Protein and Energy Kenneth John Carpenter, 1994-05-27 The author reviews the long standing debate over the relative merits of a high protein versus a low protein diet At a time when the concern has resurfaced that over consumption of protein in affluent societies may damage health this book provides a fascinating historical perspective **Diet for a Large Planet** Chris Otter, 2023-06-05 In this magisterial study Chris Otter traces Britain's transition to a diet rich in animal proteins and refined carbohydrates like wheat and sugar a diet that required more acreage than that of Britain itself and that if followed everywhere would soon deplete the planet's resources as the title announces this was truly a diet for a large planet From the late 1700s to the end of World War II Otter accounts for the structures practices and ideologies generated by Britain's nutrition transition He shows how Britain was the first nation to undergo the population explosion urbanization and industrialization we associate with modernity and how it managed the unprecedented problem of how to feed its growing population Its radical solution would be to outsource its food production leading away from a locally produced plant based diet to one reliant on global markets international trade networks and enormous agro food systems that would have planetary effects on famine war the world economy and the wider earth system Not only did this phase in Britain's history make the consumption of meat white bread sugar and butter a coveted diet linked to development luxury and power it also opened up a new phase in economic history one whose dramatic effects endure to this day whether in terms of health problems eating disorders or the seemingly endless world food crisis *Current Catalog* National Library of Medicine (U.S.), First multi year

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
