The Big Three. Volume 2. The Small Independents. Volume 3. The Financial Wizards. Volume 4. The Design Innovators Michael J. Kollins, 2002 The Dodge Brothers Charles K. Hyde, 2005-04-08 Biography of John and Horace Dodge and the history of their company At the start of the Ford Motor Company in 1903 the Dodge Brothers supplied nearly every car part needed by the up and coming auto giant After fifteen years of operating a successful automotive supplier company John and Horace Dodge again changed the face of the automotive market in 1914 by introducing their own car The Dodge Brothers automobile carried on their names even after their untimely deaths in 1920 which led to its sale in 1925 to New York bankers and subsequent purchase in 1928 by Walter Chrysler Hyde not only details the brothers lives and influence on automotive manufacturing and marketing trends in the early part of the twentieth century but also their civic contributions to Detroit their hiring of African Americans and women and their often anonymous

charitable contributions to local organizations Despite their achievements and their critical role in the early success of Henry Ford John and Horace Dodge are usually overlooked in histories of the early automotive industry but Hyde has put them front and center again to appropriately credit their lasting legacy *Financing Innovation in the United States, 1870 to the Present* Naomi R. Lamoreaux, Kenneth Lee Sokoloff, 2007 Leading economists and economic historians offer case studies and theoretical perspectives that fill a longstanding gap in the existing literature on technology driven industrial development discussing the interaction of finance and technological innovation in the American economy since the Second Industrial Revolution Although technological change is vital for economic growth the interaction of finance and technological innovation is rarely studied This pioneering volume examines the ways in which innovation is funded in the United States In case studies and theoretical discussions leading economists and economic historians analyze how inventors and technologically creative entrepreneurs have raised funds for their projects at different stages of U S economic development beginning with the post Civil War period of the Second Industrial Revolution Their discussions point to intriguing insights about how the nature of the technology may influence its financing and conversely how the availability of funds influences technological advances These studies show that over the long history of American technological advancement inventors and innovators have shown considerable flexibility in finding ways to finance their work They have moved to cities to find groups of local investors they have worked for large firms that could tap the securities market for funds they have looked to the federal government for research and development funding and they have been financed by the venture capital industry The studies make it clear that methods of funding innovation whether it is in the auto industry or information technology have important implications for both the direction of technological change and the competitive dynamism of the economy
