*A Tale of Two Passes* William Lowell Putnam, 2008-08-01 William Putnam's book chronicles the history of two important routes through the Alps which are devoted to treasuring the history of Mont Cenis and the Great Saint Bernard passages. Both of these passes were prominently and frequently used by the Romans in establishing and maintaining their empire. It is surmised that Hannibal and his troops found elephant-friendly passages through the Mont Cenis corridor. Both passes were adorned with hospices/shelters near their crest and both now have been bypassed by modern tunnels. Despite these similarities, their historic prominence derives from distinctly different events and factors. There is no passage of the Alps that affords to the traveler greater pleasure either in the enjoyment or the recollection of his journey to Italy than that by the Great Saint Bernard. Beside the wildness of this alpine pass and the beauty of the valley of Aosta through which the road down to Turin continues after it leaves the mountains, the kind reception that he experiences from the religious community at the hospice on the summit of the Saint Bernard is remembered as long as he can be grateful for the devotion that induces these excellent men to offer the traveler their welcome and spread for him their hospitality in the wilderness. Herein lies the histories of these passes and stories of many travelers among the Alps told as much as possible in their own words.

**The Mountaineer's Pontiff** William Lowell Putnam, 2006-08-11 *The Mountaineer's Pontiff* by William Lowell Putnam

Joe Dodge William Lowell Putnam, 1986-01-01 Fred Stott says in his preface to this book that if you ever hiked or skied a White Mountain trail between 1922 and 1959 you may well have met Joe Dodge. Certainly you know his name. If you have been on a trail since 1959 the chances are good you have heard of him very possibly a tale about him. Without question the best known inhabitant of the White Mountains in this century was Joseph Brooks Dodge, Huts Manager of the Appalachian Mountain Club, Pinkham Notch, New Hampshire. He became a legend during his lifetime. The legend has grown in the years since his death. Here is the first book to tell about that legend thanks to Bill Putnam's long and intimate friendship with Joe Dodge and his numerous anecdotes which make this remarkable man come to life. Joe himself tells much of the story in his colorful and often blunt speech. Joe Dodge managed the far-flung AMC Hut System running from Lonesome Lake to Evans Notch, each hut providing food, shelter and sleeping quarters for hikers. In addition, he founded the Mount Washington Observatory because he was interested in weather and realized the importance of establishing a permanent year-round outpost on the highest peak in northeast North America. He was also a public servant of the community where he lived. Joe Dodge was a builder too of huts located miles from the nearest habitations or highways. Just as important, he was a builder of public awareness that these huts and all outdoors belonged to and must be open to the public. He was also an educator who shared with all his wisdom, his knowledge and his zest for learning. Everyone who loves mountains and relishes a skillfully written portrait of a unique personality who understood both the outdoors and the people who enjoy it will want to read and own this book.

*K2 and the 1939 Tragedy* William Lowell Putnam, Andrew J. Kauffman, 1993-09-01 The story of the 1939 American K2 expedition is well known among

mountaineers world class German born climber Fritz Wiessner and Pasang Dawa Lama came within 800 feet of attaining the world's second highest unclimbed summit before turning back for more supplies. Rejoining them on the descent was Dudley Wolfe who had stayed not far below. Upon reaching the lower camps the party found them stripped of supplies and deserted. Wiessner decided to descend further to investigate and left Wolfe behind alone. Later unable to descend solo, Wolfe had to be rescued but the attempt failed and Wolfe and Sherpas Pasang Kikuli, Pasang Kitar, and Phinsoo died. Initially Wiessner was held responsible but in time the blame shifted to climber Jack Durrance and another Sherpa. The disaster was considered one of the worst accidents in the climbing history of the Himalaya. It was also the subject of much speculation for years afterward. For some historians the speculation would not rest. There were too many missing pieces, inconsistencies, and unanswered questions for a disaster of this scale. Unfortunately, reliable documentation was scarce. So was the cooperation of the remaining expedition members who did not want to rekindle the controversy that arose from the expedition's failure. They echoed the neutral statement issued by the investigating committee of the American Alpine Club in 1940 which said in effect, let sleeping dogs lie. When Andrew J. Kauffman and William L. Putnam later began work on Wiessner's biography, they found discrepancies in the account of the K2 incident. Intrigued, they dug deeper and began to uncover a larger tangle of events than had been previously suspected. The recent availability of Jack Durrance's own trip diary further enabled them to unravel the events of the ill-fated adventure on K2.

K2 The 1939 Tragedy retraces the expedition's key elements: the debilitating weather, the personalities and weaknesses of party members, Wiessner's romantic vision, uncharacteristic of the climbing era, and reveals the steps that led toward catastrophe.

K2 The 1939 Tragedy attempts to balance the accounts of this fifty-year-old saga.

Torquemada Revisited William Lowell Putnam, 2006-06-13. This book traces the origin of the forces and personalities that brought about the Spanish Inquisition and its impact on the larger world. It dwells extensively on the causes and principal figures of the Protestant Reformation and explains how those attitudes came to influence the evolution of modern American politics and bigotry. A careful reading of this narrative explains how political and religious leaders, often being somewhat interchangeable, have been able to devise enemies that can be used to convince sufficient of the populace to elect or retain in high office those who portray themselves as opposed to such enemies, ignoring in so doing the sage advice of Benjamin Franklin that those who would sacrifice essential liberties for a little temporary security deserve neither liberty nor security.
