Natives and Strangers Leonard Dinnerstein, Roger L. Nichols, David M. Reimers, 1979 **Natives and Strangers** Leonard Dinnerstein, Roger L. Nichols, David M. Reimers, 1979 *Conspiracy Theories in American History* Peter Knight, 2003-12-11 The first comprehensive history of conspiracies and conspiracy theories in the United States *Conspiracy Theories in American History* An Encyclopedia is the first comprehensive research based scholarly study of the pervasiveness of our deeply ingrained culture of conspiracy From the Puritan witch trials to the Masons from the Red Scare to Watergate Whitewater and the War on Terror this encyclopedia covers conspiracy theories across the breadth of U S history examining the individuals organizations and ideas behind them Its over 300 alphabetical entries cover both the documented records of actual conspiracies and the cultural and political significance of specific conspiracy speculations Neither promoting nor dismissing any theory the entries move beyond the usual biased rhetoric to provide a clear sighted dispassionate look at each conspiracy real or imagined Readers will come to understand the political and social contexts in which these theories arose the mindsets and motivations of the people promoting them the real impact of society s reactions to conspiracy fears warranted or not and the verdict when verifiable that history has passed on each case The United States in the Long Twentieth Century Michael Heale, 2014-11-20 The United States in the Long Twentieth Century explores the nature of American politics and society in the period from 1900 to the present day illuminating both the changes and the continuities This was a period largely characterized by exceptional growth and international power though one also assailed by the crises and divisions that Michael Heale carefully examines A strength of the book is its integration of political with social history and it thus explores a range of social demographic and economic phenomena that have been central to American history in the long twentieth century such as immigration and ethnicity the labour civil rights and environmental movements and the role and achievements of women This new and fully revised edition of the seminal student textbook *Twentieth Century America* has been updated throughout to take recent scholarship in the field into account and also includes a number of important new features including a brand new chapter on the years from 2000 onwards covering 9 11 the financial crisis and the rise of Barack Obama substantial revisions to Part III covering 1969 to the present day and in particular to the material on Reagan Clinton African Americans immigrants the growth of the financial sector and de regulation and global warming one theme is the limits of conservatism and the resilience of liberalism greater emphasis on the United States in a transnational world and within the context of the rise of globalization *The United States in the Long Twentieth Century* is a detailed guide to American political and social history since 1900 and an essential text for all students interested in the modern history of the United States of America *Silent Film and the Triumph of the American Myth* Paula Marantz Cohen, 2001-05-03 *Silent Film and the Triumph of the American Myth* is a broad cultural study that connects the rise of film to the rise of America as a cultural center and world power in the twentieth century Cohen argues that through the medium

of silent film America was able to sever its literary and linguistic ties to Europe assert its cultural independence and forge a unique form of cultural expression Silent films drew on elements developed in popular forms of representation like photography landscape panoramas and vaudeville performance to create a medium that more accurately represented the American experience *Encyclopedia of African American History, 1896 to the Present* Paul Finkelman,2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century *Multicultural American Literature* A. Robert Lee,2003 Table of contents **Grave Concerns, Trickster Turns** Christopher A. LaLonde,2002 Who am I What am I Where do I belong These grave concerns take a lifetime for most people to answer They become even trickier for American Indians who all too often face literal and figurative burial by those in power Such concerns permeate the works of Louis Owens a mixedblood writer of Choctaw Cherokee Irish descent In this first book length examination of Owens s writings Chris LaLonde focuses on five critically acclaimed novels *The Sharpest Sight* *Bone Game* *Wolfsong* *Nightland* and *Dark River* According to LaLonde Owens works his stories like a trickster turning ideas back against themselves and playing with contradictory possibilities The conflicting Native and Western perspectives of time history humor and authority dramatize hoe such classes can threaten to undermine any sense of home and identity for Indians In the process Owens underscores the sham of the ethnic identities foisted upon American Indians the Noble Savage the Silent Indian the Vanishing Native and the Indian as Tragic Victim *Reforming America* Jeffrey A. Johnson,2017-03-20 Presenting a detailed look at the individuals themes and moments that shaped this important Progressive Era in American history this valuable reference spans 25 years of reform and provides multidisciplinary insights into the period During the Progressive Era influential thinkers and activists made efforts to improve U S society through reforms both legislative and social on issues of the day such as working conditions of laborers business monopolies political corruption and vast concentrations of wealth in the hands of a few Many Progressives hoped for and tirelessly worked toward a day when all Americans could take full advantage of the economic and social opportunities promised by U S society This two volume work traces the issues events and individuals of the Progressive Era from approximately 1893 to 1920 The entries and primary sources in this set are grouped thematically and cover a broad range of topics regarding reform and innovation across the period with special attention paid to important topics of race class and gender reform and reformers The volumes are helpfully organized under five categories work and economic life social and political life cultural and religious life science literature and the arts and sports and popular culture **Shopping for Identity** Marilyn Halter,2000 In America today you can connect to your ethnic heritage in dozens of ways or adopt an identity just for an evening Our society is not a melting pot but a salad bar a bazaar in which the purveyors of goods and services spend close to 2 billion a year marketing the foods clothing objects vacations and events that help people express their and others ethnic identities This is a huge business whose target groups are the hyphenated Americans in other words

all of us As immigrant groups gain economic security they tend to reinforce not relinquish their ethnic identification Marilyn Halter demonstrates that to a great extent they do it by shopping And their purchasing power is enormous How has the marketplace responded to this hunger Instantly and wholeheartedly tweaking old products and inventing new ones launching new brands in supermarkets new music groups vacation itineraries language courses toys greeting cards et cetera This nexus of business and ethnicity is already seen as the hottest consumer development of this decade and Halter is uniquely qualified to describe its origins the exponential growth of products and advertising and the phenomenal sales of items from salsa to Chieftains CDs She addresses her subject with an abundance of anecdotal evidence telling examples of ethnic marketing and interviews with entrepreneurs many of them immigrants who are vigorously seizing the opportunities offered by the business of ethnicity Shopping for Identity is provocative intriguing and farseeing illuminating an important aspect of our contemporary way of life while validating the yearning we all feel for connection to our roots From the Hardcover edition

Comparative Cultural Studies and Latin America Sophia A. McClennen, Earl E. Fitz, 2004 The genesis of Comparative Cultural Studies and Latin America stems from the contributors conviction that given its vitality and excellence Latin American literature deserves a more prominent place in comparative literature publications curricula and disciplinary discussions The editors introduce the volume by first arguing that there still exists in some quarters a lingering bias against literature written in Spanish and Portuguese Secondly the authors assert that by embracing Latin American literature and culture more enthusiastically comparative literature would find itself reinvigorated placed into productive discourse with a host of issues languages literatures and cultures that have too long been paid scant academic attention Following an introduction by the editors the volume contains papers by Gene H Bell Villada on the question of canon by Gordon Brotherston and Lucia de S on the First Peoples of the Americas and their literature by Elizabeth Coonrod Martinez on the Latin American novel of the 1920s by Rom n de la Campa on Latin American Studies by Earl E Fitz on Spanish American and Brazilian literature by Roberto Gonz lez Echevarra on Latin American and comparative literature by Sophia A McClennen on comparative literature and Latin American Studies by Alberto Moreiras on Borges by Julio Ortega on the critical debate about Latin American cultural studies by Christina Marie Tourino on Cuban Americas in New York City by Mario J Vald s on

the comparative history of literary cultures in Latin America and by Lois Parkinson Zamora on comparative literature and globalization The volume also contains a bibliography of scholarship in comparative Latin American culture and literature and biographical abstracts of the contributors to the volume Teaching Religion and Film Gregory J Watkins, 2008-08-22 In *Teaching Religion and Film* an interdisciplinary team of scholars thinks about the theoretical and pedagogical concerns involved with the intersection of film and religion in the classroom They examine the use of film to teach specific religious traditions religious theories and perspectives on fundamental human values Some instructors already teach some version of a film and religion course and many have integrated film as an ancillary to achieving central course goals This collection of essays helps them understand the field better and draws the sharp distinction between merely watching movies in the classroom and comprehending film in an informed and critical way *Multitribal Indians In Search of No Man's Land* Carla Toney, 2022-12-12 During the American westward expansion Chickamaugans originally Cherokees prioritized resistance to the U S government and Euro American invaders They signed treaties with Great Britain and Spain Overlooked by scholars it was the diplomatic savvy of Chickamaugan women and the support of their numerous allies British loyalists free persons of color former slaves and Native Americans from other nations that made it possible for Chickamaugan resistance to last from 1775 to 1794 Carla Toney proves that after the collapse of their resistance many chose migration not as individuals but in migration clusters She clearly elucidates the feudal patterns brought to the United States the cultural fluidity of Indigenous nations and migration as a form of resistance *The Business of War* James A. Tyner, 2017-11-30 Since the cessation of major combat operations in Iraq approximately 120 people either contract workers or private soldiers have been abducted with one third being executed The largest contingent of these workers has been provided by the Philippines Through a specific though not exclusive focus on the Philippines connection this book considers the myriad ways in which transnational labour migration intersects with the occupation of Iraq Also examining the role of the USA in the Middle East the book places the war on terror within the practices of neoliberalism but also links this with migration issues and argues that it is all part of a larger business of conflict **Encyclopedia of North American Immigration** John Powell, 2009 Presents an illustrated A Z reference containing more than 300 entries related to immigration to North America including people places legislation and more **We Are All Americans, Pure and Simple** Leroy G. Dorsey, 2013-08-28 The turn of the 20th century represented one of the most chaotic periods in the nation s history as immigrants Native Americans and African Americans struggled with their roles as Americans while white America feared their encroachments on national identity This book examines Theodore Roosevelt s public rhetoric speeches essays and narrative histories as he attempted to craft one people out of many Leroy G Dorsey observes that Roosevelt s solution to the problem appeared straightforward everyone could become Americans pure and simple if they embraced his notion of Americanism Roosevelt grounded his idea of Americanism in myth particularly the frontier myth a heroic combination of individual strength and character When nonwhites and

immigrants demonstrated these traits they would become true Americans earning an exalted status that they had heretofore been denied Dorsey's analysis illuminates how Roosevelt's rhetoric achieved a number of delicate if problematic balancing acts Roosevelt gave his audiences the opportunity to accept a national identity that allowed some room for immigrants and nonwhites while reinforcing their status as others thereby reassuring white Americans of their superior place in the nation Roosevelt's belief in an ordered and unified nation did not overwhelm his private racist attitudes Dorsey argues but certainly competed with them Despite his private sentiments he recognized that racist beliefs and rhetoric were divisive and bad for the nation's progress The resulting message he chose to propagate was thus one of a rhetorical if not literal melting pot By focusing on Roosevelt's rhetorical constructions of national identity as opposed to his personal exploits or his role as a policy maker *We Are All Americans* offers new insights into Roosevelt's use of public discourse to bind the nation together during one of the most polarized periods in its history

Race and Ethnicity in America Ronald H. Bayor, 2003 This brief history acts as an introduction to the inter-related themes of race ethnicity and immigration in American history It spans the years 1600 to 2000 exploring the historical roots of contemporary identity politics
