Multisensor Fusion Estimation Theory and Application Liping Yan, Lu Jiang, Yuanqing Xia, 2020-11-11 This book focuses on the basic theory and methods of multisensor data fusion, state estimation and its application. It consists of four parts with 12 chapters. In Part I the basic framework and methods of multisensor optimal estimation and the basic concepts of Kalman filtering are briefly and systematically introduced. In Part II the data fusion state estimation algorithms under networked environment are introduced. Part III consists of three chapters in which the fusion estimation algorithms under event triggered mechanisms are introduced. Part IV consists of two chapters in which fusion estimation for systems with non-Gaussian but heavy-tailed noises are introduced. The book is primarily intended for researchers and engineers in the field of data fusion and state estimation. It also benefits for both graduate and undergraduate students who are interested in target tracking, navigation, networked control, etc.

Biomechanics: Trends in Modeling and Simulation Gerhard A. Holzapfel, Ray W. Ogden, 2016-09-14 The book presents a state-of-the-art overview of biomechanical and mechanobiological modeling and simulation of soft biological tissues. Seven well-known scientists working in that particular field discuss topics such as biomolecules, networks and cells as well as failure, multi-scale, agent-based, bio-chemo-mechanical and finite element models appropriate for computational analysis. Applications include arteries, the heart, vascular stents and valve implants as well as adipose, brain, collagenous and engineered tissues. The mechanics of the whole cell and sub-cellular components as well as the extracellular matrix structure

and mechanotransduction are described In particular the formation and remodeling of stress fibers cytoskeletal contractility cell adhesion and the mechanical regulation of fibroblast migration in healing myocardial infarcts are discussed The essential ingredients of continuum mechanics are provided Constitutive models of fiber reinforced materials with an emphasis on arterial walls and the myocardium are discussed and the important influence of residual stresses on material response emphasized The mechanics and function of the heart the brain and adipose tissues are discussed as well Particular attention is focused on microstructural and multi scale modeling finite element implementation and simulation of cells and tissues

Portfolio Analytics Wolfgang Marty,2015-10-08 This textbook first introduces the reader to return measurement and then goes on to compare the time weighted rate of return TWR with the money weighted rate of return MWR To emphasize the importance of risk in conjunction with return different tracking errors are analyzed and ex post versus ex ante risk figures are compared The author then proceeds to modern portfolio theory MPT and illustrates how the constraints interfere substantially in the construction of optimized portfolios As a conclusion the book provides the reader with all the essential aspects of investment controlling

The Last Guardian (Volume 8) Eoin Colfer,2012-07-10 Seemingly nothing in this world daunts the young criminal mastermind Artemis Fowl In the fairy world however there is a small thing that has gotten under his skin on more than one occasion Opal Koboi In The Last Guardian the evil pixie is wreaking havoc yet again This time his arch rival has reanimated dead fairy warriors who were buried in the grounds of Fowl Manor Their spirits have possessed Artemis s little brothers making his siblings even more annoying than usual The warriors don t seem to realize that the battle they were fighting when they died is long over Artemis has until sunrise to get the spirits to vacate his brothers and go back into the earth where they belong Can he count on a certain LEPrecon fairy to join him in what could well be his last stand New York Times best selling author and comic genius Eoin Colfer will leave Artemis Fowl fans gasping up to the very end of this thrilling finale to the blockbuster series

Proceedings of the 1st UPY International Conference on Education and Social Science (UPINCESS 2022) Ari Kusuma Wardana,2023-02-10 This is an open access book It has been two years since the COVID 19 pandemic swept across the world This has more or less left a mark of memories and trauma for more or fewer people This pandemic reminds people around the world that there are things that can happen without people knowing it People start to worry and pessimistically see the uncertainty that lies in the future To deal with this a strategy is needed through educational innovation and social science to answer and face the challenges of uncertainty in the future Breakthroughs in education and social science are the most strategic ways to build and enhance human capacity to solve problems environmental and social problems The spirit of innovation rising from an economic downturn the use of technology is obtained through the role of educational institutions This can be interpreted that innovation in education and social science produces superior humans who have good behavior and wise humans So that in the face of uncertainty in the post pandemic period humans have strategies and become more prepared To find out more about strategies for dealing with and

responding to future uncertainties after the pandemic through educational innovations and social science it is necessary to conduct research or studies that discuss these matters and be published widely To support this Universitas PGRI Yogyakarta held an international conference and Call for Papers The 1st UPY International Conference on Education and Social Science UPINCESS Strategies to Deal with Uncertainty through Education and Social Science Innovation on June 15 2022

Artemis Fowl 7: The Atlantis Complex Eoin Colfer, 2010-08-03 Artemis has committed his entire fortune to a project he believes will save the planet and its inhabitants both human and fairy Can it be true Has goodness taken hold of the world's greatest teenage criminal mastermind Captain Holly Short is unconvinced and discovers that Artemis is suffering from Atlantis Complex a psychosis common among guilt-ridden fairies not humans and most likely triggered by Artemis's dabbling with fairy magic Symptoms include obsessive compulsive behavior paranoia multiple personality disorder and in extreme cases embarrassing professions of love to a certain feisty Leprechaun fairy

Contrast in Phonology Peter Avery, B. Elan Dresher, Keren Rice, 2008-11-03 This book takes contrast as an issue that has been central to phonological theory since Saussure as its central theme making explicit its importance to phonological theory perception and acquisition The volume brings together a number of different contemporary approaches to the theory of contrast including chapters set within more abstract representation-based theories as well as chapters that focus on functional phonetic theories and perceptual constraints This book will be of interest to phonologists phoneticians psycholinguists researchers in first and second language acquisition and cognitive scientists interested in current thinking on this exciting topic
