## **Nvivo Qualitative Project:**

**The Nvivo Qualitative Project Book** Patricia Bazeley, Lyn Richards, 2000-10-13 A great basic book which can be used by the novice qualitative researcher The advice is friendly almost folksy with clear conceptual explanation of how the program works A very welcome contribution to this field Martha Ann Carey Albert Einstein College of Medicine New York

Qualitative researchers continue to be criticized because they rely too much on their own interpretations and avoid analytical and theoretical issues This book provides ways to integrate the thinking about a project and the data you have with practical ways that the software can facilitate the process I recommend it for both the new user as well as the experienced one Marilyn Lichtman Forum for Qualitative Social Research follow the link below to read the complete review This book invites readers to learn how to use qualitative data analysis software in the context of doing their research project The reader follows basic steps for creating and conducting a real project with real data using the new generation software package QSR NVivo The software tools are introduced only as needed and explained in the framework of what is being asked The reader is the craftsperson trialling those tools in the processes of getting started tentative interpretation drawing links shaping data and seeking and establishing explanations and theories The NVivo Qualitative Project Book allows the researcher to work through their own project or work with data provided from a real project The authors draw on decades of experience of research and training researchers around the world and take the reader through each step in a style combining informality and authority with frequent tips and reflections on what is being done Demonstration software is provided on the enclosed CD ROM with data to help create a researcher s project a project about researchers and researching and with multiple stages arranged sequentially in the development of a real project As a practical tool to help researchers understand qualitative data analysis software using NVivo and a guide through the sometimes complex processes of doing a research project this book will be invaluable reading for researchers and students undertaking qualitative research Pat Bazeley provides training and consulting services in research design and data analysis through her company Research Support Lyn Richards is Director of Research Services at Qualitative Solutions and Research the developers of NUD IST and NVivo software NVivo is distributed by Scolari SAGE Publications Software

*Qualitative Analysis Using NVivo* Nicholas H. Woolf, Christina Silver, 2017-09-20 Software is cut and dried every button you press has a predictable effect but qualitative analysis is open ended and unfolds in unpredictable ways This contradiction is best resolved by separating analytic strategies what you plan to do from software tactics how you plan to do it Expert NVivo users have unconsciously learned to do this The Five Level QDA method unpacks the process so

that you can learn it consciously and efficiently The first part of the book explains how the contradiction between analytic strategies and software tactics is reconciled by translating between them The second part provides both an in depth description of how NVivo works and comprehensive instruction in the five steps of translation These steps are illustrated with examples from a variety of research projects The third part contains real world qualitative research projects from a variety of disciplines methodologies and kinds of qualitative analysis all illustrated in NVivo using the Five Level QDA method The book is accompanied by three sets of video demonstrations on the companion website The book and accompanying videos illustrate the Windows version of NVivo As there are some differences in screen and interface design between the Mac and Windows versions please watch the video The NVivo Mac Interface in the Component Orientation series of videos available on the companion website The Five Level QDA method is based on the authors combined 40 years of experience teaching NVivo and other software packages used as platforms for conducting qualitative analysis After many years observing their students challenges they developed the Five Level QDA method to describe the process that long time NVivo experts unconsciously adopt The Five Level QDA method is independent of software program or methodology and the principles apply to any type of qualitative project Please see the following URL to access the accompanying materials for this book <https://www.qdaservices.co.uk/five-level-qda>
