**Recueil Des Cours, Collected Courses, 1972**, 1974-06-24      **Paraguay and the United States** Frank O. Mora,Jerry Wilson Cooney,2010-10 Ranging from the 1840s through the early twenty first century this study of shared political economic and cultural histories fills significant gaps in our understanding of Paraguayan U S relations Frank O Mora and Jerry W Cooney tell how an initially rocky beginning between the two countries marked by diplomatic posturing shows of military force and failed business schemes gave way to a calmer period during which the United States backed Paraguay s territorial claims against its neighbors prospects grew brighter for American entrepreneurs and Paraguay embraced Pan Americanism It was not until the 1930s that the two countries engaged in earnest as the United States attempted to mediate the Chaco War between Paraguay and Bolivia Then as the authors write hemispheric solidarity in World War II the cold war in Latin America the balance of power among states in the R o de la Plata and the question of U S support for or aid to Latin American dictators became matters of mutual interest The dictatorship of Alfredo Stroessner 1954 89 spanned much of this era and a shared attitude of realpolitik typified U S Paraguayan relations during his rule Post Stroessner the United States has stood by Paraguay during its transition to democracy despite lingering concerns about such issues as drug trafficking and intellectual piracy The countries should grow closer with time the authors conclude if Paraguay resists the continent s leftward political shift and remains a solid partner in U S antiterror initiatives in South America

este término jurídico requiere una referencia obligada a su desarrollo histórico dado que ha experimentado una compleja transformación a lo largo del tiempo tanto a través de diversos instrumentos normativos como mediante la práctica judicial de tribunales con competencia internacional los cuales han contribuido significativamente a la formación de una jurisprudencia imponente y relevante en la materia. El análisis no se limita a la evolución del concepto de crímenes de lesa humanidad en sí sino que también incluye un estudio preliminar y complementario de otros términos conexos sin los cuales sería imposible comprender plenamente la magnitud de la transformación necesaria para su tipificación actual. Entre estos conceptos se destacan la intervención humanitaria el genocidio y los crímenes de guerra. La obra ofrece además una síntesis del contexto histórico en el cual surgieron o experimentaron modificaciones significativas estos términos relacionados con el fin de acercarse a su comprensión contemporánea. Asimismo se examinan las fuentes jurídicas más importantes que han influido en el desarrollo del concepto de crímenes de lesa humanidad. Entre estas fuentes se incluyen convenciones tratados internacionales y estatutos de organizaciones rganizaciones o instituciones internacionales. Estas normativas han sido fundamentales para la evolución del concepto y su análisis es complementado con un estudio de la jurisprudencia más relevante que ha definido los elementos esenciales de los crímenes de lesa humanidad.

### **Teoría breve de Relaciones Internacionales**

Paloma García Picazo, 2017-09-07 Una parte sustancial de la mejor Teoría Internacional que se realiza en el presente pasa por el conocimiento de los clásicos. Hay autores clásicos en Teoría Internacional pero sobre todo hay temas clásicos. Uno de ellos para muchos principal y central es la guerra. O su contrario la paz. Pero qué decir del Derecho de Gentes cuando la denominada multiculturalidad el cosmopolitismo y los mestizajes derivados de las migraciones internacionales lo redescubren. Las concepciones del mundo configuran al propio mundo en gran medida. A su vez estas tienen periodos de vigencia que dependen del grado de conocimientos que una poca y una cultura poseen sobre el mundo circundante. En el

fondo lo que hace una gran parte de los teóricos internacionales es proponer las concepciones del mundo en el que viven La actual Teoría Internacional ha mejorado notablemente Este progreso se deriva del serio intento de acometer de forma deliberada una construcción formal del conocimiento calificable como una Teoría de la Política Internacional y también de cómo puede y debe aplicarse este concepto a una formulación más consistente de la materia Esto ha permitido proponer tesis e hipótesis más avanzadas así como acuñar conceptos más precisos mejorar el lenguaje y la articulación lógica de los argumentos y abordar una mayor indagación histórica filosófica y crítica
