Lane,2012-06 While our plan had more holes in it than a sieve the bottom line for Niels and I ended up being this Following the original pioneer routes across America by wagon would be difficult given the number of highways cities and private properties that now occupy the once open range the trails traversed Finally given the winter and late spring weather in Minnesota we decided to start in the south and work our way north along the original trails traveling the opposite direction most pioneers would have taken The year was 1973 but as his undergraduate career came to a close Barry Lane s mind was stuck more than one hundred years in the past Following a canoe expedition from the Arctic Circle to the Gulf of Mexico Barry s thirst for adventure and an understanding of the paths of our ancestors reached a crescendo With the help of his friend Niels Henriksen he decided to embark on a cross country expedition from Mexico to Minnesota using the technology and trails of the American pioneers Walk in Their Dust charts the compelling story of Barry and Niels Henriksen during their hike from Mexico to Minnesota Along the way they would encounter the same challenges of the American wagon trains including dust storms intense thirst blizzard conditions flash floods and risk from both predators and man Yet along the way with the help of their animal escorts and the individuals along the trail they learned to face their own life journey with courage faith and a good dose of humor *Graphite* ,1914 *Pioneers of El Dorado* Charles Elmer Upton,1906
