The Aphrodisia William Percy, 2023-05-02 A rare marinal about disguised identities and loves among the Greco Roman deities under the Mediterranean Sea Percy described Aphrodisia as an experiment in a new genre he was inventing the marinal designed to contrast the pastoral set on land in the countryside Beyond this setting this comedy focuses on taking to an extreme the popular European trope of disguises by having most of the main characters reveal themselves to have an identity other than the one they present themselves as Arion relates a sad story that is an original translation of a segment out of Bartas Weeks about him being a poor singer who was captured by pirates but in the conclusion Arion reveals himself to actually be Jupiter the King of the gods in Roman mythology And Talus pretends to be an engineer and Vulcan s god of fire son when he is really Neptune god of water In standard published plots from the Renaissance these revelations prove to have been necessary to further the goals of the characters but in this censored story the disguises cause lifetimes of misery and prevent all who are disguised from achieving their romantic and power goals Percy has designed a plot that subversively shows how common pseudonyms and fraudulent identities are in British society as it confesses the Workshop s role in selling ghostwriting services On the surface the story is dense with innovative love entanglements and the mythological misadventures of complex and stumbling characters The preparations for Empress Cytherea s arrival and the Aphrodisia feast in her honor also showcases realistic details about what a day might have been like when the aristocratic Percy family prepared for James I s visit to their Sion House on June 8 1603 just before James was crowned Fascinating study of disguise identity self fashioning metamorphosis and authorship LibraryThing Early Reviewers

Finding the Way Home Nora Räthzel, 2007-12-12 These two parallel studies in Hamburg and London aim to provide an insight into the different ways in which young people with and without a migrant background live their everyday lives together. The book demonstrates how friendships, tensions and sometimes adversities are negotiated. It shows how young people construct landscapes of risk and safety and how relations of ethnicity, class and gender are lived differently in different socio-spatial contexts. In some situations young people develop enjoyable ways of living with differences in others they live with tensions and conflicts. These may be experienced through notions of ethnicity but sometimes through feelings of belonging to places and/or specific youth cultures which transcend ethnic differences more often than class differences.

Towards a Visual Culture is a remarkably relevant read for today s teachers and programmers Although the technology has evolved humans remain visual learners and television remains a visual medium In this book Gattegno provides a framework for developing effective and efficient educational programs in an optimistic forward thinking manner He foresees technology able to transmit all knowledge into all homes through satellites and computers and urges educators and programmers to take advantage of the immense opportunities therein The media are truly interchangeable our eyes our ability to perceive and our awareness will always be the greatest educational tools **Horns and Hair of the High Country** Lloyd

Antypowich,2013-10 Horns and Hair of the High Country is a fictionalized presentation of the author s extensive understanding of elk grizzly bear mountain goat sheep and the caribou written from the animal s point of view He inserts informative information about nature into each story and at the end he shares with the reader some real life experiences from the human point of view For Lloyd Antypowich going into the mountains for three weeks at a time was far more than a hunting trip It was like going back to school where he could learn the language of the animals of the wild and the untamed country where he could get in tune with Mother Nature That is why he preferred to use horses The quietness in which he traveled allowed him to hear and see animals that he would otherwise have missed When one enters into the domain of the wild the first thing one must learn is to read the signs it is like reading a book It tells you what the animals have been doing Learning that gives one a better understanding of the animals No they don t greet you in the morning and ask you if you had your breakfast yet but they give you a sign and if you can understand it you will know what they are telling you Remember they too have a brain and everything that they see smell or hear puts that body in motion If you wear aftershave and scented soap they will smell you long before you will have seen them In time one can gain their trust and learn a whole lot more about them and that to me is a whole lot more rewarding than overpowering them with a high powered scope The
