Surface Mining Operations in Oil Sands C. A. Poveda,M. G. Lipsett,2014-07-23 The creation of the World Commission on Environment and Development WCED commonly known as the Brundtland Commission and the publication in 1987 of its report *Our Common Future* marked a turning point towards finding the balance among society economy and environment Since then governments have improved regulations new standards have been developed management and process practices have addressed potential gaps public and private organisations have taken initiative through the creation of committees and programs and research covering all areas of sustainable development has become a priority for academics and practitioners These different sources serve as the basis for a pre selection process of sustainable development indicators SDIs While some sources do not specifically address certain industries the pre selection process suggested in this book studies and analyses each SDI s resource and the possible applicability of already identified indicators An assertive set of SDIs is not solely based on regulatory systems as measuring sustainability cannot become a bureaucratic process and neither can any other SDI s source single handedly determine or mandate the final set of indicators as the real objective is to assist decision makers and effectively engage stakeholders This book presents an analysis of six different sources for pre selecting SDIs accompanied by a methodology to then finalise with a set of SDIs for the surface mining operations in oil sands projects Surface mining projects are complex operations with several social economic environmental and health impacts As the government and oil sands developers are turning towards increasing productivity with a more conscious sustainable development approach a pre selection of SDIs is required to assist further formal multi criteria selection processes      U.S. Geological Survey Circular ,1984      *Report of the State Geologist* California. Division of Mines and Geology,1915      Report of the State Mineralogist ,1915      **U.S. Geological Survey Bulletin** ,1983      **Quaternary of the Thames** D.R. Bridgland,2012-12-06 The principal aim of this volume is to provide descriptions of Sites of Special Scientific Interest selected as part of the Geological Conservation Review that yield evidence for the Pleistocene history of the River Thames and its tributaries Although defined thematically the volume covers all Pleistocene GCR sites in the Thames valley A number of sites in southern East Anglia are also included because they provide important evidence bearing on the history of the Thames system The justification for a

GCR volume devoted to the Thames lies in the special importance of the river in the British Quaternary. The volume is concerned with the history of Britain over approximately the last two million years of geological time during the repeated glacial phases of the Quaternary Ice Age and the warmer intervals between them. Many such climatic fluctuations are recorded in the deposits of the Thames which can be shown to have existed as the predominant west to east drainage line in south eastern England throughout the Pleistocene. The Thames has left a detailed record of its earlier presence in the form of deposits which comprise fluviially aggraded floodplain sediments predominantly gravels preserved on the valley sides where they form geomorphological terrace features. The oldest deposits are at the highest levels forming a terrace staircase that records successive stages in the evolution of the valley. *Report on the Mines of the Province of Quebec* Québec (Province). Department of Natural Resources, 1913      **California Statewide Wilderness Study Report: v. 1. Garcia Mountain**, 1991

Following a detailed inventory the Bureau of Land Management recommended that Congress designate 2 3 million acres of public land as wilderness and adding an additional 109 000 acres to Joshua Tree and Death Valley National Parks. The California Statewide Wilderness Study Report summarizes those studies and documents the BLM's recommendations.
