Stories of Culture and Place Michael G. Kenny, Kirsten Smillie, 2017-11-06 Stories of Culture and Place makes use of one of anthropology s most enduring elements storytelling to introduce students to the excitement of the discipline The authors invite students to think of anthropology as a series of stories that emerge from cultural encounters in particular times and places References to classic and contemporary ethnographic examples from Coming of Age in Samoa to Coming of Age in

Second Life allow students to grasp anthropology s sometimes problematic past while still capturing the potential of the discipline This new edition has been significantly reorganized and includes two new chapters one on health and one on economic change as well as fresh ethnographic examples. The result is a more streamlined introductory text that offers thorough coverage but is still manageable to teach Planning and Place in the City Marichela Sepe, 2013-03-05 Under the influence of globalization the centres of many cities in the industrialised world are losing their place identity the set of cultural markers that define a city s uniqueness and make it instantly recognisable A key task for planners and residents working together is to preserve that unique sense of place without making the city a parody of itself In Planning and Place in the City Marichela Sepe explores the preservation reconstruction and enhancement of cultural heritage and place identity She outlines the history of the concept of placemaking and sets out the range of different methods of analysis and assessment that are used to help pin down the nature of place identity This book also uses the author's own survey based method called PlaceMaker to detect elements that do not feature in traditional mapping and identifies appropriate planning interventions Case studies investigate cities in Europe North America and Asia which demonstrate how surveys and interviews can be used to draw up an analytical map of place identity. This investigative work is a crucial step in identifying cultural elements which will influence what planning decisions should be taken in the future The maps aim to establish a dialogue with local residents and support planners and administrators in making sustainable changes The case studies are amply illustrated with survey data sheets photos and coloured maps Innovative and broad based Planning and Place in the City lays out an approach to the identification and preservation of place and cultural heritage suitable for students academics and professionals alike

how a shared regional aesthetic emerges from the descriptions of music dance and oral storytelling events Because the historical circumstances that led to the development of performance traditions supersede the geopolitical and linguistic divisions of colonialism the literary uses of these traditions resonate across the linguistic boundaries of the region The author thus identifies the aesthetic that emerges from the act of writing about live arts and moving bodies as a practice that is grounded in the historically geographically and culturally specific features of the Caribbean itself Working with twentieth and twenty first century sources ranging from theatrical works and novels to blogs Murray Rom n examines the ways in which writers such as Jacques Stephen Alexis Zo Vald s Rosario Ferr Patrick Chamoiseau and Marlon James experiment with textually compensating for the loss of the corporeality of live relationship in performance traditions Through their exploration of the interaction of literature and performance she argues Caribbean writers themselves offer a mode of bridging the disjunction between cultural and philosophical approaches within Caribbean studies
