Se incluyen reflexiones sobre qué es trabajar en red, qué papel están jugando hoy las relaciones para el trabajo en el sector educativo y social y cómo esta tarea parte de la corresponsabilidad de diferentes agentes. El contenido está distribuido en tres grandes bloques: redes de inclusión social, redes de inclusión educativa y redes comunitarias. Se han recopilado dieciocho experiencias, reflexiones y proyectos de ámbito nacional e internacional en los que se han creado, mantenido y alimentado redes de diferentes agentes, instituciones y colectivos que trabajan en pro y para la inclusión social y educativa. La aportación fundamental que hace esta publicación es su marcado carácter actual y real, ya que se ha construido como un mosaico de voces que hablan, por ejemplo, desde las redes de mujeres mineras de Colombia al papel del voluntariado en red para el refuerzo escolar en la provincia de Guipúzcoa, pasando por la creación de comunidades virtuales internacionales desde un diseño universal accesible. En los últimos capítulos se ahonda en los aspectos clave de las redes en términos de la coordinación a la vez que se remarca su importante contribución a la cohesión social. En definitiva, el libro ofrece aportaciones teóricas y prácticas para cualquier persona que trabaje tanto en el tercer sector privado o social, administraciones, universidades y tenga interés en la generación de redes para la inclusión social y educativa.
