**Effective Fund-Raising Management** Kathleen S. Kelly, 2012-12-06 In a ground breaking departure from existing works almost all of which are how to manuals based on anecdotal evidence this is the first academic textbook on fund raising By integrating practical knowledge with social science theory and research it presents a comprehensive approach to the function from its legal and ethical principles to the managerial process by which gifts are raised Territory previously uncharted in the literature is explored such as the historical and organizational contexts of contemporary practice Explanations of programs techniques and publics introduce a

new system for understanding fund raising's major concepts. Unlike efforts in established fields, most of the material represents original scholarship undertaken to produce a first-time text. The book's main purpose is to teach students about fund raising, a high-demand, high-paying occupation that will continue to expand into the 21st century as the need for trained practitioners exceeds the supply. During the last decade, fund raising education moved into the formal classroom and away from an apprenticeship tradition of senior practitioners mentoring newcomers. Yet until now there has not been a textbook to support this evolving professionalism. Faculty have been reluctant to define fund raising as an academic subject in the absence of a theory-based teaching resource, and courses usually have been assigned to part-time instructors hired from the practice. This textbook addresses the void. It is designed for graduate and upper-level undergraduate courses dealing with fund raising as a primary or secondary subject. Among its features, each chapter points out research gaps and opportunities such as problems and theories for master's theses and doctoral dissertations, and ends with a list of suggested readings. The text is appropriate for the diverse academic areas in which fund raising, nonprofit management, and philanthropy are taught, including public administration, management arts, and humanities, education, social work, economics, and sociology. Because of its public relations orientation, it is particularly suited for courses offered in that discipline. Additional audiences are practitioners enrolled in professional development programs, CEOs, trustees, and others interested in self-study, and scholars who need serious literature on the subject.

*Fundraising Basics* Barbara L. Ciconte, Jeanne G. Jacob, 2005. This primer helps new fund raisers learn the basics, from the vocabulary of fund raising to the nuances of major trends affecting nonprofit fundraising today. With up-to-date case studies and real-life examples, this practical guide will provide an overview of the field and give development staff, managers, and directors a platform from which to operate their fund raising programs. This guide is a must-have for anyone new to the fund raising arena.
