Surgical Intensive Care Medicine John M. O'Donnell, Flávio E. Nacul, 2009-11-18 We are honored to present the second edition of Surgical Intensive Care Medicine Our first edition was considered to be an important contribution to the critical care literature and received excellent reviews from Critical Care Medicine Chest and Anesthesiology In the second edition the basic organization of the book remains unchanged being

composed of 60 carefully selected chapters divided into 11 sections The book begins with general topics in primary intensive care such as airway management and vascular cannulation followed by categories based on medical and surgical subspecialties While the chapters discuss definitions pathophysiology clinical course complications and prognosis the primary emphasis is devoted to patient management The contents of the current edition have been comprehensively upgraded and the chapters retained from the first edition have been thoroughly updated revised or rewritten In this second edition some new topics have been added including Postoperative Care of the Obese Patient Postoperative Care of the Pancreas Transplant Patient Optimization of High Risk Surgical Patients Post operative Alcohol Withdrawal Syndrome Ethics and End of Life Issues Improving the ICU and Continuous Medical Education in Intensive Care Medicine We are extremely fortunate to have high quality contributors many of whom are nationally and internationally recognized researchers speakers and practitioners in Critical Care Medicine An important feature of this latest edition is the geographical diversity of its authors Most are based in the United States but colleagues from Canada England Ireland Germany Belgium Holland France Italy Portugal and Australia have also made notable contributions

**Care of the Critically Ill Patient** Jack Tinker, Warren M. Zapol, 2012-12-06 Nine years have passed since the first edition of Care of the Critically Ill Patient was published As its editors Maurice Rapin and I were fortified by the many positive and helpful comments of reviewers and readers the work appeared to have fulfilled our original aims and objectives Intensive care medicine has of course advanced and changed in many ways since 1982 and it therefore seemed appropriate to consider the preparation of a second edition Encouraged by the reception of the first and the timely prompting of the publishers we began in 1986 to prepare for a new edition Caring for critically ill patients is of universal concern and we were therefore delighted when Warren Zapol joined us as Chief editor widening our international base The three of us subsequently spent many happy and productive times together planning the content priorities scale and contributions for the new edition A great tragedy then overcame us Maurice Rapin died suddenly His death deprived us of a true friend and colleague who had been an international pioneer during the development of intensive care medicine I will always remember with affection and professional pride the many hours he and I worked together in preparing the first edition of this book and also as founding editors of the now firmly established journal Intensive Care Medicine An obituary written by Warren Zapol that appeared in the journal follows the Preface

**Gastrointestinal and Liver Disease Nutrition Desk Reference** Gerard E. Mullin, Laura E. Matarese, Melissa Palmer, 2011-09-12 While the gastrointestinal tract ingests digests and absorbs nutrients the liver transforms nutrients synthesizes plasma proteins and detoxifies bacteria and toxins absorbed from the gut It is therefore not surprising that gastrointestinal and hepatic diseases have a major impact on the nutritional state of the individual Integrating nutrition and the gastrointestinal system the Gastrointestinal and Liver Disease Nutrition Desk Reference brings together experts in the field of nutrition gastroenterology and hepatology to offer dietary nutritional and natural therapies for gastrointestinal and hepatic ailments in order to improve
