Spanish Poetry of the Grupo Poético de 1927 Geoffrey Connell, 2014-05-17 Spanish Poetry of the Grupo Poético de 1927 is an anthology of poems by members of Grupo Poético de 1927 an association of poets who sought to detach poetry from non poetic elements such as narrative anecdote political or social preoccupations or didacticism Seven poets are represented Pedro Salinas Jorge Guillén Gerardo Diego Federico García Lorca Vicente Aleixandre Rafael Alberti and Luis Cernuda This text consists of eight chapters and begins with an introduction to changing trends in poetry in Spain between 1918 and the present Biographical notes are included to show the effect or lack of effect of these movements on the individual poets Movements such as ultraísmo and maestría are discussed along with the tercentenary of the death of Spanish poet Luis de Góngora the crisis suffered by the Grupo and late developments in the poets of the Grupo The chapters that follow focus on the works of the Grupo poets This book is written specifically for sixth formers and undergraduates as well as anyone with an interest in Spanish poetry

*Juan Goytisolo* Alison Ribeiro de Menezes, 2005 This book assesses Goytisolo's contribution to cultural debates in Spain since the sixties and revises the prevailing critical interpretation of his fiction arguing that his works represent an ethical engagement with postmodernist theory rather than an illustration of it This monograph offers two new perspectives on Spanish writer Juan Goytisolo First under the themes of authorship and dissidence it integrates his writing across several genres providing a rounded assessment of his contribution to cultural debates in Spain since the sixties and arguing that resistance to repressive discourses characterizes his essays and autobiographies as much as his fiction Second it revises the prevailing critical interpretation of Goytisolo's fiction by building on four premises that his novels are less clearly oppositional than prevailing interpretations imply that in order to engage with discourses of identity he employs an idiom which contrary to his own statements is not a poststructuralist autonomous world of words that a textual practice grounded in the recognizable experience of post Civil War Spain rather than one which seeks out the realm of pure textuality is essential to Goytisolo's subversive political intentions and that the autobiographical element of much of his work constitutes a more complex narrative aesthetic than has been appreciated The book argues that if Goytisolo's work is interpreted as an ethical engagement with postmodernist theory rather than as an illustration of it then certain contradictions for which he has been criticized are seen in a new and valuable light ALISON RIBEIRO DE MENEZES is a Senior Lecturer in Spanish at University College Dublin
