National Dream The Last Spike:

National Dreams Daniel Francis, 2002-07-01 As Canadians we remember the stories told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike *National Dreams* is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves *National Dreams* is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis examines various aspects of this national mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNWMP Also revealed in *National Dreams* are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop

Pierre Berton Brian McKillop, 2011-06-22 The first ever biography of one of Canada's best known and most colourful personalities by an award winning author From his northern childhood on it was clear that Pierre Berton 1920-2004 was different from his peers Over the course of his eighty four years he would become the most famous Canadian media figure of his time in newspapers magazines radio television and books sometimes all at once Berton dominated bookstore shelves for almost half a century winning Governor General's Awards for *Klondike* and *The Last Spike* among many others along with a dozen honorary degrees Throughout it all Berton was larger than life full of verve and ideas he approached everything he did with passion humour and an insatiable curiosity He loved controversy and being the centre of attention and provoked national debate on subjects as wide ranging as religion and marijuana use A major voice of Canadian nationalism at the dawn of globalization he made Canadians take interest in their own history and become proud of it But he had his critics too and some considered him egocentric and mean spirited Now with the same meticulous research and storytelling skill that earned him wide critical acclaim for *The Spinster* and the

Prophet Brian McKillop traces Pierre Berton's remarkable life with special emphasis on his early days and his rise to prominence. The result is a comprehensive vivid portrait of the life and work of one of our most celebrated national figures.

Pipe Dreams Jacques Poitras, 2018-09-25 Winner of the 2018 Writers Federation of New Brunswick Book Award for Non Fiction Shortlisted for the 2018 Writers Trust Shaughnessy Cohen Prize for Political Writing Shortlisted for the 2019 JW Dafoe Book Prize A timely chronicle of how Canada's oil pipelines have become hotbeds for debate about our energy future Indigenous rights environmental activism and east west political tensions Pipe Dreams is the dramatic story of the rise and fall of the Energy East pipeline and the broader battle over climate and energy in Canada. The project was to be a monumental undertaking beginning near Edmonton AB and stretching over four thousand kilometres through Montreal to the Irving Oil refinery in Saint John NB. Conceived as a back up plan for the stalled Keystone XL pipeline it became the crucible for a national debate over the future of oil. In a cross country journey Poitras talked to industry executives prairie ranchers First Nations chiefs mayors premiers cabinet ministers and refinery workers. He also explored Canada's perplexing oil relationship with the United States our industry is literally tied to its American counterpart with sinews of steel. The Energy East pipeline represented a new direction designed to get Alberta oil sands crude to lucrative world markets. Yet it was promoted in explicitly nationalist terms the country was said to be reorienting itself along its east west axis tying itself together again with a great feat of engineering. By the time the journey ended the story had become a kind of whodunit. Poitras witnessed the slow motion killing of the fifteen billion dollar project. Unfolding in tandem with clashes over the Trans Mountain pipeline Energy East's demise heralded a potential turning point not just for a single proposal but for Canada's carbon economy. Entertaining informative and insightful Pipe Dreams offers a clear picture of the complicated political environmental and economic issues that Canadians face.

The Perilous Trade Roy MacSkimming, 2012-01-11 A book that will fascinate and inform readers who love Canadian writing. Part cultural history part personal memoir this accomplished sweeping yet intimate book demonstrates that the story of Canadian publishing is one of the cornerstones of our literary history. In The Perilous Trade former publisher literary journalist and industry insider Roy MacSkimming chronicles the extraordinary journey of English language publishing from the Second World War to the

present During a period of unparalleled transformation Canada grew from a cultural colony fed on the literary offerings of London and New York to a mature nation whose writers are celebrated around the world Crucial to that evolution were three generations of book publishers mavericks gamblers entrepreneurs political activists and true believers sharing a conviction that Canadians need books of their own Canadian publishing has long made headlines be it Jack McClelland's outrageous publicity stunts American takeovers the collapse of venerable imprints or bold political moves to ensure the industry's survival Roy MacSkimming takes us behind the headlines to draw memorable portraits of the men and women who built Canada's literary renaissance With a novelist's eye for character and incident he weaves their tangled relationships with authors agents booksellers and each other into a lively narrative rich in anecdote and revealing personal recollection Canadian publishers large and small have nurtured a literature of extraordinary diversity and breadth MacSkimming argues giving us English Canada's greatest cultural achievement

Painful Choices David A. Welch, 2011-06-27 Under what conditions should we expect states to do things radically differently all of a sudden In this book David Welch seeks to answer this question constructing a theory of foreign policy change inspired by organization theory cognitive and motivational psychology and prospect theory He then test drives the theory in a series of comparative case studies in the security and trade domains Argentina's decision to go to war over the Falklands Malvinas vs Japan's endless patience with diplomacy in

its conflict with Russia over the Northern Territories America's decision to commit large scale military force to Vietnam vs its ultimate decision to withdraw and Canada's two abortive flirtations with free trade with the United States in 1911 and 1948 vs its embrace of free trade in the late 1980s Painful Choices has three main objectives to determine whether the general theory project in the field of international relations can be redeemed given disappointment with previous attempts to reflect on what this reveals about the possibilities and limits of general theory and to inform policy Welch argues that earlier efforts at general theory erred by aiming to explain state behavior which is an intractable problem Instead since inertia is the default expectation in international politics all we need do is to explain changes in behavior Painful Choices shows that this is a tractable problem with clear implications for intelligence analysts and negotiators **Catalog of Copyright Entries.**

Third Series Library of Congress. Copyright Office,1974 **Essentially Canadian** Gordon McLeod,1982 Allan Sullivan wrote over forty works of popular fiction between 1890 and 1940 today it is difficult to find even one copy of many of these works A well known and widely read author in the first half of this century Sullivan wrote thrillers historical romance children's stories and novels set in the north The Great Divide The Fur Masters Cariboo Road Now there is no complete collection of his published works anywhere in the world In this literary biography of Alan Sullivan the author interweaves Sullivan's life story and his literary career Drawing on published and unpublished material as well as on information supplied by Sullivan's four children McLeod traces the influence on Sullivan's writings of his early years in Sault Ste Marie and in mining and construction camps of society life in Toronto of visits to the Arctic and Europe and residence on an English country estate Sullivan is seen as a man whose essential characteristics are those of Canada and whose literary work is paralleled by the paintings of the Group of Seven artists His literary works are discussed and evaluated in the light of Sullivan's own and other Canadian critical theories The bibliography provides a convenient listing of Sullivan's book length publications The volume will be of value to students of literature but will also appeal to anyone interested in Canadian life and culture **Survival** Margaret Atwood,2013-03-26 When first published in 1972 Survival was considered the most

startling book ever written about Canadian literature Since then it has continued to be read and taught and it continues to shape the way Canadians look at themselves Distinguished provocative and written in effervescent compulsively readable prose Survival is simultaneously a book of criticism a manifesto and a collection of personal and subversive remarks Margaret Atwood begins by asking What have been the central preoccupations of our poetry and fiction Her answer is survival and victims Atwood applies this thesis in twelve brilliant witty and impassioned chapters from Moodie to MacLennan to Blais from Pratt to Purdy to Gibson she lights up familiar books in wholly new perspectives This new edition features a foreword by the author A World Perspective Through 21st Century Eyes R. K. Koslowsky,2004 As a community of citizens in the twenty first century we are fortunate to have emerged from the biological evolution of the past million years and the cultural evolution of the past ten thousand years We have enjoyed an abundance of time and freedom to explore the why and

how things work and continue to push the limits of the present technological evolution A World Perspective through 21st Century Eyes is not a history textbook or a science history book It is not a treatise on philosophy or theology Rather it is a book on the major themes in the evolution of man and the impact of science thereto It is a book with the major theme addressing the impact of science on society one in which the technical community has not had time to digest and reflect upon during the past fifty years With the time pressures of the day and in the specializations in which we operate there is precious little surplus energy available to us for leisure activity of our choosing I trust that this treatment will sketch a broad outline that the scientific and technological community has had on society over the past five thousand years and potential areas where further impacts will be made in the next one hundred years To this effort I believe the reader will find his or her surplus energy well spent An engineer to which my life s training was aimed is expected to have a complete and thorough knowledge of some subjects This is true for most of us in the technical community therefore it is also true that most of us choose not to write about many topics of which we are not master I feel this separation of subjects and isolation of scientists and technologists does a disservice to others in other disciplines who look for different views in order to maintain a balanced perspective on the myriad of issues confronting them each day Those of us who have grown up in the Western Culture without a technical education may find this discussion exciting in the different way it is broached Just as an engineer appreciates the beauty of the Golden Gate Bridge and the precision of the clock the inspiration from watching the setting sun reading a biblical passage or viewing a Bouguereau painting can motivate and enlighten that same engineer In this way I aim to provide the reader either technical or non technical with an appreciation of the evolving world from the viewpoint of one who has been technically trained I cannot reproduce the sunset paint or sing to inspire but I hope these insights motivate you to pause and consider your area of expertise with the aim for you to contribute that which has inspired and motivated you

Canada in the Frame Philip J. Hatfield, 2018-06-18 *Canada in the Frame* explores a photographic collection held at the British Library that offers a unique view of late nineteenth-century and early twentieth-century Canada. The collection, which contains in excess of 4,500 images taken between 1895 and 1923, covers a dynamic period in Canada's national history and provides a variety of views of its landscapes, developing urban areas, and peoples. Colonial Copyright Law was the driver by which these photographs were acquired, unmediated by curators but rather by the eye of the photographer who created the image. They showcase a grass-roots view of Canada during its early history as a Confederation. *Canada in the Frame* describes this little-known collection and includes over 100 images from it. The author asks key questions about what it shows, contemporary viewers of Canada and its photographic history, and about the peculiar view these photographs offer of a former part of the British Empire in a post-colonial age viewed from the old
