**Reclaiming Space** James S. J. Schwartz, Linda Billings, Erika Nesvold, 2023 Reclaiming Space is an innovative study of space travel s history legitimacy and future The NewSpace movement that presently dominates spaceflight culture is characterized by distinctly Western free market capitalist values and associated with the space ambitions of the super wealthy This book exists to incubate illuminate and illustrate a more diverse and inclusive conversation about space exploration Reclaiming Space asks What would space exploration be like if we prioritized or even simply acknowledged the perspectives and value systems of individuals who are disabled aren t white aren t male or aren t characteristically Western in their values What can these perspectives teach us all about space exploration and its value or even its potential for harm that cannot be easily recognized or appreciated under the

NewSpace status quo And what should we be doing differently when it comes to space exploration The twenty seven original essays in this volume provide much needed perspective on space exploration by offering counterpoints to mainstream thinking about space Essays address subjects such as the history and development of spaceflight culture both within and outside the United States the impact of science fiction and space art on how we conceptualize space diverse cultural narratives and responses to space and the ways space exploration might be leveraged in support of repairing injustices Reclaiming Space also considers what our responsibilities might be as a spacefaring species in the distant future Contributors include academics who research space exploration spaceflight culture space ethics and space policy as well as space artists and authors of award winning science and speculative fiction Written for space enthusiasts of all backgrounds Reclaiming Space is an engaging provocative volume of essays showcasing the perspectives of women persons of color and others who are typically left out of discussions of space exploration

*Space Resources: Social concerns*, 1992 *Space and Defense Policy* Damon Coletta, Frances T. Pilch, 2009-10-16 This edited volume introduces the reader to the role of space in military and defense strategy and outlines some of the major foreign and domestic actors in the space arena as well as constraints of law and treaties on activities in space It also addresses science and technology as they relate to space policy The book addresses three main questions How does the realm of space fit into strategic thinking about national security How does policy regarding space develop and what considerations both in the United States and abroad figure prominently in calculations about space policy How do different states nations actors regard the role of space in their national security calculations and how do these policies impact each other This book fills a niche in the space policy field providing insights into space and strategy from international experts from the military academic and scientific communities A unique feature of the book is the chapter on science and technology which utilizes the latest information available concerning space utilization and exploration
