Redesigning The American Dream The Future Of Housing Work And Family Life:

Redesigning the American Dream Dolores Hayden, 1986 The noted feminist theorist argues for a new conception of architectural design and outlines housing plans that will support new patterns of nurturing and opportunity for a range of individuals and families *Modern Housing for America* Gail Radford, 2008-10-03 In an era when many decry the failures of federal housing programs this book introduces us to appealing but largely forgotten alternatives that existed when federal policies were first defined in the New Deal Led by Catherine Bauer supporters of the modern housing initiative argued that government should emphasize non commercial development of imaginatively designed compact neighborhoods with extensive parks and social services The book explores the question of how Americans might have responded to this option through case studies of experimental developments in Philadelphia and New York While defeated during the 1930s modern housing ideas suggest a variety of design and financial strategies that could contribute to solving the housing problems of our own time **Companies We Keep** John Abrams, 2008-09-10 Part memoir and part examination of a new business model the 2005 release of *The Company We Keep* marked the debut of an important new voice in the literature of American business Now in *Companies We Keep* the revised and expanded edition of his 2005 work John Abrams further develops his idea that companies flourish when they become centers of interdependence or communities of enterprise Thoroughly revised with an expanded focus on employee ownership and workplace democracy *Companies We Keep* celebrates the idea that when employees share in the rewards as well as the responsibility for the decisions they make better decisions result This is an especially timely topic Most of the baby boomer generation the owners of millions of American businesses will retire within the next two decades In 2001 50 000 businesses changed hands In 2005 that number rose to 350 000 Projections call for 750 000 ownership transitions in 2009 Employee ownership in both the philosophical and the practical sense is gathering steam as businesses change hands and Abrams examines some of the many ways this is done *Companies We Keep* is structured around eight principles from Sharing Ownership and Cultivating Workplace Democracy to Thinking Like Cathedral Builders and Committing to the Business of Place that Abrams has discovered in the 32 years since he cofounded South Mountain Company on the island of Martha s Vineyard Together these principles reveal communities of enterprise as a potent force of change that can and will improve the way Americans do business **The Affordable Housing Reader** J. Nathanson looks specifically at the issue of time in this context and argues that the media constructs panics about domestic time scarcity while at the same time offering solutions for those very panics Analyzing TV programs such as *How Clean is Your House* *Up All Night* and *Supernanny* she finds that media's portrayals of women's time is crucial to understanding definitions of femininity women's labor and leisure in the postfeminist context **The Challenge of Modernity** Adelheid von Saldern, 2002 A collection of work in translation by the celebrated influential German historian Adelheid von Saldern

Frank, 1998-08-20 Who was the Victorian patriarch and what kind of father was he In this richly documented study Stephen M Frank presents the first account of nineteenth century family life to focus on the role of fathers Drawing on letters diaries memoirs and other primary sources Frank explores what fathers thought about their family responsibilities and how men behaved as parents His findings are often surprising Beneath the stereotype of the starched Victorian patriarch he discovers fathers who were playful demanding uncertain of their authority and deeply anxious about their children's prospects in a rapidly changing society men with strikingly modern attitudes toward parenthood Focusing on Northern middle class families he also uncovers the social origins of the family man ideal and explores how this standard of middle class propriety found its way into practice *Life with Father* looks beyond the well known nineteenth century fascination with motherhood to discover a social order that valued a father's care no less than a mother's love as a basis for stable family

relationships This compelling social history engages readers with the story of how families in the past struggled with economic and social changes that required fathers to reassess themselves as parents and as men *Encyclopedia of the City* Roger W. Caves, 2005 A first class work of reference that will be both an essential resource for independent study as well as a useful aid in teaching a solid but also provocative starting point for wider exploration of the city *Handbook of Research on Urban Politics and Policy in the United States* Ronald K. Vogel, 1997-01-21 A comprehensive reference work which provides a way to access research on urban politics and policy in the United States Experts in the field guide readers through major controversies while evaluating and assessing the subfields of urban politics and policy Each chapter follows the same basic organization with topics such as methodological and theoretical issues current states of the field and directions for future research For students this work provides a starting place to guide them to the most important works in a particular subfield and a context to place their work in a larger body of knowledge For scholars it serves as a reference work for immediately familiarity with subfields of the discipline including classic studies and major research questions For urban policymakers or analysts the handbook provides a wealth of information and allows quick identification of existing academic knowledge and research relevant to the problem at hand Television And Everyday Life Roger Silverstone, 1994-05-19 Television is a central dimension in our everyday lives and yet its meaning and its potency varies according to our individual circumstances mediated by the social and cultural worlds which we inhabit In this fascinating book Roger Silverstone explores the enigma of television and how it has found its way so profoundly and intimately into the fabric of our everyday lives His investigation of great significance to those with a personal or professional interest in media film and television studies unravels its emotional and cognitive spatial temporal and political significance Drawing on a wide range of literature from psychoanalysis to sociology and from geography to cultural studies Silverstone constructs a theory of the medium which locates it centrally within the multiple realities and discourses of everyday life Television emerges from these arguments as the fascinating complex and contradictory medium that it is but in the process many of the myths that surround it are exploded This outstanding book presents a radical new approach to the medium of television one that both challenges received wisdoms and offers a compellingly original view of the place of television in everyday life
