**No Place to Call Home**, 1989 Abstract This publication reports the conclusions of a series of hearings concerning support and services for children in troubled families. The Congress has made a commitment to guarantee support in the form of out of home placement when necessary and reunification with their families when possible. This report sought to answer several questions including: are there fewer unnecessary placements of children out of their homes than previously occurred? When children must be placed, are there more effective permanent placements than there were ten years ago? Are children receiving quality services when they are entrusted to the child welfare system? Several failings of the system are revealed while some promising policies, innovative strategies, and effective programs were found.

*Randolph County* L. McKay Whatley, 2010 The geographic heart of North Carolina, Randolph County has been at the crossroads of history since the 17th century when explorers first arrived along the Great Indian Trading Path. Every variety of religion, creed, and color could be found in the county from its creation in 1779 with combinations that often proved volatile. From the Uwharrie Mountains in the west to the Deep River Valley on the east, Randolph County has been home to powerful opposing forces. It is a county where potters are more common than doctors. It is home to five of North Carolina's first textile mills, yet it remains one of the state's leading agricultural producers. Its residents refused to secede from the Union but sent six companies into Confederate service. Although settled by pacifist Quakers, bitter guerrilla warfare pitted neighbor against neighbor in both the American Revolution and the Civil War. A dry county that permits no sales of alcoholic beverages, it fostered the racing spirit of NASCAR by running moonshine along its back roads. It is a county with a history, politics, and people of vision, depth, and complexity.

*A Long Journey Home* Luis Eduardo Pérez Murcia, 2025-09-01 Advancing contemporary scholarly debates on the role of home in understanding displacement and emplacement, *A Long Journey Home* explores powerful personal narratives from Colombia. It highlights the profound feelings of loss and the enduring struggle of living without a home, an experience that can last for years or even decades. Through these stories, the book reveals how internally displaced people use creativity and imagination to remake their home while on the move.
