Natow, Jo-Ann Heslin, Allen Natow, 1986 **Nutrition Care of the Older Adult** Kathleen C. Niedert, Kathleen Richmond (Dietitian), 2024 Stay ahead in the field of gerontological nutrition with the fully updated 4th edition of Nutrition Care of the Older Adult Authored by leading experts this comprehensive practice guide is thoughtfully crafted to provide both new and experienced health care professionals with the latest evidence based practices and strategies for optimizing nutrition care in older adults Like the previous edition this hands on reference encompasses the total perspective on person driven nutrition care of older adults The 4th edition includes three brand new chapters on gastroenterology food allergies and neurological disorders as well as the following Section 1 Introduction to Nutrition Care in Older Adults person driven care community resources Section 2 Nutrition Assessment skin integrity lab assessment dining assessment drug nutrient interactions Section 3 Disease States and Interventions malnutrition hydration oral health and swallowing renal disease diabetes cancer and more Section 4 Standards for Compliance federal regulations role of the RDN and NDTR emergency management and more **Interdisciplinary Nutritional Management and Care for Older Adults** Ólöf G. Geirsdóttir, Jack J. Bell, 2021-09-10 This open access book aims to primarily support nurses as leaders and champions of multimodal Interdisciplinary nutrition care for older adults A structured approach to fundamentals of nutrition care across Interdisciplinary settings is combined with additional short chapters about special topics in geriatric nutrition The book is designed to provide highly accessible information on evidence based management and care for older adults with a focus on practical guidance and advice across acute rehabilitation and primary and secondary malnutrition prevention settings The cost of malnutrition in England alone has been estimated to be 19.6 billion per year or more than 15% of the total public expenditure on health and social care 65 years The importance and benefit of specialised nutrition care delivered by experts in field is well established for those with complex nutrition care needs However despite the substantial adverse impact of malnutrition on patient and healthcare outcomes specialised management of this condition is often under resourced overlooked and under prioritised by both older adults and their treating teams As an alternative timely efficient and effective supportive nutrition care opportunities may be appropriately implemented by nurses and non specialist Interdisciplinary healthcare team members working together with nutrition specialists and the older adults they care for Practical low risk

opportunities should be considered across nutrition screening assessment intervention and monitoring domains for many patients with or at risk of malnutrition Whilst a variety of team members may contribute to supportive nutrition care the nursing profession provide a clear focal point Nurses across diverse settings provide the backbone for Interdisciplinary teamwork and essential patient care The nursing profession should consequently be considered best placed to administer Interdisciplinary multimodal nutrition care wherever specialist nutrition care referrals are unlikely to add value or are simply not available As such the book is a valuable resource for all healthcare providers dedicated to working with older patients to improve nutrition care
