Sister Nations Heid E. Erdrich, Laura Tohe, 2010-06 This anthology of fiction, prose, and poetry celebrates the rich diversity of writing by Native American women today. Editors Heid E. Erdrich and Laura Tohe have gathered stories from across the nation that celebrate, record, and explore Native American women's roles in community. The result is a rich tapestry that contains work by established writers along with emerging and first-time authors. Contributors include Louise Erdrich, Joy Harjo, Diane Glancy, Elizabeth Cook-Lynn, Allison Hedge Coke, LeAnne Howe, Roberta Hill, Kim Blaese, Linda LeGarde Grover, with a foreword by Winona LaDuke. The writings included range from the personal to the political, from notions of romantic love to the realities of marriage, from finding a place in modern society to incorporating tradition in daily life. Whether it's Louise Erdrich's heartbreaking story *The Shawl*, Diane Glancy's tightly distilled poems, or Joy Harjo's elegant and fanciful *How to Get to Planet Venus*, all of these works explore both what it means to be a woman and how those realities are complicated by the Native American experience. The editors have divided these lively and thought-provoking pieces into four sections: *Changing Women*, which deals with the stages of a woman's life, awareness of female ancestors, and women's traditions of healing and making art; *Strong Hearts*, which shows Indian women enduring with love, defending with fierce judgment, and reaching out across history to protect the people; *New Age Pocahontas*, which reveals the humor and complexity of stereotypes and simplified images of Native American women; and *In the Arms of the Skies*, which explores the ways in which typical notions about romantic love and marriage are put to the test. *Sister Nations* also includes full biographies of all the contributors, commentary from many of the authors on their work, and a bibliography of relevant publications.

The Practice of U.S. Women's History S. J. Kleinberg, Eileen Boris, Vicki Ruíz, 2007 In the last several decades, U.S. women's history has come of age. Not only have historians challenged the national narrative on the basis of their rich explorations of the personal, the social, the economic, and the political, but they have also entered into dialogues with each other over the meaning of women's history itself. In this collection of seventeen original essays on women's lives from the colonial period to the present, contributors take the competing forces of race, gender, class, sexuality, religion, and region into account. Among many other examples, they examine how conceptions of gender shaped government officials' attitudes towards East Asian immigrants, how race and gender inequality pervaded the welfare state, and how color and class shaped Mexican

American women's mobilization for civil and labor rights **Women of the First Nations** Christine Miller, Patricia Chuchryk, 1996-08-15 From diversity comes strength and wisdom this was the guiding principle for selecting the articles in this collection Because there is no single voice identity history or cultural experience that represents the women of the First Nations a realistic picture will have many facets Accordingly the authors in Women of the First Nations include Native and non Native scholars feminists and activists from across Canada Their work examines various aspects of Aboriginal women's lives from a variety of theoretical and personal perspectives They discuss standard media representations as well as historical and current realities They bring new perspectives to discussions on Aboriginal art literature historical and cultural contributions and they offer diverse viewpoints on present economic environmental and political issues This collection counters the marginalization and silencing of First Nations women's voices and reflects the power strength and wisdom inherent in their lives Canadian Women's Issues Ruth Roach Pierson, Marjorie Griffen Cohen, Paula Bourne, Philinda Masters, 1993-01-01 Preface Acknowledgements 1 The Canadian Women's Movement Documents Marjorie Griffen Cohen 2 The Politics of the Body Documents Ruth Roach Pierson 3 The Mainstream Women's Movement and the Politics of Difference Documents Ruth Roach Pierson 4 Social Policy and Social Services Documents Marjorie Griffen Cohen 5 Women Law and the Justice System Documents Paula Bourne 6 Women Culture and Communications Philinda Masters Permissions Index

Indigenous Women's Theatre in Canada Sarah MacKenzie, 2020-11-15T00:00:00Z Despite a recent increase in the productivity and popularity of Indigenous playwrights in Canada most critical and academic attention has been devoted to the work of male dramatists leaving female writers on the margins In Indigenous Women's Theatre in Canada Sarah MacKenzie addresses this critical gap by focusing on plays by Indigenous women written and produced in the socio cultural milieu of twentieth and twenty first century Canada Closely analyzing dramatic texts by Monique Mojica Marie Clements and Yvette Nolan MacKenzie explores representations of gendered colonialist violence in order to determine the varying ways in which these representations are employed subversively and informatively by Indigenous women These plays provide an avenue for individual and potential cultural healing by deconstructing some of the harmful ideological work performed by colonial misrepresentations of Indigeneity and demonstrate the strength and persistence of Indigenous women offering a space in which decolonial futurisms can be envisioned In this unique work MacKenzie suggests that colonialist misrepresentations of Indigenous women have served to perpetuate demeaning stereotypes justifying devaluation of and violence against Indigenous women Most significantly however she argues that resistant representations in Indigenous women's dramatic writing and production work in direct opposition to such representational and manifest violence

legal studies and fiction offer an array of alternative paradigms as strong antidotes to our usual conceptions of federal Indian law. Each selection reveals an aspect of how federal Indian law is made, interpreted, implemented, or experienced. Throughout the book centers on the ever-present and contentious issue of identity. At the point where identity and law intersect lies an important new way to contextualize the legal concerns of Native Americans.

Traditional, National, and International Law and Indigenous Communities Marianne O. Nielsen, Karen Jarratt-Snyder, 2020-05-05. This volume of the Indigenous Justice series explores the global effects of marginalizing Indigenous law. The essays in this book argue that European-based law has been used to force Indigenous peoples to assimilate, has politically disenfranchised Indigenous communities, and has destroyed traditional Indigenous social institutions. European-based law not only has been used as a tool to infringe upon Indigenous human rights; it also has been used throughout global history to justify environmental injustices, treaty-breaking, and massacres. The research in this volume focuses on the resurgence of traditional law, tribal-state relations in the United States, laws that have impacted Native American women, laws that have failed to protect Indigenous sacred sites, the effect of international conventions on domestic laws, and the role of community justice organizations in operationalizing international law. While all of these issues are rooted in colonization, Indigenous peoples are using their own solutions to demonstrate the resilience, persistence, and innovation of their communities. With chapters focusing on the use and misuse of law as it pertains to Indigenous peoples in North America, Latin America, Canada, Australia, and New Zealand, this book offers a wide scope of global injustice. Despite proof of oppressive legal practices concerning Indigenous peoples worldwide, this book also provides hope for amelioration of colonial consequences.
