Animals and Ourselves Kathy Merlock Jackson, Kathy Shepherd Stolley, Lisa Lyon Payne, 2020-10-13 The relationship between humans and animals has always been strong symbiotic and complicated Animals real and fictional have been a mainstay in the arts and entertainment figuring prominently in literature film television social media and live performances Increasingly though people are anthropomorphizing animals assigning them humanoid roles tasks and identities At the same time humans such as members of the furry culture or college mascots find pleasure in adopting animal identities and characteristics This book is the first of its kind to explore these growing phenomena across media The contributors to this collection represent various disciplines to include the arts humanities social sciences and healthcare Their essays demonstrate the various ways that human and animal lives are intertwined and constantly evolving

Animal Husbandry Regained John Webster, 2013 The farming of animals for meat and milk confronts a stark dilemma While world demand from a growing and more affluent human population is increasing rapidly there are strong counter arguments that we should eat less meat and pay more attention to environmental protection animal welfare and human health and well being The aim of this book is to identify and explain the causes and contributors to current problems in animal husbandry especially those related to factory farming and advance arguments that may contribute to its successful re orientation Husbandry is considered in its broadest sense namely the productive and sustainable use of the land for the good of all plants humans and other animals The first part of the book outlines principles and arguments necessary to engage with current problems depletion of natural resources and destruction of environment animal welfare food and health fair trade and sharing resources These arguments are illustrated by examples and sufficient evidence to justify the argument without obscuring the message The second part presents a series of constructive proposals for change and development in animal husbandry both in the developed world and subsistence agriculture These include more integrated crop and livestock farming systems the ethics of animal welfare and environmental management and the evolution of a new social contract whereby the rights of the people to a fair share of good safe food and a green and pleasant land are matched by a shared responsibility to preserve these things

Mind-Blowing Facts About the Planet's Strangest Animals Kylie Marin Keen, 2023-11-21 The Animal Kingdom's Best Kept Secrets You've heard of the blobfish but what about the northern glass frog which has skin so translucent you can see its heart Or the common egg eater snake which has a specialized spine to crush eggs after swallowing them Or even the sea potato a round brown ball of a creature that creates elaborate tunnel systems under the

ocean floor Dive into a world of obscure fantastic and downright weird wildlife with YouTuber and Animal Fact Files creator Kylie Keen as your guide This captivating collection of unusual animal facts transports you across countries and continents to learn about the little known creatures that call our planet home You ll discover a plethora of animal behaviors diets habitats and more in this exciting collection of over 60 fuzzy scaly and feathered friends From deep insights about human animal relationships to playful fun facts about the world s most peculiar fauna Kylie s approachable thorough profiles are exciting for kids and adults alike Consider this a must have in the library of anyone who wants to be wowed by the unexpected vastness and variety of the natural world

Strange but True: Bizarre Animals Timothy J. Bradley, 2018-03-29 Read Along or Enhanced eBook Blobfish pangolin and flower mantis are just a few of the names of the bizarre bugs and animals that readers will learn about in this fascinating nonfiction title Through vibrant images and photos informational text a glossary of terms and an index readers will learn some of the strange ways that arthropods invertebrates and mammals have adapted over time to camouflage themselves and develop interesting ways to keep predators away

Speaking of Animals Terry Caesar, 2009 Speaking of Animals consists of a linked series of thirteen essays about subjects ranging from deciding to castrate a dog evaluating recent dog memoirs observing animals in Spain reading about the training of big cats watching Animal Planet and being unable to kill a racoon in Texas So often personal even while analyzing novels such as Water for Elephants or movies such as Giant or Into the Wild the essays offer both an implicit critique and a continuation of recent discursive trends in animal studies whose language is too haplessly abstracted from the animals in whose name we humans strive to speak as well as narrate

Outrageous Animal Adaptations Michael J. Rosen, 2018-01-01 A fish that walks on land a frog that makes its own sunscreen and an insect that can become invisible Whether to avoid predators to stalk prey or to withstand extreme temperatures Earth s creatures have evolved some outrageous features and tricks to ensure survival For example did you know that the geoduck nope it s not a duck it s a clam can live as long as 160 years And that the aye aye a nocturnal primate uses echolocation and a long spindly finger to find and dig up food Or that in its deep ocean habitat the vampire squid uses bioluminescence to startle predators These are among the many animals that show evolution and adaptation at work

Animal Planet Scott Bradfield, 1996 **Animals and the Environment** Lisa Kemmerer, 2015-05-01 Contemporary Earth and animal activists rarely collaborate perhaps because environmentalists focus on species and ecosystems while animal advocates look to the individual and neither seems to have much respect for the other This diverse collection of essays highlights common ground between earth and animal advocates most notably the protection of wildlife and personal dietary choice If earth and animal advocates move beyond philosophical differences and resultant divergent priorities turning attention to shared goals both will be more effective and both animals and the environment will benefit Given the undeniable seriousness of the environmental problems that we face including climate change and species extinction it is essential that activists join forces Drawing on a wide range of issues and disciplines ranging from wildlife

management hunting and the work of NGOs to ethics ecofeminism religion and animal welfare this volume provides a stimulating collection of ideas and challenges for anyone else who cares about the environment or animals **Amazing Animals of the Rainforest** Tracey West,2009 Rainforests cover approximately 6% of the earth s surface yet are thought to contain over half of the world s animals and ants This amazing ecosystem sets the stage for some of the most exotic wildlife on Planet Earth From the frozen waters of the mangrove forests to the forest canopy of the Amazon this book explores the rainforest layer by layer detailing the animals that inhabit each space Packed with facts and photos it s the perfect introduction to this complex habitat *Encyclopedia of Television* Horace Newcomb,2014-02-03 The Encyclopedia of Television second edition is the first major reference work to provide description history analysis and information on more than 1100 subjects related to television in its international context For a full list of entries contributors and more visit the Encyclopedia of Television 2nd edition website *An Introduction to Zoo Biology and Management* Paul A. Rees,2011-05-06 This book is intended as an introductory text for students studying a wide range of courses concerned with animal management zoo biology and wildlife conservation and should also be useful to zookeepers and other zoo professionals It is divided into three parts Part 1 considers the function of zoos their history how zoos are managed ethics zoo legislation and wildlife conservation law Part 2 discusses the design of zoos and zoo exhibits animal nutrition reproduction animal behaviour including enrichment and training animal welfare veterinary care animal handling and transportation Finally Part 3 discusses captive breeding programmes genetics population biology record keeping and the educational role of zoos including a consideration of visitor behaviour It concludes with a discussion of the role of zoos in the conservation of species in the wild and in species reintroductions This book takes an international perspective and includes a wide range of examples of the operation of zoos and breeding programmes particularly in the UK Europe North America and Australasia Visit www.wiley.com/go/rees/zoo to access the artwork from the book **The Animal's Game** Dwayne Kimbrough,2023-10-27 Man is threatened only by fellow man Great is that threat because man throughout history has fought fellow man All impactful nations of our world fight other nations and must spend enormously because they must be ready to fight It seems that we cannot outgrow fighting This book imagines a world in which man does not engage in war Animals are surrogates and only animals engage in fighting to the death Such practice is beneath civilized man but he is not totally removed Humans are obsessed with watching animals fight to the death The animals do not mind What happens when kids try it Once the passion for fierce fighting enters the blood can humans resist the urge to engage in war Yes they are superior to animals but can humans refrain from doing the thing they believed they were too smart to ever do [Animal Symbolism](#) Rebecca Murphy,AI,2025-02-26 Animal Symbolism explores the widespread use of animals as symbols in art religion and culture It investigates how these symbols originated evolved and continue to shape our understanding of the world For example the dove s association with peace and the lion s representation of courage are not arbitrary they are rooted in historical and

cultural contexts The book reveals how understanding animal symbolism provides insights into human thought belief and artistic expression The book examines specific animals such as serpents birds felines and canines across diverse societies It draws evidence from religious texts folklore and artistic traditions to highlight the cultural significance of these creatures The approach emphasizes the interplay between universal archetypes and culturally specific interpretations The book begins by defining key terms and outlining theoretical approaches then delves into the symbolism of individual animals and concludes with a comparative analysis including case studies in modern contexts

Animal Souls Speak Robert Shapiro, 2007 Arcturus is the name given to the star system some thirty seven light years from our own It includes at least a half dozen planetary bodies and is many times larger and much older than our own star and its system Arcturian involvement with our system began over three million years ago when a space colony a galactic space station was established on Velatropa 24 4 otherwise known as Mars With its 40 000 year warm cycles Mars provided the perfect experimental way station If anything went wrong at least those on the Arcturus system would not be affected or so it was thought Some of those in command of the Martian project had not considered carefully enough the inexorable efficacy of karma the law of cause and effect By the time strange events began to transpire on Mars little did anyone on Mars or Arcturus reckon the strange consequences of forgetting about each other's mutual existence Thus unfolds the tale of the Arcturian experimental way station V 24 4 otherwise kno
