**Issues and Options for the Navy's Combat Logistics Force** ,1988 *Defense Logistics* William M. Solis,2009-11 In 2001 the DoD identified performance based logistics PBL as the preferred weapon system support strategy Within DoD PBL is the purchase of performance outcomes such as system availability rather than the purchase of individual elements of logistics support such as parts repairs and engineering support Although PBL initially arose from efforts to reduce support costs questions have arisen about whether PBL has reduced support costs as originally intended This report evaluates the extent to which DoD has used business case analyses to guide decisions related to PBL arrangements and the impact PBL arrangements have had on weapon system support costs Includes recommendations Charts and tables Destroyers, Frigates and Corvettes Camil Busquets,1999 Destroyers Frigates and Corvettes covers what are known as escort vessels They have developed so much that they now bear little relation to those of only a few years ago Their sizes and displacements are increasing so dramatically that in recent years ships with these characteristics are being classified in higher categories even as cruisers **Europe, Small Navies and Maritime Security** Robert McCabe,Deborah Sanders,Ian Speller,2019-09-16 This book seeks to identify and address gaps in our understanding of maritime security and the role of small navies in Europe The majority of Europe s navies are small yet they are often called upon to address a complex array of traditional and non traditional threats This volume examines the role of small navies within the European security architecture by discussing areas of commonality and difference between navies and arguing that it is not possible to fully understand either maritime strategy or European security without taking into account the actions of small navies It contains a number of case studies that provide an opportunity to explore how different European states view the current security environment and how naval policy has undergone significant changes within the lifetime of the existing naval assets In

addition the book examines how maritime security and naval development in Europe might evolve given that economic forecasts will likely limit the potential procurement of larger naval assets in the future which means that European states will increasingly have to do more with less in the maritime domain This book will be of much interest to students of maritime strategy naval power strategic studies European politics and international relations in general [The Armed Forces of Pakistan](#) Pervaiz Iqbal Cheema,2002 This book describes the nature of Pakistan s defense capabilities and the forces that shape them in the twenty first century **The Statesman's Year-Book 1985-86** J.
