Tyner,2022-03-08 A timely and provocative discussion of alienation as an intersectional category of life under racial capitalism and white supremacy From the divisiveness of the Trump era to the Covid 19 pandemic alienation has become an all too familiar contemporary concept In this groundbreaking book James A Tyner offers a novel framework for understanding the alienated subject situating it within racial capitalism and white supremacy Directly addressing current economic trends and their rhetoric of xenophobia discrimination and violence The Alienated Subject exposes the universal whitewashing of alienation Drawing insight from a variety of sources including Marxism feminism existentialism and critical race theory Tyner develops a critique of both the liberal subject and the alienated subject Through an engagement with the recent pandemic and the Black Lives Matter movement he demonstrates how the alienated subject is capable of both compassion and cruelty it is a sadomasochist Tyner goes on to emphasize the importance of the particular places we find the alienated subject and how the revolutionary transformation of alienation is inherently a spatial struggle Returning to key

interlocutors from Sartre to Fromm he examines political notions of distance and the spatial practices of everyday life as well as the capitalist conditions that give rise to the alienated subject For Tyner the alienated subject is not the iconic romanticized image of Marx's proletariat Here he calls for an affirmation of love as a revolutionary concept necessary for the transformation of a society marred by capitalism into an emancipated caring society conditioned by socially just relations

Mishan, 2013-05-13 First published in 1982 Introduction to Political Economy is a clear and concise introduction to the normative aspects of economics by one of the world's leading authorities on the subject In this highly readable book Professor Mishan takes the student to the heart of the subject without recourse to algebra and with only the simplest of diagrams The author carefully distinguishes the various meanings of the terms political economy normative economics welfare economics and allocative economics He considers the standard allocation rules and the crucial concepts of consumer surplus and rent which are so important to cost benefit analysis while then going on to resolve the paradoxes of the efficiency criterion Lastly Professor Mishan assesses both the social worth of radical conservatism which is associated with the Chicago School of Economics and the relevance of the modern theory of welfare economics to social welfare [The American Economic Review](#), 2004-03 [Globalization](#) Jan-Erik Lane, 2014-07-25 Efforts at coordination between nations are at the heart of the challenges of globalization Despite steadily growing interdependencies individual nations still have specific interests that present obstacles to globalization While some challenges inspired by the need to coordinate are viewed as

inevitable by many they are less optimistic about prospects for success Jan Erik Lane argues that one should focus objectively upon the possibility of failures Lane analyzes four kinds of challenges to interdependency all of which are growing in geopolitical relevance First countries need to diminish their dependency on fossil fuel and shift to a reliable supply of energy because fossil fuels are diminishing Second environmental degradation must be addressed because it is accelerating under the strain of earth's population Lane advocates an ecological footprint approach Third a single global market economy and its complexities must be addressed as national economies are increasingly opened Finally as traditional state sovereignty weakens foreign military intervention in both international and intra state conflicts increases Governments are attempting to address these interdependencies or reply to the challenges they pose mainly through international organizations and regionalism These efforts are discussed at length In addition problems with international law are reviewed as Lane warns against the utopian hopes of global constitutionalism Globalization also examines the potential consequences of failing to address the need for coordination in efforts to address shared global challenges *Alternatives to Economic Orthodoxy* Randy Albelda, 2016-07-08 Exploring the question of whether China's peasantry was a revolutionary force this volume pays particular attention to the first half of the 20th century when peasant based conflict was central to nationwide revolutionary processes It traces key themes of social conflict and peasant resistance **Radical Political Economy** R.
