Lester M. Salamon, 2003-08-29 A Brookings Institution Press and the Aspen Institute publication *The Resilient Sector* makes available in an updated form the concise overview of the state of health of America's nonprofit organizations that Johns Hopkins scholar Lester Salamon recently completed as part of the state of nonprofit America project he undertook in cooperation with the Aspen Institute. Contrary to popular understanding, Salamon argues America's nonprofit organizations have shown remarkable resilience in recent years in the face of a variety of difficult challenges, significantly reengineering themselves in the process. But this very resilience now poses risks for the sector's continued ability to perform the tasks that we have long expected of it. *The Resilient Sector* offers nonprofit practitioners, policymakers, the press, and the public at large a lively assessment of this set of institutions that we have long taken for granted but that the Frenchman Alexis de Toqueville recognized to be more deserving of our attention than almost any other part of the American experiment. ***Managing High-intensity Internet Projects*** Edward Yourdon, 2002 In *Managing High Intensity Internet Projects*, Ed Yourdon delivers instant practical solutions for virtually every challenge you'll face in leading today's high intensity Internet time projects.
