Nuremberg Laws:

Nazi Law John J. Michalczyk, 2017-12-28 A distinguished group of scholars from Germany Israel and right across the United States are brought together in Nazi Law to investigate the ways in which Hitler and the Nazis used the law as a weapon mainly against the Jews to establish and progress their master plan for German society The book looks at how after assuming power in 1933 the Nazi Party manipulated the legal system and the constitution in its crusade against Communists Jews homosexuals as well as Jehovah's Witnesses and other religious and racial minorities resulting in World War II and the Holocaust It then goes on to analyse how the law was subsequently used by the opponents of Nazism in the wake of World War Two to punish them in the war crime trials at Nuremberg This is a valuable edited collection of interest to all scholars and students interested in Nazi Germany and the Holocaust

The Law in Nazi Germany Alan E. Steinweis, Robert D. Rachlin, 2013-03-01 While we often tend to think of the Third Reich as a zone of lawlessness the Nazi dictatorship and its policies of persecution rested on a legal foundation set in place and maintained by judges lawyers and civil servants trained in the law This volume offers a concise and compelling account of how these intelligent and well-educated legal professionals lent their skills and knowledge to a system of oppression and domination The chapters address why German lawyers and jurists were attracted to Nazism how their support of the regime resulted from a combination of ideological conviction careerist opportunism and legalistic self-delusion and whether they were held accountable for their Nazi era actions after 1945 This book also examines the experiences of Jewish lawyers who fell victim to anti-Semitic measures The volume will appeal to scholars students and other readers with an interest in Nazi Germany the Holocaust and the history of jurisprudence

Genocide, State Crime and the Law Jennifer Balint, 2011-10-28 Genocide State Crime and the Law argues that genocide and other forms of state crime must be located in relation to cultural political and legal processes if they are to be properly understood and addressed

The Holocaust, the Church, and the Law of Unintended Consequences Anthony J. Sciolino, 2014 In this study author Anthony J Sciolino himself a Catholic cuts into the heart of why the Catholic Church and Christianity as a whole failed to stop the Holocaust He demonstrates that Nazism's racial anti-Semitism was rooted in Christian anti-Judaism While tens of thousands of Christians risked their lives to save Jews many more including some members of the hierarchy aided Hitler's campaign with their silence or their participation Sciolino's research and interpretation provide an analysis of Christian doctrine and church history to help answer the question of what went wrong He suggests that Christian tradition and teaching systematically excluded Jews from the circle of Christian concern and thus led to the tragedy of the Holocaust From the origins of anti-Judaism and anti-Semitism and the controversial position of Pope Pius XII to the Catholic Church's current endeavors to hold itself accountable for their role The Holocaust the Church and the Law of Unintended Consequences offers an examination of one of history's most disturbing issues

1934-1937 - DAY BY DAY CHRONOLOGY Ruben Ygua,2025-08-19 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That s how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections
