from which it emerged The period Lillich chronicles begins with the region's new vitality following the knights' return from the crusades and ends with the onset of economic uncertainty and unrest that preceded the Hundred Years War She reveals that the stained glass of this 75 year span is forceful and uninhibited dramatic and dazzling characteristic of what we now term expressionism Lillich tracks and identifies painters glazing shops working methods models and sources to argue that the stained glass is a major style with its own developmental evolution and character putting to rest the notion that this art is merely transitional and provincial This landmark study is the first to look closely at the stained glass produced between 1250 and 1325 in western France during the late Capetian era Generously illustrated with a wealth of color and black and white images never before published including **How I Saved My Father's Life (and Ruined Everything Else)** Ann

Animation Art Tom Tumbusch, Bob Welbaum, 1998 The Multilingual Self Natasha Lvovich, 2013-01-11 This book relates the author's stories about how languages have integrated her being and defined and formed her sense of self The idea of writing autobiographical stories of her multilingual life came from her long term commitment to foreign language teaching and from a recent extremely rich and valuable experience teaching English to immigrants in the U S While reading and studying various aspects of second language related theory linguistics psychology anthropology and sociolinguistics

literature the author realized how estranged language learners are from all the research speculations hypotheses and achievements of scholarship A Russian immigrant the author tells stories to her ESL students to help them understand why and at what price successful language acquisition and acculturation is realistic Not only can students learn from her stories which encourage discoveries about their own behaviors or problems but they might want to respond and tell about their own struggles with a foreign language By becoming writers and interpreters of her text and by making it their own students can construct their own virtual texts The stories told throughout are those of a language learner who is also a linguist and language teacher As such they can bridge the gap between second language research and practical teaching and learning Moreover this book can help initiate language learners along with their teachers into scholarship Second language teachers and graduate students preparing for a teaching career might see this book as an illustration and validation of the studied theory and an inner voice of their students at the same time Multidisciplinary by nature it can also be used in several college courses such as cultural anthropology anthro and socio linguistics sociology multicultural education ethnography bilingualism and the study of immigrant experience There are numerous applications of the book in the educational field at various levels of adult learning programs which might be determined by the objectives and by the instructor s vision of it in the curriculum It is also intended as a message to the general public and to all thinking individuals in search of identity It will popularize the idea of the importance of foreign language learning language education linguistic literacy and metalinguistic awareness of illuminating self discovery through the treasure of multilingual experience capable of giving birth to a new sophisticated spiritually complex and enriched multicultural identity
