criminal potential of women *Murder Most Rare* divides female serial murders for the first time into seven categories Black Widow Angel of Death Sexual Predator Revenge Profit or Crime Team Killer and Question of Sanity These seven types vary widely in motivation choice of victims weapons and methods The authors reveal patterns that occur within the types but stress that the complicated nature of these women's crimes makes personality profiling almost impossible a fact that causes the jobs of homicide investigators to be difficult indeed sometimes impossible This is a uniquely personal look into a dark shocking world *CLIL Activities with CD-ROM* Liz Dale, Rosie Tanner, 2012-03-15 Innovative activities for Content and Language Integrated Learning CLIL teachers and trainee teachers *CLIL Activities* is organised into five chapters Activating Guiding understanding Focus on language Focus on speaking and Focus on writing A further chapter provides practical ideas for assessment review and feedback The Background to CLIL section offers a clear explanation of what CLIL is and its benefits and challenges The book contains a wide range of easily accessible activities that can be used in any order Dedicated subject pages include annotated extracts from authentic school teaching materials demonstrating how language is used in particular school subjects such as geography science maths and ICT The accompanying CD ROM contains print ready CLIL activities PC Mag , 1996-09-24 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **Instructor's Edition for Criminal Law** Samaha, 2001-06 Introduction to Criminal Justice Joseph J. Senna, Larry J. Siegel, 2002 This text presents criminal justice as a dynamic ever changing field emphasizing how the concepts and processes of criminal justice are constantly evolving It is ideal for those introductory criminal justice courses that emphasize a comprehensive and balanced approach to all three areas of criminal justice as well as theory research and policy issues This text is the ultimate tool for complete student preparation and provides all of the up to date coverage of

structural and procedural changes in the criminal justice system that instructors require ultimately helping students understand the critical issues in the field and the impact they have on the system **Team Killers** Jennifer Furio, 2001 In this eerie study of what drives or allows people to kill in a team setting even when they had no criminal history on their own Furio's personal correspondence and telephone conversations with death row inmates lend immediacy to the analysis of the phenomenon of the deadly duo The unthinkable crimes sketched in this book show that it is just as chancy to accept a ride offered by a couple as it is to hop into a car driven by a single male Simply stated couples or groups that kill usually have perverted tendencies as individuals but it is only when they come together that their combined personality becomes lethal How does it happen and what can be done to prevent it What are the differences between killers who act on their own and those who prefer to take a partner What goes through the partners minds years later when they reflect on what they've done

Juvenile Delinquency Larry J. Siegel, 2003 **Introduction to Criminal Justice** Larry J. Siegel, 2005 This best selling text presents criminal justice as a dynamic ever changing field emphasizing how the concepts and processes of criminal justice are constantly evolving Authors Siegel and Senna emphasize a comprehensive and balanced approach to the three major areas of criminal justice police courts and corrections and to theory research and policy issues with a focus on generating students interest in the criminal justice field This text is the ultimate tool for complete student preparation and provides all of the up to date coverage of structural and procedural changes in the criminal justice system that instructors require ultimately helping students understand the critical issues in the field and the impact they have on the system

Bioterrorism with CD-ROM Robert J. Ursano, Ann E. Norwood, Carol S. Fullerton, 2004-06-17 In addition to planning and pre disaster exercises essential for allocating resources and devising effective mental health interventions this book also includes two CDs showing an international panel of experts discussing how best to plan for a bioterrorist event Although only twelve people died after the sarin gas attack on the Tokyo subway system in 1995 more than five thousand sought medical care for the effects of possible exposure Bioterrorism can create chaos and disruption on a national and international scale Moreover it is believed to incur the most devastating psychological sequelae of all disasters **Monsters in and Among**

Us Caroline Joan Picart, Cecil E. Greek, 2007 Rather than assuming that film and the media tell us little about the reality of criminological phenomena Gothic criminology as instantiated in this collection of essays recognizes the complementarity of critical academic and aesthetic accounts of deviant behavior as intersecting with the public policy in complex non reductive ways **Criminology** Larry J. Siegel, 1998 *Criminal Justice in America* George F. Cole, Christopher E. Smith, 2002
