The Mind's Extensive View Nalini Jain,1991 **Landscape, Literature and English Religious Culture, 1660-1800 R.** Mayhew,2004-03-15 Landscape Literature and English Religious Culture 1660 1800 offers a powerful revisionist account of the intellectual significance of landscape descriptions during the long Eighteenth century Landscape has long been a major arena for debate about the nature of Eighteenth century English culture this book surveys those debates and offers a provocative new account Mayhew shows that describing landscape was a religiously contested practice and that different theological positions led differing authors to different descriptive approaches Landscape description then shows English intellectual life still in the grips of a Christian and classical mentality in the long Eighteenth century **Eighteenth Century English Poetry** Nalini Jain,John Richardson,2016-07-01 This anthology of 18th century English poetry is extensively annotated for a new generation of readers It combines the scope of a period anthology with the detailed annotations of an authoritative single author edition Selected poets include John Wilmot Earl of Rochester John Dryden Jonathan Swift Anne Finch Countess of Winchelsea Joseph Addison Alexander Pope and William Cowper The guiding principle of the annotation is one of thoroughness the editors concentrate on works where the meanings have changed on primary allusions and on relevant details of social and political history *The Library of Literary Criticism of English and American Authors: 1730-1784* Charles Wells Moulton,1902 **Publications and Theses** National University of Singapore,1991

Samuel Johnson's Pragmatism and Imagination Stefka Ritchie,2018-11-07 The central theme of this book is an under studied link between the canon of Francis Bacon s and Isaac Newton s scientific and philosophical thought and Samuel Johnson s critical approach that can be traced in a textual study of his literary works The interpretive framework adopted here encourages familiarity with the history and philosophy of science confirming that the history of ideas is an entirely human construct that constitutes an integral part of intellectual history This further endorses the argument that intermediality can only be of benefit to future research into the richness of Johnson s literary style As perceived boundaries are crossed between conventionally distinct communication media the profile of Johnson that emerges is of a writer of passionate intelligence who was able to combine a pragmatic approach to knowledge with flights of imagination as a true artist "Steel for the Mind" Charles H. Hinnant,1994 In contrast to the views of many eighteenth century critics from Addison to Lord Kames Johnson maintains that mimesis necessarily implies the absence of what it purports to represent and thus can never achieve what Kames calls ideal presence *The Critical Opinions of Samuel Johnson* Samuel Johnson,1926
