Newell,2019-04-05 Dear Brother Jane Manning James wrote to Joseph F Smith in 1903 I take this opportunity of writing to ask you if I can get my endowments and also finish the work I have begun for my dead Your sister in the Gospel Jane E James A faithful Latter day Saint since her conversion sixty years earlier James had made this request several times before to no avail and this time she would be just as unsuccessful even though most Latter day Saints were allowed to participate in the endowment ritual in the temple as a matter of course James unlike most Mormons was black For that reason she was barred from performing the temple rituals that Latter day Saints believe are necessary to reach the highest degrees of glory after death A free black woman from Connecticut James positioned herself at the center of LDS history with uncanny precision After her conversion she traveled with her family and other converts from the region to Nauvoo Illinois where the LDS church was then based There she took a job as a servant in the home of Joseph Smith the founder and first prophet of the LDS church When Smith was killed in 1844 Jane found employment as a servant in Brigham

Young's home. These positions placed Jane in proximity to Mormonism's most powerful figures but did not protect her from the church's racially discriminatory policies. Nevertheless, she remained a faithful member until her death in 1908. *Your Sister in the Gospel* is the first scholarly biography of Jane Manning James or, for that matter, any black Mormon. Quincy D. Newell chronicles the life of this remarkable yet largely unknown figure and reveals why James's story changes our understanding of American history. *The Grizzly Bear*, 1929 **Confederate Veterans in Northern California** Jeff Erzin, 2020-06-09

Drawing on six years of research, this book covers the military service and postwar lives of notable Confederate veterans who moved into Northern California at the end of the Civil War. Biographies of 101 former rebels are provided, from the oldest brother of the Clanton Gang to the son of a President to plantation owners, dirt farmers, criminals, and everything in between.

Encyclopedia of American Biography Winfield Scott Downs, 1934 *Monthly Bulletin. New Series* St. Louis Public Library, 1925 *Uninvited Neighbors* Herbert G. Ruffin, 2014-03-28 In the late 1960s, African American protests and Black Power demonstrations in California's Santa Clara County, including what is now called Silicon Valley, took many observers by surprise. After all, as far back as the 1890s, the California constitution had legally abolished most forms of racial discrimination, and subsequent legal reform had surely taken care of the rest. White Americans might even have wondered where the black activists in the late sixties were coming from, because beginning with the writings of Fredrick Jackson Turner, the most influential histories of the American West simply left out African Americans or later portrayed them as a passive and insignificant presence. *Uninvited Neighbors* puts black people back into the picture and dispels cherished myths about California's racial history. Reaching from the Spanish era to the valley's emergence as a center of the high-tech industry, this is the first comprehensive history of the African American experience in the Santa Clara Valley. Author Herbert G. Ruffin II's study presents the black experience in a new way, with a focus on how, despite their smaller numbers and obscure presence, African Americans in the South Bay forged communities that had a regional and national impact disproportionate to their population. As the region industrialized and spawned suburbs during and after World War II, its black citizens built institutions such as churches, social clubs, and civil rights organizations and challenged socioeconomic restrictions. Ruffin explores the quest of the area's black people for the postwar American Dream. The book also addresses the scattering of the black community during the region's late yet rapid urban growth after 1950, which led to the creation of several distinct black suburban communities clustered in metropolitan San Jose. Ruffin treats people of color as agents of their own development and survival in a region that was always multiracial and where slavery and Jim Crow did not predominate but where the white embrace of racial justice and equality was often insincere. The result offers a new view of the intersection of African American history and the history of the American West. **Subject Catalog, 1977** Library of Congress, 1977 **Grizzly Bear**, 1921 **William Stimpson and the Golden Age of American Natural History** Ronald Scott Vasile, 2018-06-19

William Stimpson was at the forefront of the American natural history community in the latter half of the nineteenth century. Stimpson displayed an early affinity for the sea and natural history and after completing an apprenticeship with famed naturalist Louis Agassiz he became one of the first professionally trained naturalists in the United States. In 1852, twenty-year-old Stimpson was appointed naturalist of the United States North Pacific Exploring Expedition where he collected and classified hundreds of marine animals. Upon his return, he joined renowned naturalist Spencer F. Baird at the Smithsonian Institution to create its department of invertebrate zoology. He also founded and led the irreverent and fun-loving Megatherium Club which included many notable naturalists. In 1865, Stimpson focused on turning the Chicago Academy of Sciences into one of the largest and most important museums in the country. Tragically, the museum was destroyed in the Great Chicago Fire of 1871, and Stimpson died of tuberculosis soon after before he could restore his scientific legacy. This first ever biography of William Stimpson situates his work in the context of his time. As one of few to collaborate with both Agassiz and Baird, Stimpson's life provides insight into the men who shaped a generation of naturalists, the last before intense specialization caused naturalists to give way to biologists. Historians of science and general readers interested in biographies of science and history will enjoy this compelling biography.
