Evidence in a Nutshell Michael Bradley Goodman, 1955 **Evidence** Michael Stockdale, Adam Jackson, 2011 Nutshell Evidence **Negotiating Domesticity** Hilde Heynen, Gülsüm Baydar, 2005-09-22 A series of essays to challenge and stimulate examining the links between gender domesticity and architecture from a number of different perspectives and disciplines **In Crime's Archive** Katherine Biber, 2018-07-04 This book investigates what happens to criminal evidence after the conclusion of legal proceedings During the criminal trial evidentiary material is tightly regulated it is formally regarded

as part of the court record and subject to the rules of evidence and criminal procedure. However, these rules and procedures cannot govern or control this material after proceedings have ended. In its afterlife, criminal evidence continues to proliferate in cultural contexts. It might be photographic or video evidence, private diaries and correspondence, weapons, physical objects, or forensic data, and it arouses the interest of journalists, scholars, curators, writers, or artists. Building on a growing cultural interest in criminal archival materials, this book shows how, in its afterlife, criminal evidence gives rise to new uses and interpretations, new concepts and questions, many of which are creative and transformative of crime and evidence, and some of which are transgressive, dangerous, or insensitive. It takes the judicial principle of open justice, the assumption that justice must be seen to be done, and investigates instances in which we might see too much, too little, or from a distorted angle. It centres upon a series of case studies, including those of Lindy Chamberlain and more recently Oscar Pistorius, in which criminal evidence has reappeared outside of the criminal process. Traversing museums, libraries, galleries, and other repositories, and drawing on extensive interviews with cultural practitioners and legal professionals, this book probes the legal, ethical, affective, and aesthetic implications of the cultural afterlife of evidence.

Student Lawyer, 1999

Slavery Before Race Katherine Howlett Hayes, 2014-05-22 The study of slavery in the Americas generally assumes a basic racial hierarchy: Africans or those of African descent are usually the slaves, and white people usually the slaveholders. In this unique interdisciplinary work of historical archaeology, anthropologist Katherine Hayes draws on years of fieldwork on Shelter Island's Sylvester Manor to demonstrate how racial identity was constructed and lived before plantation slavery was racialized by the legal codification of races. Using the historic Sylvester Manor Plantation site, turned archaeological dig, as a case study, Hayes draws on artifacts and extensive archival material to present a rare picture of northern slavery on one of the North's first plantations. There, white settlers enslaved Africans and Native Americans worked side by side. While each group played distinct roles on the Manor and in the larger plantation economy of which Shelter Island was part, their close collaboration and cohabitation was essential for the Sylvester family's economic and political power in the Atlantic Northeast. Through the lens of social memory and forgetting, this study addresses the significance of Sylvester Manor's plantation history to American attitudes about diversity, Indian land politics, slavery, and Jim Crow in tension with idealized visions of white colonial community.

TRAC 2014 Tom Brindle, Martyn Allen, Emma Durham, Alex Smith, 2015-04-02 This volume contains a selection of papers presented at TRAC 2014, as well as some invited contributions. In keeping with the aims of TRAC, several papers make innovative use of interdisciplinary theory in humanistic geography, philosophy, and archaeology, social psychology, and the cognitive science of religion in the study of Roman monuments, military social history, and religion. Other papers share a common theme: the critical interpretation of archaeological evidence. A more careful consideration of non-grave good pottery sherds from graves suggests that these often disregarded items potentially shed light on funerary rites, which are usually considered to be invisible. The potential

importance of plant remains particularly of exotic and rare species in ritual deposits is examined and a new perspective on the negative aspects of Roman conquest of Northern Gaul presented New approaches towards our understanding of space and landscape in the Roman world comprise an examination of the suburbs of ancient Rome and preliminary results of an ongoing project exploring the relationship between wetland landscapes and domestic settlements presenting a case study from Spain **Interstate Commerce Commission Reports** United States.
