their lives have been encroached upon by the creeping spread of subdivisions funded by the once easy money of subprime America McMansions many empty now gradually replaced Joshua trees the desert America s escape hatch began to vanish as it became home to a latter day exodus of pilgrims It is against the backdrop of these two competing visions of land and space that Donald Kueck a desert hermit who loved animals and hated civilization took his last stand gunning down beloved deputy sheriff Steven Sorensen when he approached his trailer at high noon on a scorching summer day As the sound of rifle fire echoed across the Mojave Kueck took off into the desert he knew so well kicking off the biggest manhunt in modern California history until he was finally killed in a Wagnerian firestorm under a full moon as nuns at a nearby convent watched and prayed This manhunt was the subject of a widely praised article by Deanne Stillman first published in Rolling Stone a finalist for a PEN Center USA journalism award and included in the anthology Best American Crime Writing 2006 In Desert Reckoning she continues her desert beat and uses Kueck s story as a point of departure to further explore our relationship to place and the wars that are playing out on our homeland In addition Stillman also delves into the hidden history of Los Angeles County and traces the paths of two men on a collision course that could only end in the modern Wild West Why did a brilliant self taught rocket scientist who just wanted to be left alone go off the rails when a cop showed up What role did the California prison system play in this drama What happens to people when the American dream is stripped away And what is it like for the men who are sworn to protect and serve

On Recruitment Mitch Sullivan, 2017-12-07 This book will be appreciated by people who don't ever need to be involved in the hiring of a new staff member. Everybody has to work in recruitment at some point in their life, even if it's only to find a job. Mitch Sullivan has experienced recruitment from a number of different perspectives, not least those of a hiring manager and a job seeker. He's spent nearly 30 years in the industry, in agencies, in large corporates, and as a recruitment copywriter. His blogging style has been described as three words and the truth, partly because each blog generally takes less than a couple of minutes to read, and partly because of the unapologetic sarcasm or wit. If you're feeling generous, he uses to deliver this honesty. This book is a collection of some of the 160 blogs he's written on recruitment, covering areas of the industry as diverse as agency culture, retained recruitment, assessment, employer branding, job advertising, the candidate experience, and even employee engagement.
