Ocean Our Future

**Stefan Partelow, Maria
Hadjimichael, Anna-Katharina Hornidge**

Ocean Our Future:

The Ocean: Our Future Independent World Commission on the Oceans, 1998-09-17 The Ocean Our Future is the official report of the Independent World Commission on the Oceans chaired by M. Rio Soares. This book is the first to deal holistically in a single volume with the full range of problems confronting our oceans on the eve of the twenty-first century. In the space of only a few decades, our traditional perception of the oceans as a source of wealth, opportunity, and abundance has changed. The oceans have become the setting for a growing list of problems: territorial disputes, disruptions to global climate, overfishing, species extinction, pollution, illegal trafficking, and the destruction of coastal communities. Based on the deliberations, experience, and input of some 100 specialists from around the world, the book advances innovative ideas for improving governance of the oceans and coastal zones. Written in an accessible manner, this book will be valued by everyone interested in the future of the oceans.

The Willing World James Bacchus, 2018-07-19 In this time of unwillingness, the right kinds of global solutions are needed now more than ever. Climate change is here and intensifying. Anxieties over economic globalization grip many in the fear of change. While these fears have turned inward into unwillingness, the world's willing are working harder than ever for international and other cooperative solutions. James Bacchus explains why most of the solutions we need must be found in local and regional partnerships of the willing that can be scaled up and linked up worldwide. This can only be achieved within new and enhanced enabling frameworks of global and other international rules that are upheld through the international rule of law. To succeed, these rules and frameworks must for the first time see and treat economy and environment as one. The Willing World explains how best we can build the right legal structure to attain our global goals and summon and inspire the willingness needed to do it.

Tides of Wonder: A Natural History of the Oceans Ali Royston, The oceans are Earth's beating heart. From bioluminescent mysteries to deep-sea dramas, this book dives into the science and wonder of the seas and how they hold the key to our survival.

Ocean Governance Stefan Partelow, Maria Hadjimichael, Anna-Katharina Hornidge, 2023-03-01 This Open Access book on Ocean Governance examines sustainability challenges facing our oceans today. The book is organized into three sections: knowledge systems, policy foundations, and thematic analyses. The knowledge produced in the book was catalyzed by the scientific outcomes within the European-funded Cooperation in Science and Technology (COST) network Ocean Governance for Sustainability Challenges: Options and the Role of Science. This network brings together scientists, policy makers, and civil society representatives from 28 nation states to cooperate on ocean governance research. This book offers a compilation of new research material, including focused case studies, broad policy syntheses, and reflective chapters on the history and current status of knowledge production systems on ocean governance. New research material is presented, although some chapters draw on secondary sources. The book starts with synthetic review chapters from the editors outlining past and present knowledge systems, addressing how and why ocean governance for sustainability is where it currently stands, with critical reflections on existing

narratives path dependencies and colonialist histories This is followed by chapters addressing synthesizing and analyzing different legal and policy frameworks for ocean governance both regionally and internationally At the core of the book are the thematic analyses which provide focused case studies with detailed contextual information in support of different ocean governance challenges and sustainability pathways around the world The book concludes with a chapter explicitly targeting students researchers and policy makers with key take away messages compiled by the editors

The IMLI Treatise On Global Ocean Governance David Joseph Attard, David M Ong, Dino Kritsiotis, 2018-07-11 The 1982 United Nations Convention on the Law of the Sea UNCLOS remains the cornerstone of global ocean governance However it lacks effective provisions or mechanisms to ensure that all ocean space and related problems are dealt with holistically With seemingly no opportunity for revision due to the Conventions burdensome amendment provisions complementary mechanisms dealing with such aspects of global ocean governance including maritime transport fisheries and marine environmental sustainability have been developed under the aegis of the United Nations and other relevant international organizations This approach is inherently fragmented and unable to achieve sustainable global ocean governance In light of the Sustainable Development Goals SDGs particularly Goal 14 the IMLI Treatise proposes a new paradigm on the basis of integrated and cross sectoral approach in order to realise a more effective and sustainable governance regime for the oceans This volume focuses on the role of UN as the central intergovernmental organization responsible for global ocean governance It examines the ocean governance challenges and how the present legal policy and institutional frameworks of the UN have addressed these challenges It identifies the strengths and weaknesses of UN legal structures and offers tangible proposals to realize the ambition of a global ocean governance system

Fisheries Exploitation in the Indian Ocean Dennis Rumley, Sanjay Chaturvedi, Vijay Sakhuja, 2009 The book aims to further the debate on the impacts of fisheries policies in the Indian Ocean Region in order to facilitate a new regional policy direction A key argument of the volume is that ecologically sustainable and socially just development and management of Indian Ocean fisheries require a paradigm shift in the perceptions and policies of major stakeholders A central policy challenge is to identify a collective regional interest for fisheries and accordingly the development of integrated management policies that link ecology and society and which incorporate individuals communities agencies states and regimes into a holistic cooperative endeavour Successful ocean governance therefore requires greater inter state and inter agency consultation and cooperation an improvement in linking national initiatives to local action increased participation of local government and local communities and the enhancement of local capability In order to achieve this overall goal requires either the enhancement of existing regional institutions or the creation of a new regional body Institute of Southeast Asian Studies Singapore and Indian Ocean Research Group IORG co publication ISEAS has worldwide distribution rights

The Ocean and Us Farah Obaidullah, 2023-02-02 The Ocean and Us provides an overview of our contemporary understanding of the ocean and all the ways our lives interact with it It is intended for everyone with an

interest in our blue planet The book brings together the expertise of over 35 ocean specialists from around the world It explores a wide variety of themes including the importance of a healthy ocean in the fight to halt and contain climate change It covers issues such as overfishing and pollution as well as emerging themes such as the blue economy marine animal welfare and how we can leverage innovation to protect the ocean The book provides an overview of some of the world's iconic threatened and at risk ocean ecosystems and outlines current governance structures and ocean management tools It also discusses the important social dimensions between people and the ocean such as ocean and human wellbeing communities and the ocean and who gets to participate in the ocean space The book aims to enhance ocean literacy by making specialist concepts accessible to non experts with a view to empowering concerned citizens everywhere to come into action for the ocean and pave a better way forward for humanity

Oceans Sophie Jeleff, 1999-01-01 In order to preserve the quality of the sea's resources fisheries management policies must take into account not only economic biological environmental aspects of this problem but also its social aspects Marine science technology research on for example fisheries fish stocks biodiversity the ocean's moderation of the greenhouse effect undersea exploration coastal management all play a significant role in the formulation of the policies for long term management of the sea's biological resources The Parliamentary Assembly of the Council of Europe recommends the creation of a European maritime agency which takes into account the ocean's many functions uses This book explores all of these ideas reviews all the legal instruments linked to the exploration of the oceans details the new trends in the international law of the sea the sea which belongs to no one

Order for the Oceans at the Turn of the Century Davor Vidas, Willy Østreng, 2024-01-08 This book is a state of the art report on ocean law and politics today written by 40 contributors from six continents At this important early stage of implementation of the Law of the Sea Convention this book assesses where we have been going in the past decade and charts the way ahead Implementation of the Convention from the perspective of interaction of politics and law is the unifying theme of the book Under this three basic aspects have emerged as crucial during the 1990s 1 evolution of new regimes 2 institutionalisation and 3 new patterns of participation These are explored systematically in sections on the Convention its implementing agreements and related international institutions Parts I and II interaction of law of the sea with other regimes including those for polar regions Parts III and IV the various levels international national and transnational and actors involved in the implementation of the Convention Part V and a number of salient issues in implementation today Part VI

Eco-Responsible Cities and the Global Ocean Voula P. Mega, 2018-08-29 This book examines the nexus of cities and oceans and the interrelations between the Sustainable Development Goals SDGs 11 and 14 just after the first two critical years following the milestone year of hope in 2015 It advocates for actions both for sustainable cities the largest interconnected and only human ecosystem and for the global ocean that is the largest physical ecosystem Cutting edge concepts and actions are presented by and for cities and oceans following the global engagements during the years 2015 2017 In the era of global geopolitics

cities offer major democratic spaces between the micro regulations of the local communities and the governance of the global commons The role of education trust and citizen empowerment cannot be stressed enough This book offers an evidence based holistic and integrated view of key urban and ocean sustainability issues at the horizon of 2030 and of 2050 The chapters cover the most prominent issues at the heart of the matter and highlight systemic multi stakeholder eco responses towards sustainability with economic social environmental dimensions including political and cultural aspects This book offers a full exploration of cities and seas with an emphasis on vigorous paradigm shifts redesigning human systems and reconciling them with nature Building on robust evidence and transformational cases it provides structured advice for world leaders stakeholders and scholars

Ocean Governance Yen-Chiang Chang,2011-11-15 Ocean a source of life has been overused and heavily polluted While the traditional approaches might not be able to solve the complexity of the ocean governance issues there is a need to adopt a new way of thinking in order to deal with the current problems This book emphasises the importance of law and policy while generating ocean governance initiatives Good Ocean Governance as a new way of thinking needs to be supported by legislation and decision makers It is therefore necessary to examine whether the idea of good ocean governance exists within the international legal system and is subsequently subject to transfer into the domestic law During this transaction process a number of examples provided from the United States Canada and Australia help to demonstrate the broad picture Also included are discussions on the governance of marine resources ship recycling and marine pollution the impact of maritime clusters as well as social and culture impact of ports The ultimate aim of this book is to tease out more new ideas and discussions on ocean governance issues

Sustainable Ocean Resource Governance Markus Kotzur,Nele Matz-Lück,Alexander Proelss,Roda Verheyen,Joachim Sanden,2018-01-03 In Sustainable Ocean Resource Governance an international group of eminent authors offer perspectives on the legal interface between sustainable economic growth effective marine resource management and urgent environmental protection of the sea by addressing three key issues deep sea mining marine energy generation and seabed pipeline and cable systems In light of the sectoral nature of current ocean governance and the existing patchwork of management arrangements for the oceans this book gives insights in search for a coherent and consistent sustainability approach

Oceans Management in the 21st Century: Institutional Frameworks and Responses Alex G. Oude Elferink,Donald R. Rothwell,2004-07-01 The 1982 United Nations Convention on the Law of the Sea created a new framework for the conduct of maritime affairs The Convention remains a shining example of international cooperation diplomacy and the role of international law in the regulation of international affairs and oceans management The institutions established under the Convention which entered into force in 1994 are now all operating and the way they are fulfilling their tasks under the Convention is taking shape Chapters throughout this book assess the roles and impact upon oceans management of the International Tribunal for the Law of the Sea the International Sea Bed Authority the Commission on the Limits of the Continental Shelf and the Convention s Meeting

of States Parties Institutions outside the Convention s framework are also assessed including the International Maritime Organization in respect of the regime for archipelagic sea lanes and international straits the Food and Agriculture Organization and regional fisheries organizations and the United Nations General Assembly as concerns its coordinating role in the field of oceans and law of the sea In the evolving area of oceans management the way in which global and regional institutions have been involved in implementing the Convention on the Law of the Sea raises both questions concerning the interpretation of the Convention s substantive provisions and how these various institutions interact The impetus to resolve these and other challenges in the law of the sea and oceans management will ensure the law of the sea s continuing evolution in the years ahead *Towards Principled Oceans Governance* Donald R. Rothwell, David L. VanderZwaag, 2006-09-27

Australia and Canada have been at the forefront of efforts to operationalize integrated oceans and coastal management Throughout the 1990s both countries devoted considerable effort to developing strategies to give effect to international ocean management obligations This key book focuses on principles of marine environmental conservation and management maritime regulation and enforcement and regional maritime planning and implementation With contributions from respected scholars this informative book collectively assesses the obligations compliance implementation and trends in international ocean law particularly in giving effect to an Oceans Policy regional maritime planning international oceans governance and maritime security This book will be of interest to all academics involved with maritime studies and international law

Historical Dictionary of the United Nations Educational, Scientific and Cultural Organization (UNESCO) Lin Lin, Seth Spaulding, 2022-07-15 Established in the aftermath of World War II UNESCO succinctly states its peace mission as well as its peaceful resolution to peace in its Constitution constructing the defenses of peace in the minds of peoples on the intellectual and moral grounds For more than seven decades UNESCO has been consistently positioning peace as its unwavering core and ultimate goal through promoting international understanding and cooperation in and across its five major sectors of competence in education natural sciences culture communication and information and social and human sciences Historical Dictionary of the United Nations Educational Scientific and Cultural Organization UNESCO Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 700 cross referenced entries on UNESCO s initiatives programs projects normative instruments and partners over the past 76 years This book is an excellent resource for students researchers and anyone wanting to know more about UNESCO

Whaling Diplomacy Alexander Gillespie, 2005-01-01 Whaling Diplomacy is the only book that addresses all of the substantive issues relating to the conservation of whales through the International Whaling Commission IWC It covers the law policy science and philosophy at the heart of each element of the debate discussing how it has developed the current problems that beset it and what is necessary for the future Together all of the issues involved in whaling form a single crucible through which the future of conservation in international environmental law is being debated Students of law politics environmental economics

and philosophy will find this book of great value for its cutting edge relevance over the three disciplines Policymakers will also find it of interest for the insight into one of the most controversial conservation debates of our time **BOOK JACKET**

Frontiers ,1995 Maritime Cooperation and Security in the Indo-Pacific Region ,2022-12-12 More than twenty Indo Pacific scholars and emerging experts come together in this definitive volume to deliver fresh perspectives and original research on maritime cooperation and security With subjects ranging from the Philippines to Antarctica Coast Guards to climate change these essays pay tribute to the late Commodore Sam Bateman PhD while laying the academic groundwork for the improved policies and behaviours that provide for expanded good order at sea **Proceedings of 4th World**

Conference on Climate Change 2017 ConferenceSeries, October 19 21 2017 Rome Italy Key Topics Climate Change Climatology Evidence of Climate Changes Global Warming Effects Causes Climate Change Biodiversity Scenarios Carbon Cycle Climate Hazards Risks of Climate Change Effective Adaptation Energy Policy Climate Change Challenges Climate Change Law Policy Oceans Climate Change Sustainability Climate Change Pollution its Effects on Climate CO2 Responsible Climate Change Renewable Energy to Mitigate Climate Change Solutions for Climate Change CO2 Capture and Sequestration Climate Change Economics Climate Change Health Space Monitoring of Climate Variables **The Marine Environment and United Nations Sustainable Development Goal 14** Myron H. Nordquist,John Norton Moore,Ronán Long,2018-10-16 In The Marine Environment and United Nations Sustainable Development Goal 14 leading marine experts assess the scope achievements and limitations of UNSDG 14 for the conservation and sustainable use of marine resources Chapters discuss the challenges and gaps of ocean governance through five key sections Conservation and Sustainable Use of Oceans and Their Resources Biodiversity beyond National Jurisdiction Status of Deep Seabed Minerals Marine Pollution and Coastal Ecosystems and Climate Change and the Oceans This important book illustrates current challenges facing sustainable marine development and management and provides necessary insights for a coherent path forward
