Places Of Origin The Repopulation Of Rural El Salvador:

Places of Origin Beatrice E. Edwards, Gretta Tovar Siebentritt, 1991-01 In Central America as in other regions where protracted wars have caused large scale forced migration the issues of repatriation and repopulation are of growing interest and concern Places of Origin provides an account of the collective return of refugees and displaced persons despite a continuing civil war to the villagers they once fled in rural El Salvador This increasingly significant popular movement represents a complex development in the history of the region's conflicts

Militarization and Demilitarization in El Salvador's Transition to Democracy Philip J. Williams, Knut Walter, 1997-12-15 With the resignation of General Renee Emilio Ponce in March 1993 the Salvadorian army's sixty year domination of El Salvador came to an end The country's January 1992 peace accords stripped the military of the power it once enjoyed placing many areas under civilian rule Establishing civilian control during the transition to democracy was no easy task especially for a country that had never experienced even a brief period of democracy in its history In *Militarization and Demilitarization in El Salvador's Transition to Democracy* Phillip J Williams and Knut Walter argue that prolonged military rule produced powerful obstacles that limited the possibilities for demilitarization in the wake of the peace accords The failure of the accords to address several key aspects of the military's political power had important implications for the democratic transition and for future civil military relations Drawing on an impressive array of primary source materials and interviews this book will be valuable to students scholars and policy makers concerned with civil military relations democratic transitions and the peace process in Central America

Landscapes Of Struggle Aldo A. Lauria, 2017-03-13 During the 1980s El Salvador's violent civil war captured the world's attention In the years since the country has undergone dramatic changes *Landscapes of Struggle* offers a broad interdisciplinary assessment of El Salvador from the late nineteenth century to the present focusing on the ways local politics have shaped the development of the nation Proceeding chronologically these essays by historians political scientists sociologists and anthropologists explore the political social and cultural dynamics governing the Salvadoran experience including the crucial roles of land the military and ethnicity the effects of the civil war and recent transformations such as the growth of a large Salvadoran diaspora in the United States Taken together they provide a fully realized portrait of El Salvador's troublesome past transformative present and uncertain future

Seeds of the Kingdom Anna L. Peterson, 2005-11-17 In these skeptical and disillusioned times there are still groups of people scattered throughout the world who are trying to live out utopian dreams These communities challenge the inevitability and morality of dominant political and economic models By putting utopian religious ethics into practice they attest to the real possibility of social alternatives In *Seeds of the Kingdom* Anna L. Peterson reflects on the experiences of two very different communities one inhabited by impoverished former refugees in the

mountains of El Salvador and the other by Amish farmers in the Midwestern U S What makes these groups stand out among advocates of environmental protection political justice and sustainable development is their religious orientation They aim without apology to embody the reign of God on earth The Salvadoran community is grounded in Roman Catholic social thought while the Amish adhere to Anabaptist tradition Peterson offers a detailed portrait of these communities history social organization religious life environmental values and agricultural practices She discovers both practical and ideological commonalities in these two comparatively successful and sustainable communities including a strong collective identity deep attachment to local landscapes a desire to preserve non human as well as human lives and perhaps unexpectedly a utopian horizon that provides both goals and the hope of reaching them By examining the process by which people struggle to live according to a transcendent value system she sheds light on both the actual and the potential place of religion in public life Peterson argues that the Amish and Salvadoran communities geographically and culturally removed from the industrialized West have relevance for the political and environmental problems of the developed world These communities have succeeded in the face of significant internal and external challenges offering important practical and theoretical lessons on how to achieve ecological sustainability and social justice in the wider world Our Own Backyard William M.

LeoGrande, 2009-11-18 In this remarkable and engaging book William LeoGrande offers the first comprehensive history of U S foreign policy toward Central America in the waning years of the Cold War From the overthrow of the Somoza dynasty in Nicaragua and the outbreak of El Salvador's civil war in the late 1970s to the final regional peace settlements negotiated a decade later he chronicles the dramatic struggles in Washington and Central America that shaped the region's destiny For good or ill LeoGrande argues Central America's fate hinged on decisions that were subject to intense struggles among and within Congress the CIA the Pentagon the State Department and the White House decisions over which Central Americans themselves had little influence Like the domestic turmoil unleashed by Vietnam he says the struggle over Central America was so divisive that it damaged the fabric of democratic politics at home It inflamed the tug of war between Congress and the executive branch over control of foreign policy and ultimately led to the Iran contra affair the nation's most serious political crisis since Watergate **Hunger 1992**, 1991 Bread for the World Institute on Hunger Development The report co sponsored by other anti hunger groups illustrates through ten case studies of specific projects programs ideas that work to alleviate U S world hunger or that have shown enough promise to justify further pursuit Each essay examines the pitfalls involved whether success can be duplicated elsewhere Topics include the green revolution sustainable participatory development U S domestic food programs international food aid reforming economies without hurting poor people demilitarization citizen advocacy The report updates information presented in the previous volume Hunger 1990 on hunger in North South America Africa Asia the Middle East features statistical tables bibliography glossary topical index A new section examines the Soviet Union Eastern Europe Contributors include John Mellor Patricia Kutzner Don Reeves Remy

Human Rights and Transnational Solidarity in Cold War Latin America Jessica Stites Mor, 2013-03-29 With the end of the global Cold War the struggle for human rights has emerged as one of the most controversial forces of change in Latin America Many observers seek the foundations of that movement in notions of rights and models of democratic institutions that originated in the global North Challenging that view this volume argues that Latin American community organizers intellectuals novelists priests students artists urban pobladores refugees migrants and common people have contributed significantly to new visions of political community and participatory democracy These local actors built an alternative transnational solidarity from below with significant participation of the socially excluded and activists in the global South Edited by Jessica Stites Mor this book offers fine grained case studies that show how Latin America s re-emerging Left transformed the struggles against dictatorship and repression of the Cold War into the language of anti colonialism socioeconomic rights and identity

After Insurgency Ralph Sprenkels, 2018-04-30 El Salvador s 2009 presidential elections marked a historical feat Frente Farabundo Mart para la Liberaci n Nacional FMLN became the first former Latin American guerrilla movement to win the ballot after failing to take power by means of armed struggle In 2014 former comandante Salvador S nchez Cer n became the country s second FMLN president After Insurgency focuses on the development of El Salvador s FMLN from armed insurgency to a competitive political party At the end of the war in 1992 the historical ties between insurgent veterans enabled the FMLN to reconvert into a relatively effective electoral machine However these same ties also fueled factional dispute and clientelism Drawing on in depth ethnographic fieldwork Ralph Sprenkels examines El Salvador s revolutionary movement as a social field developing an innovative theoretical and methodological approach to the study of insurgent movements in general and their aftermath in particular while weaving in the personal stories of former revolutionaries with a larger historical study of

the civil war and of the transformation process of wartime forces into postwar political contenders This allows Sprenkels to shed new light on insurgency's persistent legacies both for those involved as well as for Salvadoran politics at large In documenting the shift from armed struggle to electoral politics the book adds to ongoing debates about contemporary Latin America politics the pink tide and post neoliberal electoralism It also charts new avenues in the study of insurgency and its aftermath

The Image before the Weapon Helen M. Kinsella, 2011-05-02 Since at least the Middle Ages the laws of war have distinguished between combatants and civilians under an injunction now formally known as the principle of distinction The principle of distinction is invoked in contemporary conflicts as if there were an unmistakable and sure distinction to be made between combatant and civilian As is so brutally evident in armed conflicts it is precisely the distinction between civilian and combatant upon which the protection of civilians is founded cannot be taken as self evident or stable Helen M Kinsella documents that the history of international humanitarian law itself admits the difficulty of such a distinction In *The Image before the Weapon* Kinsella explores the evolution of the concept of the civilian and how it has been applied in warfare A series of discourses including gender innocence and civilization have shaped the legal military and historical understandings of the civilian and she documents how these discourses converge at particular junctures to demarcate the difference between civilian and combatant Engaging with works on the law of war from the earliest thinkers in the Western tradition including St Thomas Aquinas and Christine de Pisan to contemporary figures such as James Turner Johnson and Michael Walzer Kinsella identifies the foundational ambiguities and inconsistencies in the principle of distinction as well as the significant role played by Christian concepts of mercy and charity She then turns to the definition and treatment of civilians in specific armed conflicts the American Civil War and the U S Indian wars of the nineteenth century and the civil wars of Guatemala and El Salvador in the 1980s Finally she analyzes the two modern treaties most influential for the principle of distinction the 1949 IV Geneva Convention Relative to the Protection of Civilian Persons in Times of War and the 1977 Protocols Additional to the 1949 Conventions which for the first time formally defined the civilian within international law She shows how the experiences of the two world wars but particularly World War II and the Algerian war of independence affected these subsequent codifications of the laws of war As recognition grows that compliance with the principle of distinction to limit violence against civilians depends on a firmer grasp of its legal political and historical evolution *The Image before the Weapon* is a timely intervention in debates about how best to protect civilian populations

Martyrdom and the Politics of Religion Anna L. Peterson, 1997-01-01 *Martyrdom and the Politics of Religion* explores the ways that Salvadoran Catholics sought to make sense of political violence in their country in the 1970s and 1980s by constructing a theological ethics that could both explain repression in religious terms and propose specific responses to violence Drawing on extensive fieldwork the book highlights the ways that progressive Catholicism offered a justification and tools for political resistance in the face of extraordinary destruction Using the case of Catholicism in El Salvador the book

explores the nature of religious responses to social crisis and the ways that ordinary believers construct and strive to live by ethical systems By highlighting the importance of theological belief of narrative and of religious rationality in political mobilization it touches questions of general interest to readers concerned with the social role of religion and ethics
