**Independent Prescribing for General Practice Nurses** Amanda Blaber, Hannah Morris, Jennifer Gorman, Donna Goddard, 2021-10-06 General Practice Nurses play an essential role in delivering care through general practice taking on a spectrum of different responsibilities within patient care to support the ever increasing workload within GP surgeries clinics and health centres Often working autonomously as part of a multidisciplinary team general practice nurses assess advise and treat patients of all different ages and backgrounds and therefore may encounter almost every aspect of patient care during their work This book is specifically aimed at GP Nurses undertaking independent prescribing within the complexity of contemporary primary healthcare It offers a complete overview for those taking on an independent nurse prescribing course as well as those nurses who have already qualified as independent prescribers Case studies written for the general practice setting will help nurses

build on the skills and practice they have already developed as they take on the independent prescribing role and will also be of value to more experienced or advanced nurses hoping to refresh their existing knowledge. Written by a range of specialist authors the book also covers the theoretical knowledge and context associated with independent prescribing enabling GP nurses to practise competently and confidently and deliver clinically effective person centred care. *Independent Prescribing for District Nurses* Amanda Blaber, Hannah Morris, Jennifer Gorman, 2020-04-14 District and community nursing are unique roles within healthcare practice. When visiting patients in their own homes or in residential care homes district nurses are required to deal with a range of health and social care needs often in unpredictable and changing environments. As part of the increasingly complex care district nurses offer to patients independent prescribing can also enable a timely and effective response to providing patient centred care. This book is specifically aimed at district nurses undertaking independent prescribing within the complexity of contemporary primary health care. It will help district nurses build on the skills and practice they have developed as community nurse prescribers as they develop into the independent prescribing role. District nurses also need to consider autonomous decision making in prescribing practice whilst prescribing as part of a wider health care team supporting patients to self manage and considering individual patient and family factors to maintain wellbeing and positive outcomes. Bringing together a range of specialist authors the book covers the theoretical knowledge and context associated with independent prescribing enabling district nurses to practice competently and confidently to deliver clinically effective person centred care. It offers a complete overview for those taking an independent nurse prescribing course as well as district nurses who have already qualified as independent prescribers. **NPF Nurse Prescribers' Formulary for District Nurses and Health Visitors 2003-2005**, 2003 **Non-Medical Prescribing in Healthcare Practice** Dawn Brookes, Anne Smith, 2017-09-16 This text offers a contemporary insight into non medical prescribing initiatives in everyday situations covering the latest phase in this ever evolving field of professional practice. With contributors from a variety of health professions this practical text examines prescribing as it stands now how it may develop in the future. *Advanced Clinical Skills for GU Nurses* Matthew Grundy-Bowers, Jonathan Davies, 2006-10-02 This book has been developed to help nurses who are in nurse practitioner roles by supporting them to develop their advanced practice skills. This book is intended to build on skills and knowledge that nurses will have acquired at staff nurse level. It is intended that this book will develop skills and knowledge which until recently have been more in the medical domain such as sexual history taking and physical assessment. **Statutory Instruments** Great Britain, 2005 **Health Visiting** Anne Robotham, Marion Frost, 2005-08-29 This book is an essential resource for health visiting students that reflects the key changes required of health visiting practice at the beginning of the new millennium. It is a key text for specialist practitioner programmes and also for existing practitioners who are furthering their practice and academic development. It brings together the elements of theory and practice which are essential to health visiting practice. The book is research based and

uses relevant evidence to support discussions A particular strength is the use of case studies and practice examples to illustrate the theoretical discussions Comprehensive coverage of all areas of health visiting practice will give the new practitioner confidence Case studies help to relate the theory to practice The up to date evidence base includes the latest research The wide range of contributors ensures that the content is written by experts in their field Coverage of aggression and violence the needs of ethnic minorities and complementary therapies reflects the growing role of the HV in relation to contemporary issues Fully updated throughout to reflect changes in practice including re organisation of the health care service changes in social policy child protection and nurse prescribing New chapters on Working with individuals and families Working with social groups and communities Working with socially excluded groups Quality improvement through leading and managing change and Nurse prescribing Content reorganised to reflect changes in emphasis of various issues in practice Addition of useful websites for further information     **Nursing Times, Nursing Mirror** ,2008     *Nurse Prescribing in Mental Health* Adrian Jones,2009-04-06 NURSE PRESCRIBING IN MENTAL HEALTH Nurse Prescribing in Mental health is a practical handbook for mental health nurses who are being training have aspirations to train or who are trained in nurse prescribing It introduces the reader to the different types of nurse prescribing and how they can be used in practice now and in the future and reflects on the myriad of issues that are facing novice and experienced nurse prescribers These include inter professional relationships team work ethical and legal issues governance and patient safety The text goes on to explore the different types of medicines commonly prescribed for major disease groups and will help nurse prescribers to understand the practical application of prescribing as seen in clinical practice Key features Outlines the principles of prescribing and pharmacology as applied to mental health nursing Running through all of the chapters is a review of relevant nurse prescribing research and evidence that supports general prescribing practice with a direct application to clinical practice in mental health settings Evidenced based Accessible with case studies and scenarios in each chapter
