Miners And Mariners Of The Severn Gorge:

Miners & Mariners of the Severn Gorge Barrie Stuart Trinder, Nancy C. Cox, 2000 Miners Mariners of the Severn Gorge

The Admiral Benbow Sam Willis, 2014-12-09 Admiral John Benbow was an English naval hero a fighting sailor of ruthless methods but indomitable courage Benbow was a man to be reckoned with In 1702 however when Benbow engaged a French squadron off the Spanish main other ships in his squadron failed to support him His leg shattered by a cannon ball Benbow fought on but to no avail the French escaped and the stricken Benbow succumbed to his wounds When the story of his Last Fight reached England there was an outcry Two of the captains who had abandoned him were court martialed and shot Brave Benbow was elevated from national hero to national legend his valor immortalized in broadsheet and folksong ships were named after him Tennyson later feted him in verse in Robert Louis Stevenson s *Treasure Island* the tavern where Jim Hawkins and his mother live is called The Admiral Benbow For the very first time Sam Willis tells the extraordinary story of Admiral Benbow through an age of dramatic change from his birth under Cromwell s Commonwealth to service under the restored Stuart monarchy to the Glorious Revolution of 1688 to the French wars of Louis XIV and finally to the bitter betrayal of 1702 The Admiral Benbow covers all aspects of seventeenth century naval life in richly vivid detail from strategy and tactics to health and discipline But Benbow also worked in the Royal Dockyards lived in Samuel Evelyn s House knew Peter the Great helped to found the first naval hospital and helped to build the first offshore lighthouse The second volume in the *Hearts of Oak* trilogy from one of Britain s most exciting young historians The Admiral Benbow is a gripping and detailed account of the making of a naval legend

Early Modern Things Paula Findlen, 2021-03-01 *Early Modern Things* supplies fresh and provocative insights into how objects ordinary and extraordinary secular and sacred natural and man made came to define some of the key developments of the early modern world Now in its second edition this book taps a rich vein of recent scholarship to explore a variety of approaches to the material culture of the early modern world c 1500 1800 Divided into seven parts the book explores the ambiguity of things representing things making things encountering things empires of things consuming things and the power of things This edition includes a new preface and three new essays on encountering things to enrich the volume These look at cabinets of curiosities American pearls and the material culture of West Central Africa Spanning across the early modern world from Ming dynasty China and Tokugawa Japan to Siberia and Georgian England from the Kingdom of the Kongo and the Ottoman Empire to the Caribbean and the Spanish Americas the authors provide a generous set of examples in how to study the circulation use consumption and most fundamentally the nature of things themselves Drawing on a broad range of disciplinary perspectives and lavishly illustrated this updated edition of *Early Modern Things* is essential reading for all those interested in the early modern world and the history of material culture

The Single Homemaker and Material Culture in the Long Eighteenth Century David Hussey, Margaret Ponsonby, 2016-03-03 The Single Homemaker and Material Culture in the Long Eighteenth Century represents a new

synthesis of gender history and material culture studies It seeks to analyse the lives and cultural expression of single men and women from 1650 to 1850 within the main focus of domestic activity the home Whilst there is much scholarly interest in singleness and a raft of literature on the construction and apprehension of the home no other book has sought to bring these discrete studies together Similarly scholarly work has been limited in evaluating gendered consumption practices during the long eighteenth century because of an emphasis on the homes of families Analysing the practices of single people emphasises the differences but also amplifies the similarities in their strategies of domestic life

The Domestic Revolution: How the Introduction of Coal into Victorian Homes Changed Everything Ruth Goodman, 2020-10-20 Our domestic Sherlock brims with excitement Roger Lowenstein Wall Street Journal in this erudite romp through the smoke stained coal fired houses of Victorian England The queen of living history Lucy Worsley dazzles anglophiles and history lovers alike with this immersive account of how English women sparked a worldwide revolution from their own kitchens Wielding the same wit and passion as seen in *How to Be a Victorian* Ruth Goodman shows that the hot coal stove provided so much more than morning tea As Goodman traces the amazing shift from wood to coal in mid sixteenth century England a pattern of innovation emerges as the women stoking these fires also stoked new global industries from better soap to clean smudges to new ingredients for cooking Laced with irresistibly charming anecdotes of Goodman s own experience managing a coal fired household *The Domestic Revolution* shines a hot light on the power of domestic necessity

Religion, Gender, and Industry Peter S Forsaith, Geordan Hammond, 2012-05-31 Questions have been raised in recent decades about the place of women in the eighteenth and nineteenth centuries in church and society during a time of vast industrial change These topics are broad but can be seen in microcosm in one small area of the English Midlands the parish of Madeley Shropshire in which Coalbrookdale became synonymous with the industrial age Here the evangelical Methodist clergyman John Fletcher 1729-1785 ministered between 1760 and 1785 among a population including Roman Catholics and Quakers as well as people indifferent to religion For nearly sixty years after his death two women Fletcher s widow and later her protegee had virtual charge of the parish which became one of the last examples of Methodism within the Church of England Through examining this specific locality with its potential for religious tension and great social significance this multidisciplinary collection of essays engages with developing areas of research In addition to furthering knowledge of Madeley parish and its relation to larger themes of religion gender and industry in eighteenth century Britain the impact of the Fletchers in nineteenth century American Methodism is examined

The Wills of Our Ancestors Stuart A. Raymond, 2013-01-19 Almost every book on English research highlights the need to examine the wills of our ancestors this book gives us an easy to read detailed guide

FGS Forum What are wills and how can they be used for family and local history research How can you interpret them and get as much insight from them as possible Wills are key documents for exploring the lives of our ancestors their circumstances and the world they knew This practical handbook is the essential guide to understanding wills Wills expert

Stuart Raymond traces the history and purpose of probate records and guides readers through the many pitfalls and possibilities these fascinating documents present. He describes the process of probate, gives a detailed account of the content of the various different types of record and advises readers on how they can be used to throw light into the past, offering factual evidence that no genealogist or local historian can afford to ignore. In a series of concise fact-filled chapters, Raymond explains how wills came into being, who made them and how they were made, how the probate system operates, how wills and inventories can be found and how much can be learned from them. In addition to covering probate records in England and Wales, he includes the Channel Islands, Ireland, the Isle of Man and Scotland. This introduction is aimed primarily at family historians who are interested in the wills of particular individuals who are seeking proof of descent and local historians who are interested in the wealth of local historical information that can be gathered from them.

The Domestic Revolution

Ruth Goodman, 2020-04-16. Social historian and TV presenter Ruth Goodman tells the story of how the development of the coal-fired domestic range fundamentally changed not just our domestic comforts but our world.

The Origins of the Consumer Revolution in England, Joanne Sear, Ken Sneath, 2020-01-17. The Origins of the Consumer Revolution in England explores the rise of consumerism from the end of the medieval period through to the beginning of the nineteenth century. The book takes a detailed look at when the consumer revolution began, tracing its evolution from the years following the Black Death through to the nineteenth century. In doing so, it also considers which social classes were included and how different areas of the country were affected at different times, examining the significant role that location played in the development of consumption. This new study is based upon the largest database of English probate records yet assembled, which has been used in conjunction with a range of other sources to offer a broad and detailed chronological approach. Filling in the gaps within previous research, it examines changing patterns in relation to food and drink, clothing, household furnishings and religion, focussing on the goods themselves to illuminate items in common ownership rather than those owned only by the elite. Using a combination of qualitative and quantitative evidence to explore the development of consumption, *The Origins of the Consumer Revolution in England* will be of great use to scholars and students of late medieval and early modern economic and social history with an interest in the development of consumerism in England.

Production and

Consumption in English Households 1600-1750, Darron Dean, Andrew Hann, Mark Overton, Jane Whittle, 2004-08-02. This economic, social and cultural analysis of the nature and variety of production and consumption activities in households in Kent and Cornwall yields important new insights on the transition to capitalism in England.

Blood, Faith and Iron: A dynasty of Catholic industrialists in sixteenth- and seventeenth-century England, Paul Belford, 2018-11-13. The Ironbridge Gorge is presented as

the birthplace of the Industrial Revolution and so part of a national narrative of heroic Protestant individualism However this is not the full story This book asserts that this industrial landscape was in fact created by an entrepreneurial Catholic dynasty over 200 years before the Iron Bridge was built *The British Columbia Genealogist* ,2001 [The Folklore of Shropshire](#) Roy Palmer,2004 **The Archaeology of American Labor and Working-class Life** Paul A. Shackel,2009 Shackel provides a compelling account of how an archaeology of working class life can correct and enrich historical knowledge and improve public understanding of the American industrial experience Dean J Saitta University of Denver A thorough well written overview of the issues confronting an archaeology of labor and the contributions historical archaeologists have made in addressing those issues I would strongly recommend this book for anyone teaching historical archaeology or labor history at the university level Stephen A Mrozowski University of Massachusetts The winners write history Thus it is no surprise that the story of American industrialization is dominated by tales of unbridled technical and social progress What happens though when we take a closer look at the archaeological record That is the focus of Paul Shackel s new book which examines labor and working class life in nineteenth and early twentieth century industrial America Shackel offers an overview of a number of ongoing archaeology projects that are focused on reconstructing the capital labor relations of the past He demonstrates that worker unrest has been a constant feature of industrialization as the fight for fair wages and decent working conditions has been a continual one He shows how workers resisted conditions through sabotage and how new immigrants dealt with daily life in company housing he even reveals important information about conditions in strike camps *Ups and Downs* Dorothy Ruth Downs,2006 Joseph Downs was born 8 December 1865 in Wolverhampton Staffordshire England His parents were Richard Downs 1833 1895 and Jane Davies 1832 1903 He married Rebecca Green 1862 1938 daughter of George Green 1828 1901 and Ellen Webb 1840 1918 in 1889 He died in Vancouver British Columbia *Publications of the Dugdale Society* Dugdale Society,2010 **1650-1850** ,1994 **Labour History Review** ,2001
